Classroom News:

Dear families and scholars,

We have a wonderful week back to school and have practiced new rules and procedures. Students are quickly growing as a community of learners. In reading we are learning Letterland word families -ack, -am, & -an. Please be sure to complete daily homework and place it back in the yellow folder. Your help at home is very important in your child's success. We have been collecting and interpreting data in charts to determine answers to questions involving total, most/least, and comparisons. We will have a math assessment on Friday to check their skills. We are learning about communities in social studies to build a strong class culture that works together as a team. The students generated classroom rules and we are working toward being responsible citizens.
