Introduction

The paper should have clearly identified sections, for example, introduction, development, and conclusion. Citations should be made according to the latest Brazilian ABNT NBRs using the author-date system. Quotations longer than three lines should be indented by 4 cm from the margins.

References

Bibliographical references and citations should be made according to the latest ABNT NBRs using the author-date system. It is recommended to include only the references actually cited in the article.

Exceptionally, according to the culture of foreign authors, the Editorial Board reserves the right to approve articles with citations in other systems and with other international references not covered by ABNT.
