[Portfolio](#)

**Summary:** A technical UI/UX designer with deep expertise in Figma: components, auto-layouts, tokens, design systems, refactoring, and organizing large-scale projects. I create consistent interfaces that are easy for developers to implement. With 20+ years of experience in visual design, and in recent years, a strong focus on product-oriented UI/UX tasks. I work proactively, stay organized, and focus on a clean, structured midcore design approach.

## EXPERIENCE

### UI/UX Designer · Figma Specialist (Infinity Telecom, Novi Sad, Serbia) — 2023–2025

Key Responsibilities:

- Refactoring layouts and unifying all screens to a consistent style
- Adapting old layouts to the new design
- Migrating projects to the updated visual system
- Creating new master components based on existing elements
- Working with grids, typography, and design tokens
- Creating and maintaining the UI kit
- Designing a series of pixel art illustrations for landing pages (200+)
- Built reusable Figma master components to speed up interface assembly.
- Prepared assets for development and supported product teams.

### Media Designer (Rocket Media, Novi Sad, Serbia) — 2022–2023

Created digital marketing graphics: YouTube covers, banners, social media visuals. Produced simple motion elements (After Effects). Delivered fast-turnaround graphics for the content team.

### Freelance Photographer (St.Petersburg, Russia) — 2011–2022

Commercial photography: events, portraits, corporate shoots, festivals, architecture, documentary projects.

### Early Career in Graphic Design and Photography (St.Petersburg, Russia) — 2000–2012

Worked in retail, media, and advertising companies. Advertising layouts, outdoor graphics, print materials, photography, and media content.

## EDUCATION

- St. Petersburg State University of Industrial Technologies and Design, Graphics

## KEY SKILLS
