

Our Pricing

We aim to be transparent in our pricing and recognise that for many of the start ups and smaller organisations that we love to work with, consultancy fees can be difficult to find. We offer tiered discounts to smaller not for profit and public sector organisations based on income.

We are happy to work with you to design a support package that meets your budget and we work with a variety of fee structures including daily or project based costing. The rates listed below indicate the usual basis for calculating a budget.

We believe our pricing is consistent, or lower, than rates you will find for similar services elsewhere. (We've included some links below if you'd like to check).
