

Two Adventure-Touring MOTORBIKES FOR SALE

Yamaha Tenere xtz 660 (2008) & Royal Enfield Himalayan (2018)

[TBILISI, GEORGIA]

We would like to sell both bikes between September 26 and October 14, 2022. Then, we will be again in Georgia in May 2023.

History: These bikes were driven by a couple of friends from England to Georgia. We then drove these excellent bikes during the summer of 2021 as part of our "[Explore Georgia](#)" project (a travel guidebook about the best off-road routes of Georgia which will be released in December 2022). They are still UK registered but we can register the bikes in Georgia in your name at the time of sale. They are completely adventure spec and ready to travel anywhere. The bikes have been perfectly maintained and we have their maintenance booklet with all the invoices. If you want to pick up both bikes together, we can give a substantial discount. Feel free to send any questions. They are great bikes and we love them dearly- we wish we didn't have to sell, but it's time to leave them! Please see below for details of all the upgrades!
