Github : <https://github.com/ehmasuk>

Linkedin : <https://www.linkedin.com/in/ehmasuk>

Location : Dhaka, Bangladesh

## ABOUT

Full-Stack Developer with 2+ years of experience building scalable web applications using MERN stack, continuously exploring new technologies and tools. Since beginning my journey , I've been captivated by programming, turning curiosity into passion and kept learning.

## SKILLS

- **Frontend** : JavaScript, React js, Next js, Typescript, Tailwind css
- **Backend** : RESTful APIs, Node js, Express js, MongoDB

## EXPERIENCE

- **Frontend Developer at Escuela De Escritura Creativa, Madrid, Spain**

Part time | Remote | November 2022 – April 2025

### Responsibilities:

- Built and maintained modern web pages
- Developed a RAG-based AI chatbot using LangChain.js, Next.js, and Pinecone

### Learnings:

This was my first company based job & I learned a lot from here :

- Collaborate with developers using GitHub
- Time management and meet the project deadline
- Implement new features from documentation
- Debug in a more efficient way
- Write clean, maintainable and modular code

## PROJECTS

- **PinPad – Live collaborative note sharing tool**

Tech stack : Next js, Node js, Typescript, Socket.io, MongoDB

Live demo : <https://pinpad.vercel.app>

Source code : <https://github.com/ehmasuk/pin-pad>

- **Real IELTS – A platform for IELTS Preparation**

Tech stack : Next js ,TypeScript, JWT, Auth js, Express js, MongoDB

Live demo : <https://real-ielts.vercel.app>

Source code : <https://github.com/ehmasuk/real-ielts>

- **BookOra – Online platform for writing books**

Tech stack : Next js, Node js, Tailwind css, Typescript, MongoDB

Live demo : <https://bookora.vercel.app>

Source code : <https://github.com/ehmasuk/bookora>

- **EazyBuy – Ecommerce website**

Tech stack : Next js, Node js, Tailwind css, MongoDB, Stripe

Live demo : <https://eazybuy-rho.vercel.app>

Source code : <https://github.com/ehmasuk/eazybuy>

## **OPEN SOURCE CONTRIBUTIONS**

- **RetroUI (Logging-Studio)**

Contributed on a UI component called Empty with proper documentation for users

**Learnings:**

- How to use mdx for documentation
- How to organize things to make the project scaleable
- How to contribute in an open source from a contribution guide

**Pull Request** : <https://github.com/Logging-Studio/RetroUI/pull/116>

## **EDUCATION**

- **Bachelor of Science (B.Sc.) in Computer Science and Engineering**

Sonargaon University, Dhaka, Bangladesh

Graduated : 2026

- **Higher Secondary Certificate (HSC)**

KPB School and College, Dhaka, Bangladesh

Graduated : 2018

- **Secondary School Certificate (SSC)**

KPB School and College, Dhaka, Bangladesh

Graduated : 2016
