

Hello to whoever is reviewing this scene, thought I'd leave a little introduction note about me, and some additional info on this scene.

I am Grimace, this is my first time writing any sort of sex scene, and I acknowledge that my writing skills may be a bit off on this or outright bad, but I'm always looking to improve.

I like futa content and not really a big fan on male content.

I would gladly write scenes such as:

- futa on female
- female on female
- male on female

And i prefer not writing any scene that involves both parties having dicks(it's just something i'm not into or feel comfortable writing)

My preferred fetishes to write content for would be:

- BDSM
- Petplay(its kinda easier to understand and write)
- Tailplay
- Pregnancy

The following scene below could be applied to either gender, I kept it vague.

I also attempted to mimic the original author's style to the best of my ability so as to not throw people off.

Also, I feel like the end result of this is more of a cock worship scene than a straight up Blowjob. So feel free to change the title to what you think feels appropriate if the scene becomes accepted.

Keep in mind that I added wayfort parsers so the scene matches up with shovels frost pupper expansion.

# Frost Pupper Blowjob

**[Blow Her |** Reward your big puppy by sitting her down and servicing her cock before letting her rut your face like a bitch in heat.**]**

Taking her leash, you lead your obedient pet out of the throne room to your private chamber. Finding it vacant, you close the door behind you.[cave.] Turning your attention to the half-jotun in front of you, you begin to undress. The oversized half-breed's tail starts to wag as she watches you strip and place your clothing on the [atWF]floor[ground].]

Once you're naked, you walk up to your adorable pet and reach up to tussle her ears and hair. "You've been a very, very good girl," you say. "and good girls deserve to be rewarded!" Immediately, the giantess smiles widely, and the fluffy tail behind her enters full swing, wagging as fast as it'll go at the prospect of being rewarded.

You lower your hand downward, grabbing the leash and tugging the giantess towards [atWF]the bed[a nearby rock], pointing at it. "Sit," you command, giving the puppy a light swat on the ass while you do so. Your massive pet wastes no time and follows the order and spreads her legs, giving you a clean view of her oversized drooling member and her melon-sized hairy balls that gently hang beneath it.

"Good girl!" you exclaim while sauntering over to her. You kneel down between her thick, fur-clad legs and take her fat, half-hard dog-cock in hand. Slowly, you start to stroke from knot to head, feeling it growing firm and thicker in your palm as you do.

"Do you like that?" you purr, regarding her with a mischievous smile.

The ice-hued pupper blushes as she gently nods her head in response. If that wasn't enough to convince you, the white tail behind her is a sure indicator that she's enjoying it <b>alot!</b> It's practically wagging to the point that it's a blur.

Not wanting to keep your frost-doggy waiting, you get to work.

Leaning your head down, you press the half-lupine's tapered dick against your cheek. Then begin to trail agonizingly-slow kisses up her throbbing shaft.

When you finally reach the tapered tip of her bitch-breaker, you give it a long kiss, which immediately elicits a small, whining moan from the half-giantess. You thoroughly lick around the tip for several long seconds, her canine-cock throbbing needily against your pursed lips as you do. The big puppy's fluffy ears subconsciously start to fold downwards as she lets out a cry of pleasure. You feel the warm droplets of pre beading against your lips.

You quickly lap up the contents from her swollen cockhead before gently licking up and down her knotted shaft. The sound of the needy puppy's lust-filled moans fill the [atWF|room|cave]. Her long, furred-clad legs shake in pure arousal as you continue to lick and suckle around the edges of her throbbing puppy-cock. You spend some time suckling along the edges of her canine-bitchbreaker as it eagerly bobs and twitches against your [pc.lips]. Each time you glide your mouth up and down her oversized breed-stick, you leave behind a soaking mess of spit [pc.hasLipstick|and lipstick ]that leaves her dick shining with all your adoration. You take your time, licking and nursing at your pet's member as she pants in pleasure as you glide your tongue up her doggy-cock, locking eyes with the sluttiest look you can muster. Given the size of her twitching ice-hued dick, it takes some time to reach her tapered tip and when you do, you run your tongue through her pulsing cum-slit before moving back down her fuckstick in a slow and teasing fashion. Once you reach the base of her knot, you spend some time licking around that glorious bitchplug before continuing your efforts elsewhere.

Tracing your [pc.lips] up, and down her large shaft, your massive pet continues to whine and moan under the onslaught of your tongue. You lick down her throbbing cock, past her swelling knot, and push your nose into her large fuzzy nutsack and take one of her balls into your mouth. Your ice-blue lover violently shudders and shakes in response as a jet of ivory spunk escapes, shooting out from her tapered tip before splattering on top of your head as it begins to trail down your back.

You [pc.isBimbo|giggle|chuckle] to yourself. It's very clear [pc.isBimbo|the cutie-pie puppy is|she's] enjoying her reward so far. But you want to hear it from her. "Are you enjoying yourself?" you teasingly ask your frost-hued doggy. The half-breed doesn't speak, but her tail is moving [silly|1,609.34 kilometers|a thousand miles] a second as she gives you a happy beet-red smile in return. Well, she doesn't speak. That's probably the best response you'll get out of her. Nonetheless, you're glad your massive pet is enjoying herself.

You nestle your face back into the amazon's large fuzzy sack and continue your efforts. Suckling on one churning, cum-factory before moving onto the other, getting various reactions from your big puppy in the process, causing her to moan and groan as she happily enjoys every second of it. You let the fuzzy ball you were suckling on pop out of your mouth so you can start to slowly but surely lick her rapidly cum-flating knot. Her beautiful ice-blue bitchplug is practically pulsating under your [pc.tongue] as you tease it with promises of knotting that aren't going to

happen. After spending some time sucking and worshipping her breeders-bulb, You begin kissing up her twitching member, [pc.hasLipstick |leaving behind another trail of lipstick imprints along her canine-shaft that glistens and shines with your warm saliva|leaving behind a warm sheen of saliva] that dribbles down to her soaked fuzzy-white nutsack as you take a painfully long seductive lick up to the tapered tip of her icy breed stick. Gently suckling along the ridges of her bitch-breaker, slurping up every ounce of sweat your greedy tongue can find on the way up. Due to her sheer size, it takes quite a while to reach the top, but once you do. You wrap your lips around the tip of her cock and lick in slow, loving circles. The big puppy shudders from the sensation and her massive breasts sway above you, rising and falling with each gasping breath she takes. You flick your [pc.tongue] across her cumslit, coating it in new layers of saliva before sucking it right back in to taste just how needy she is. Your pet grits her teeth and whines as you slowly push yourself a little further onto her big fat dog-cock, gagging yourself in the process as you manage to take half of her doggy-dong into your mouth and throat.

The futazon can't take it anymore. Her hands dip down to clasp your head, but you're quick to stop her. Reaching up and grabbing her hands, you slowly pull your head away from her big, throbbing lupine-cock. The half-breed whines when her dick leaves the warm and snug embrace of your mouth, exposing her saliva-covered bitch-breaker to the chilly air. "Now, now, there's no need to rush it," [pc.dcb|you scold your [rand|needy bitch|submissive pet|whining pet slut|misbehaving pet]]you whisper soothingly to your fidgeting puppy|you coo out happily to your lust-addled play-puppy]. "This is supposed to be your reward after all. You don't want it to end too soon, do you?" The mongrel whines in response but reluctantly withdraws her hands back and cups her big tits, kneading and teasing each diamond-hard nipple between her digits. "Good girl," you praise her, leaning up to give the frost puppy a pat on the head before bringing your attention back to her big, twitching blue dick once more. The way it pulses with eager anticipation is almost mesmerizing. But your ice-blue giantess quickly snaps you back to your senses with a whimper and insistent grind of her hips against your face.

Lowering your head, you begin to nuzzle your face into her warm, fuzzy balls once again. The weighty orbs are practically sloshing with an immense load of seed as her musk overloads your senses. With a nimble movement of your hands, you wrap one around her twitching breed-stick and bring the other underneath her fuzzy, cum-filled orbs and heft both in a singular hand, feeling her doggy-batter churning and sloshing within. You begin to stroke her cum and spit-slick shaft while squeezing, fondling, and bouncing her seed-filled balls in their ivory-furred sack. Bringing them to your lips, you kiss and worship the bountiful seed-heavy orbs, letting your tongue flick across each one, shining her already spit-soaked ivory nuts even more as you tease the poor puppy with licks and kisses for the better part of a minute before taking them back into your mouth. The half-giant goes straight back to moaning and the pre that cascaded down her large, throbbing rocket mere moments ago now streams down her tapered dick in ivory rivers, soaking the large sloshing balls that you have been so fervently licking. Nevertheless, you don't stop for even a moment as your face slowly becomes covered in the frost giantess' bodily fluids. You press your face against her over abundant churning balls, feeling them still filling. The contents within only serve as a reminder of just how much there is in store for you.

After a musk-filled blur of passionate kisses, licks, and stroking, you reluctantly withdraw from her fuzzy sack. Your face is drenched in mongrel-spunk as you start the slow and pleasurable task of licking your way up from the base of her knot towards the tapered tip of her dick for the very last time. Your futazon shakes in spine-shuddering ecstasy and gives a throaty moan as you lap at the rivering trail of warm jizz on your way up. When you finally reach the tip, you gently wrap your lips around her big, fat puppy-cock and your mouth is immediately greeted with a short thrust upwards. Her fully-engorged bitch-breaker presses your tongue flat and plugs your throat, forcing you to gag and breathe in cum-scented half-breed musk. You take the time to steady yourself and regain control, sucking in your cheeks and tightening the seal around her twitching shaft. Your warm mouth serves as nothing more than a tight holster for the giantess and you're amazed at how well your [pc.dcb|horny bitch|pet-play parter|super-cute cuddle-pup] has managed to restrain herself so far. From the way her ice-hued thighs tighten around either side of your body, squeezing you in an iron grip, you can tell she's holding back from just grabbing your head and pulverizing your face between her legs.

You lovingly suck the giantess' big blue tapered tip, circling your tongue around it repeatedly. This finally sends the half-lupine over the edge as she moans even louder than before. With a powerful buck of her hips, a jet of warm, salty cum floods the back of your throat, causing you to sputter and gag. This just encourages you to work even harder to reward your big puppy as you continue to jerk the icy canine's big doggy-dick while your [pc.lips] keep their tight seal around it. The ice hound shakes and trembles in pleasure, having been reduced to a moaning mess of fuck while you steadily increase the intensity of your suction. You glance upwards as you suck the big, throbbing blue cock. You can barely make out her face due to her massive breasts obscuring your view but, surprisingly, you can see a sliver of drool cascading down her chin whenever she thrashes her head and arches her collared neck as she tugs her own leash. She's in a world of her own. You give the best approximation of a cocky grin you can with a mouthful of beautiful, blue dogmeat, as you suck the amazon's ice-hard shaft, knowing damn well that you're probably giving your pet the best head of her life.

You glide your head up and down her big, throbbing blue cock, and repeatedly bob your head in rhythm with each shallow thrust of her hips. You tighten your lips around her ice-blue bitch-breaker like a vise-like grip, drawing her further in and taking [silly|2.54 centimeters after 2.54 centimeters|inch after inch] of her big blue cock into the warm constricting confines of your mouth. The giantess arches her back, bucking her hips over and over desperately and driving her fantastically firm fuck-meat into the back of your throat. You gag every now and again but, for the most part, you've got total control of how your mouth and throat grip and stroke her shaft. You dive forth and impale more of her immense dog-meat into your gluttonous maw, sucking in your cheeks and slathering her bitch-breaker with as much spit as you can muster. You bob your head there for what feels like an eternity, blowing your big puppy the best way you know how. You begin to feel the strain in your jaw slowly setting in, your tongue is numb and your cheeks hurt. Your throat is raw and raspy from your efforts in pleasuring your [pc.dcb|massive slut|big puppy|big cutie-patootie]'s doggy-dick. You're not entirely sure if you can keep up the pace for

much longer, but all your hard work and efforts at pleasuring her eventually pay off and ignites a deep fire within her.

Your big puppy grits her teeth and, an instant later, howls in pleasure and thrusts upwards as hard as she can straight into your mouth, hilding her entire big blue cock in your maw, and forcing your throat to stretch and bulge outward into the shape of the giantess' shaft, your lips stopping at the top of her swollen love-knot, threatening to dislocate your jaw at a moment's notice.

You barely have time to readjust yourself or get used to the massive tool sheathed inside your mouth before she begins to feverishly pull back, dragging her tapered-cock against the inner walls of your tight throat as she does so. Then, with one swift movement of her paws, she grabs the back of your head uncontested this time and slams it back in. Her wide hips impact your face when she does so, stunning you in the process and gagging you, causing you to choke and sputter on her canine member. Well, she endured you for this long. Your jaw is already aching at this point, so it's only fitting to let her take the lead and finish on her own terms. This is **<b>'her'</b>** reward after all.

The ice-hued mongrel doesn't stop there, however. She lets out a shuddering moan and pulls back to thrust home once more. Her massive breasts jiggle with the impact of her hips against your face as she goes straight down your throat and hilt you at the base of her knot, her furry white seed-filled orbs pressing tightly against your chin as she lurches forward and stuffs your entire throat full of big, blue, throbbing puppy-cock. Inch after inch, she manages to shove into your mouth with each thrust. The half-breed soon picks up the pace and starts to roughly face-fuck you as fast as possible—once-twice-three times! It feels like the world is fading to black as she mashes your face between her legs with an amazonian might. You groan and gag with each mighty thrust of her wide hips. It's nearly impossible not to when the half-giantess' massive tool takes up most of the space in your throat, and the sheer size of her body makes every thrust all the more powerful. Each time the half-giant slams back into your mouth, you imagine the sound of your head being battered between her legs echoes around the [atWF|room|cave], but your world is all crotch, thighs, and blood pounding in your ears. You're most definitely not walking away from this without at least some bruising. Even so, despite the pain in your tired jaw, you refuse to be a sitting duck while she does all the work. You try your best to suck her big meaty cock in perfect timing with each thrust. Each time you do, she grows ever closer to orgasm, picking up the pace and fucking your face with all she can muster.

The frost giantess' tongue begins to loll out as she pants from the exertion of the intense face-fucking she's giving you. She ruts your head with the animalistic fervor of a bitch in heat. Strands of your own drool slowly join and pile onto the fluids that already cover your drenched face with each savage, jerky thrust she gives. And only then do you realize how close you are to your own orgasm. Your toes curl and you let out a muffled moan around her big fat doggy-cock as you see stars. It's either due to the mind-numbing orgasm you're about to experience or the lack of oxygen reaching your brain from the intense face-fucking.

Either way, you're not the only one close to orgasm, your big puppy feels the vibrations of your moan around her big blue cock, which is enough to cause it to pulse in eager anticipation, and her legs to tremble on each side of your head. Reaching up, you wrap your arms around the half-breed's massive blue hips to maintain your leverage and support. The giantess obviously approves of this and begins to tighten her grip on your head with her large paws in response. Once you get settled in, the half-jotun gives a loud, whorish moan as she thrusts into your mouth as hard as she can once more—your oversized mutt is eager for release! Your head reels back a bit from the impact and your face scrunches in pain while your eyes squeeze shut from the hammer-like blow. When you're able to open them again, blue and white is all you're able to see, given how tightly the lust-addled canine is pressing you into her crotch. Your eyes begin to dilate as your senses are immediately overwhelmed by the giantess' musk and sweat as she holds you in place.

The only other feeling you have at this point is the constant throbbing of the half-lupine's big, fat puppy-cock stuffing every inch of your throat. You're also keenly aware that your stomach is bulging slightly from the copious amounts of pre-spunk she's been steadily dumping into you. You can't help but let out a groan as you feel it sloshing inside you, reminding you of what's to come. You're not entirely sure if you can handle the main course but you don't want to let your furry ice hound down. Especially when she's been such a **good girl** and really deserves the rest of her reward. After what seems like an eternity, the giantess slowly pulls back, scraping her swollen tapered-dick along the inner walls of your throat and leaving behind a long trail of jizz in its wake. With one final needy thrust, your pet sheathes her entire length into your mouth. Her massive knot finally pushes past your teeth completely. Your eyes widen as her swollen bitchplug stuffs your cheeks while your throat begins to stretch and bulge beyond belief in the shape of her bitch-breaker before she finally ties you firmly where you belong.

You're forced to breathe through your nose and that only fills your senses with more of the sex-soaked musk of her sweaty crotch as you're pressed tightly against the frost giantess. Her snow-colored pubes block out your vision as her fuzzy sack tickles your chin. You can hear the faint sound of her melon-sized testes churning and sloshing with seed, heralding a warning of what's to come. You brace yourself and cling tighter to the half-lupine's lower half, closing your eyes in anticipation. Not that you really need to, of course, when you're completely tied and at her mercy. Your thoughts are quickly drowned out by the sound of the half-breed's moans growing even louder and you finally feel her thick, knotted cerulean cock throb powerfully in your throat, followed by several jets of hot, white spunk filling your stomach. Each load is larger than the last as rope after rope stretches and floods into you, and this is what finally sends you over the edge. Your eyes roll back into your head and you let out a muffled moan around the half-giantess' tool while spunk is fired off into your body. This only seems to pleasure her even more and cause her to throb powerfully inside your knotted mouth, which only causes you to tense up as your orgasm overtakes you. Your strength begins to wane and your arms slowly release from your big puppy's wide hips.

Your stomach gradually rounds out with each virile load your giant mongrel dumps down your gullet. Your belly continues to distend and grow with half-breed spunk until you look gravidly

pregnant, causing you to heave and gurgle. Thankfully, before you turn into a beachball, the big puppy's loads become smaller and smaller until her once watermelon sized balls sag, deflated with post-nut relief—spent and with nothing more to give.

Her breeder's knob, however, remains firmly locked between your lips, preventing any spillage. Peering up at your big puppy, you see her smiling down at you, although barely due to her massive breasts obscuring your vision, her tongue lolling out like a tired dog.

She wearily lays down with you on the [atWF|bed|ground], keeping you firmly stuck between her legs and she pants with exhaustion. The half-breed's tail gently wags behind her and a loving and appreciative smile plays on her lips as she begins to slowly caress your [pc.hasHair|hair|scalp] with her paws in an adoring show of affection before she falls asleep. Guess you'll be tied to her for a while. you think to yourself, trying not to drool or salivate too much, since it's hard to swallow with her inflated knot still mimicking a ball-gag in your mouth and her flagging shaft still resting in your throat.

With how exhausted you and your puppy are from the rigorous face-fucking, you could both use a little rest.. You close your eyes and slowly drift off to sleep with her throbbing puppy-cock still lodged knot-deep in your mouth.

## **[Next | ]**

You wake up sometime later. Half-breed cum and bits of spit trail down your mouth and chin, and your face feels pretty bruised as well. You're still knotted by your giant puppy, but at least now she's soft enough to pull your mouth away with a loud pop. You quickly clean up, and begin to retrieve your clothing to get dressed.

Looking back down at the big puppy, she has a happy smile on her face as she sleeps. You wish you could stay longer, **[party.solo]** but you reach down to pat her head between her furry ears before taking your leave. **[** but you reach down to pat her head between her furry ears before taking your leave.
