Assigning Lumio by SMART Activities

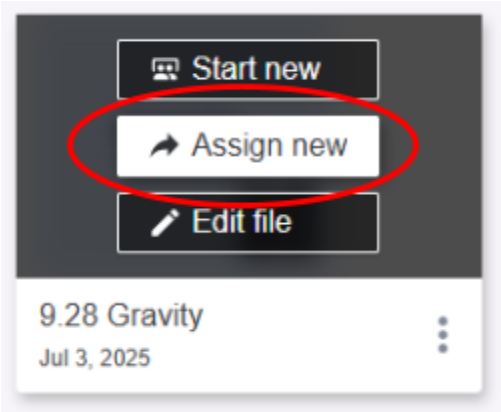

in Canvas

Looking for a way to assign Lumio by SMART activities to your students that gives you a place to give them a grade and feedback? Follow these steps.

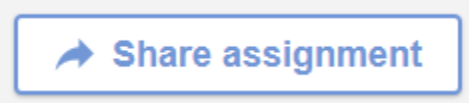

1. Access Lumio from Classlink and login.

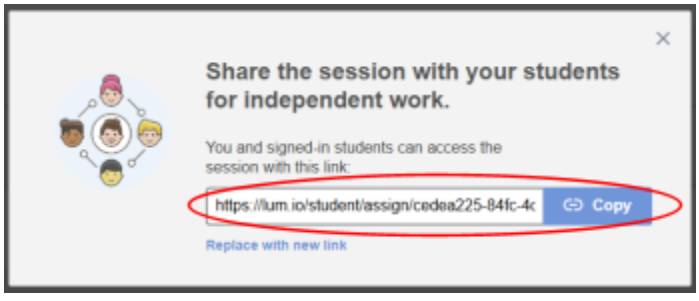

2. Locate the Lumio lesson you want to share with students, hover over the thumbnail and choose Assign.

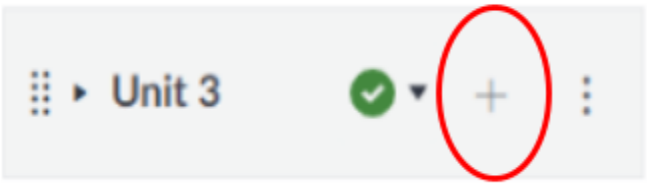

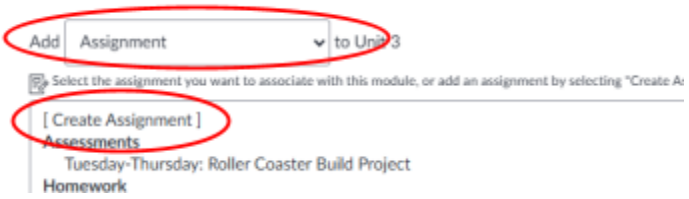

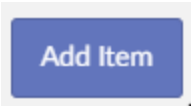

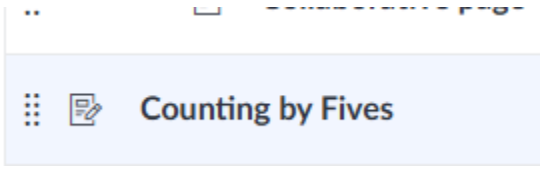

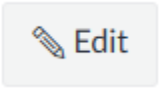

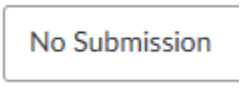

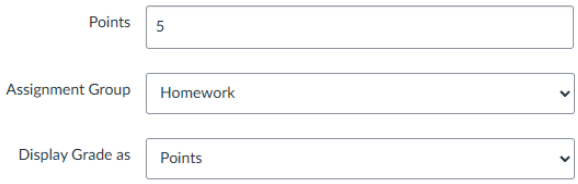

3. Choose Share Assignment from the right side of the session in your Class Sessions area.

4. Copy the lesson link provided.

5. Navigate to your Canvas course and the Module where you want the assignment to appear and select the Plus on the right to add a new item.	
6. Select Assignment and Create Assignment.	
7. Give your Assignment a name and choose your indent level.	
8. Choose Add Item.	
9. Select the Assignment from the Modules.	
10. Select Edit in the upper right corner.	
11. Build the lesson with all of the other components and add the Lumio link in the RCE.	Link to Lumio lesson
12. Under Submission Type, select No Submission.	

9. Choose your other assignment settings such as Points, Assignment Group, check the Sync to Gradebook, apply the Due date, etc.	
13. Select Save or Save and Publish.
