

BANGALORE INSTITUTE OF TECHNOLOGY
K R ROAD, V V PURAM, BANGALORE-04
DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

COURSE END SURVEY-2024-25 (Even)
Batch: 2023-2027 CBCS

Course Title : Data structure using C

Course Code :BEC405D

USN							
NAME							

1. Able to implement different linear data structure like array, stack and queues for application.
 - a. Excellent
 - b. Good
 - c. Satisfactory
2. Able to design and implement different types of non linear data structure like tree and graph.
 - a. Excellent
 - b. Good
 - c. Satisfactory
3. Able to learn various sorting and searching algorithms and analyze their time complexity.
 - a. Excellent
 - b. Good
 - c. Satisfactory
4. Able to Apply data structures and algorithms knowledge to solve real-world programming challenges efficiently.
 - a. Excellent
 - b. Good
 - c. Satisfactory
5. Able to learn various sorting and searching algorithms and analyze their time complexity.
 - a. Excellent
 - b. Good
 - c. Satisfactory
