 - If your name is not on this list (but should be), or your email is incorrectly listed, please reach out to Todd Benzies (tbenzies@linuxfoundation.org)

Per the [Charter](#)

Steady State: After the Startup Period, there shall be a nomination and election period for electing Contributors or Maintainers to the TSC. The TSC voting members shall consist of eleven (11) elected Contributors or Maintainers chosen by the Active Contributors. An Active Contributor is defined as any Contributor who has had a contribution accepted into the codebase during the prior twelve (12) months. The TSC shall approve the process and timing for nominations and elections held on an annual basis.

Contributors: anyone in the technical community that contributes code, documentation or other technical artifacts to the HLP codebase.

Maintainers: Contributors who have the ability to commit code and contributions to a project's main branch on an HLP project. A Contributor may become a Maintainer by a majority approval of the existing Maintainers.
