Snow Removal/Ice Control

Service Standard

- The contractor shall monitor weather and site conditions and use their professional judgment to determine when snow and ice control operations should begin and what equipment, materials, application rates, and methods are necessary to meet the requirements of this contract.
- On normal school days, primary parking lots and driveways shall be reasonably clear and accessible by 6:30 a.m., and designated sidewalks and pedestrian access areas shall be reasonably clear and accessible by 7:00 a.m.

- The contractor will communicate with the school to determine specific services during weeked/evening schedules, closures, delays, special events, and areas requiring access. Such communication is intended to establish the District's required level of service and availability and does not constitute direction of the contractor's means, methods, equipment, staffing, or application rates.
- **Pre-Treatment & Ice Control:** Application of chemical de-icers or abrasive sand/grit shall be performed upon request or automatically when icing/freezing rain creates hazardous surface conditions.
- Any property damage caused by snow removal operations must be repaired by the contractor at no cost to the owner by May 1.

Considerations

- Bid may be split between service providers for the West Union and the Valley Campus
- North Fayette Valley reserves the right to revoke the contract if any item is not satisfactory.
- Any services not bid must have a cost estimate and approval before completion.
- The district will do shovel work near entryways within 10 ft of doorways during operational hours.
