Sexism in Gaming

Source: [G4TV](#)

- XPlay host Frosk goes on an unscripted rant about her experience as one of the new XPlay hosts since joining G4TV.
- “Every time G4 is brought up, there will be backlash because I’m not as bangable as the previous hosts. It’s somehow expected that you can talk about how much you jerked off to women as a compliment. Morgan Webb and Olivia Munn did not exist to be nice on the eyes for you.”
- “Our reviews are written and produced by a team of people, Adam and I will read the same script, but I’ll be the one flamed. You think I’m less qualified to speak on something, but you can’t quite put your finger on why, even though I’m reading the exact same script, and you have no problem when he’s part of it. You’re gatekeeping the gaming space.”
