Class report

Using the Class report

Explore your report. What do you notice?

- Refer to normative data . How do your class mean and median compare with the Norm Grade Level Mean RIT?
- How did the class do on different goal/standard domain areas?
- What does the standard deviation say about the class?
- Which students' scores fell in low percentiles? Mid-range Percentiles? What does this say about support needs?
- What other data do your wonderings prompt you to investigate to better know your students as readers??

Whole class noticings	**Whole class wonderings**
Student noticings	**Student wonderings**

Who will I need to learn more about as readers? How will I do that?

Using the Class Breakdown reports

- Explore your reports. What do you notice?
- What range of performance across goal areas/standard domains do you notice?
- What might this say about the need for entry points in your instruction of these goal areas/ standard domains?
