

Accessing ClassLink from Home

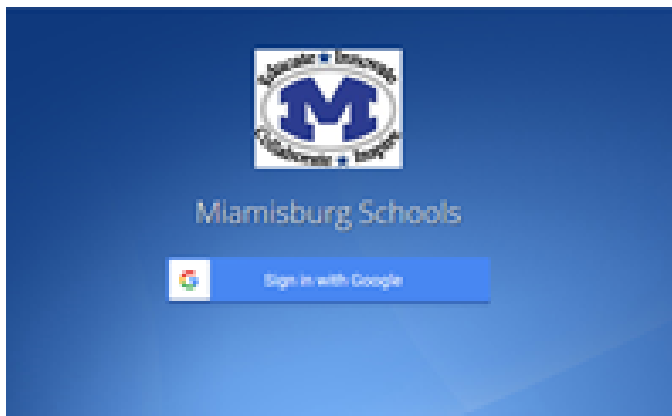

Miamisburg City Schools utilizes ClassLink as a one-stop shop for online resources. The amount of technology utilized inside and outside the classroom for instruction and learning has grown tremendously. Our teachers and students use more digital resources and devices than ever before. As this change is making education better, the expectations of teachers and students to remember usernames and passwords is challenging. ClassLink helps solve this problem.

ClassLink is a single sign-on solution giving students and teachers access to their digital resources anywhere and with one password. ClassLink accounts are connected to students' school email addresses. Students will use their school GMail username and password to log into ClassLink and they will view apps for the programs they utilize for the courses they have in their schedule. Students use links at school to access ClassLink. To access ClassLink at home, students will go to <https://launchpad.classlink.com/miamisburg>.

Steps to Access ClassLink from Home:

*** Before you begin, please make sure that you are logged out of all other gmail accounts or Google browsers.

1. Go to <https://launchpad.classlink.com/miamisburg>
2. Click Sign in with Google

3. Enter your Miamisburg City Schools' GMail username and password.
4. If you receive an error stating "not connected", check to see if you logged into the Chrome web browser under another email account. You must either be logged into your school GMail account in the Chrome web browser you are using for ClassLink, or no email at all.

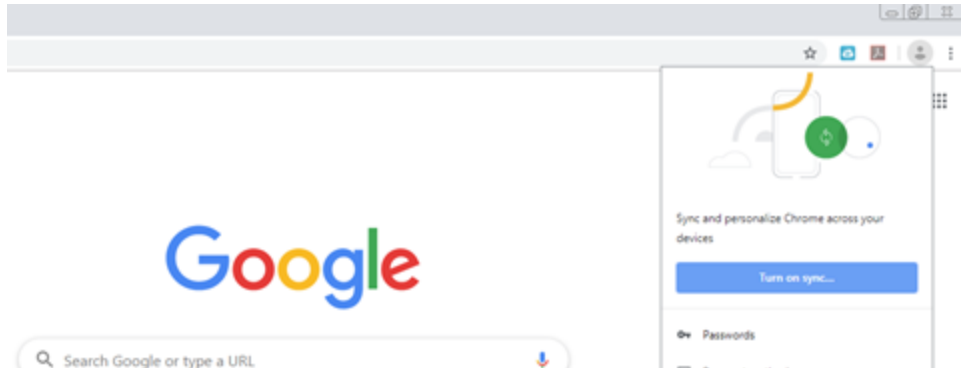

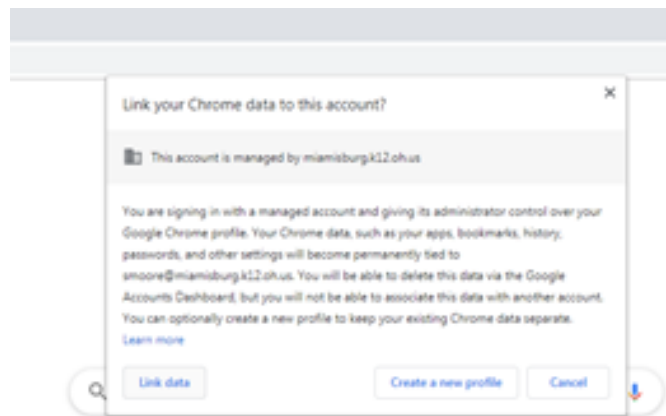

Steps to Access ClassLink from Home: Sync your Chrome Browser

Google Chrome allows you to sync your browser data with your Google account. To set this up go through the following instructions. This will allow you to access your bookmarks on your school Gmail account.

1. Launch Google Chrome in your browser. In the top-right corner of the browser window, click the little circle with the head in it and then select Turn on Sync.

2. Enter your school email address and password.
3. Select Link Data in the pop-up window

4. In your bookmarks toolbar, select MCS Internet Links and ClassLink.
