School Connection Prompts

<u>Broader Questions</u>

1. What are you all hoping to gain from this relationship? As a school, what are your hopes?

2. What do you think your students would like us to know about them? What do you think they would like to know about our students?

3. What kind of support are you anticipating from your administrators? Are there school rules, expectations, or parameters from your administration that we should know about?

<u>Curricular Connections</u>

4. What is the curriculum like at your school? Are there categories in your curriculum (Quakerism, specific departments) that we might work within?

5. Are there classes or teachers that might be interested in connecting with us? Are there specific parts of the curriculum where we could be helpful to teachers and students?

6. What are the expectations and norms for technology? What type of tech (Padlet, Google suite, Zoom) do you have that we could utilize for synchronous or asynchronous connections?

<u>Visitor Questions</u>

7. Is there any interest in developing towards a potential in-person visit or exchange? Could that include either connecting with us coming there or a group from your school coming here?

8. If so, how might we start to explore making progress towards that end? What ways could we build interest and connect students either synchronously or asynchronously?

9. What are any cultural norms or social nuances that we should be aware of before visiting? Do you have any recommendations for resources we could explore?
