„If not us, then who? If not now, then when?“

Petitions and other quick actions

Created and maintained by Climate for Change, with thanks to all linked orgs in the tips and help column

Why use this table?

- Use as “quick” actions in MP Engagement Groups
- Post/repost on your social media to inspire more action
- If you're wondering if petitions work - [read this](#)! And this from the [Australian Marine Conservation Society](#)

Action	Level of government	Brief Background Information	Link	Organisation	Date added	Closing
Petition	Federal	Fix Australia's Environment Laws Let's fix Australia's environment laws so no project can be approved if its climate impacts will cause serious harm to the environment. Australia's environment laws are broken. Believe it or not, our laws currently do not require the Environment Minister to consider the impacts of climate change when approving new projects. We're calling for a simple, powerful change: No project should be approved if its climate impacts will cause serious harm to the environment.	https://chnq.it/G4Z4PQHYcX	Sasha Titchkosky & Suzy Anderson Bessell	04/08/25	N/S
Email letter	N/A - Macquarie Bank	Tell Macquarie it has betrayed its climate commitments and must not provide Beetaloo frackers any more funding! It is disgraceful that an institution which claims to support the goals of the Paris Agreement, and has committed to aligning its financing activities with the global goal of net zero, is enabling the development of a massive new gas fracking field. Fracking the Beetaloo Basin, as your clients Empire Energy and Tamboran Resources intend, would unleash some of the largest untapped gas reserves in the world, with projected emissions that would jeopardise our efforts to stay within a safe and livable 1.5°C climate pathway.	https://www.marketforces.org.au/empire-energy-gas-fracking-fantasies/	Market Forces	30/6/2025	N/S

Open Letter	N/A - Big Banks	Beetaloo: Fracking the heart out of Australia Australia is on the precipice of letting rip on an enormous new fracking venture in the heart of Australia's Northern Territory, the Beetaloo Basin. Despite being incompatible with a safe climate, Australia's biggest banks are funding the companies vying to detonate this climate bomb. Add your name to the open letter and join thousands of Australians calling on the banks to stop funding the companies working to detonate the Beetaloo carbon bomb!	https://www.marketforces.org.au/campaigns/projects/beetaloo/	Market Forces	16/06/2025	N/S
Open Letter	Federal (Prime Minister & Environment Minister)	Urgently ratify the High Seas Biodiversity Treaty We, the undersigned, call upon you to urgently introduce a bill to the federal parliament to ratify the high seas biodiversity treaty. We further call upon you to ensure that this bill incorporates all of the treaty's goals, in particular establishing marine protected areas and environmental impact assessments for planned activities on the high seas. We make this call because of the fundamental relationship between the health of our oceans and the health of human civilisations. Our oceans health is being damaged in multiple ways that you as our Prime Minister and Environment Minister have a responsibility to address, including:- - Offshore oil and gas exploration and extraction: which causes local habitat destruction, pollutes the marine environment with chemical release and oil spills, and disrupts marine life with noise and light pollution.	https://docs.google.com/forms/d/e/1FAIpQLSf0CfE5Ui8mb0ehSh4IEf6B9Xg8T-6HlLevowFYSwpPMVUEvg/viewform	Doctors for the Environment Australia	16/06/2025	N/S
Petition	Federal	Australia Institute research shows 80% of Australia's gas is exported by multinational gas corporations, who then tell us we have a gas shortage. The gas industry uses more gas just to run its export terminals than the whole of Australia uses for electricity or manufacturing. Gas production has tripled, and gas prices tripled too. Multinational gas export companies get over half of the gas they export from Australia royalty-free, yet the Treasury Department says they have never paid Petroleum Resource Rent Tax. Australians are tired of rampant gas exports driving up power bills for Australian households and businesses. Australians are tired of the gas industry not paying its fair share of taxes and royalties. Australians are tired of endless excuses from governments who fail to stand up to the gas industry.	https://nb.australiainstitute.org.au/fix_gas_export_problem	The Australia Institute	16/06/2025	N/S

		Big gas is taking the piss and Australian governments are letting them. It has to stop.				
Petition	Federal (Treasurer Jim Chalmers)	Make Them Pay: Billionaire gas companies must pay tax on exports Right now, global billionaire oil and gas corporations pay next to nothing to Australians for the resources they drill and export overseas for eye-watering profits. While everyday people struggle with grocery and housing prices, companies like Exxon, Shell, INPEX, and Chevron haven't paid a cent of tax on the oil and gas they export (through the Petroleum Resource Rent Tax) on a combined income of \$297 billion over the 9 years to 2021-22!	https://act.350.org/sign/make-them-pay-billionaire-gas-companies-must-pay-tax-exports	350.org	16/06/2025	N/S
Petition	Federal	Petition: Support New Laws That Protect Our Kids On February 10th, 2025, Independent MP Dr. Sophie Scamps introduced the Wellbeing of Future Generations Bill to the Australian Parliament - an historic step toward making sure our leaders consider the long-term impact of their decisions on the generations to come. This Bill gives us a powerful opportunity to shift politics from short-term thinking to long-term solutions - on climate, health, cost of living, education, and more. It's common-sense, cross-party, and urgently needed. As parents and carers, we know what it means to plan for the future. It's time our governments did the same.	https://www.parentsforclimate.org/future	Parents for Climate	29/05/2025	N/S
Petition	Unclear	STOP WOODSIDE'S DRILL You can help protect whales, dolphins, turtles - and our climate - from Australia's dirtiest offshore gas drilling project. Hidden off the coast of Western Australia, fossil fuel giant Woodside wants to develop the Burrup Hub, a massive gas nightmare that will endanger reef systems and wreck our climate. The Burrup Hub – which includes the Scarborough, North West Shelf, and Browse projects – could impact 12 different marine parks, including Ningaloo Reef. It would put marine life at risk and lock Australia into more fossil fuels as the rest of the world shifts to cleaner, cheaper renewable energy Read more about Woodside in our issue briefing, and don't forget to add your submission to their public consultation.	https://www.greenpeace.org.au/act/woodside#main-content	Greenpeace	28/5/2025	N/S

Open letter	Federal - Environment Minister	Sign the open letter to the environment minister - No new gas! Pass EPBC Laws! The new Federal Environment Minister, Murray Watt, has two big tasks on his 'must do' list: Firstly, he will need to make a decision on whether to approve the proposed North West Shelf extension which will allow a massive expansion of fossil gas production, and he will need to fast track the long promised and long overdue reform of the national environmental laws. Please sign this letter to the Minister, urging him to reject the North West expansion and deliver on the re-construction of the national nature (Environment Protection and Biodiversity Conservation, or EPBC) laws. Read more about Woodside in our issue briefing, and don't forget to add your submission to their public consultation.	https://www.foe.org.au/open_letter_environment_minister	Friends of the Earth	23/5/2025	Stated as 27/5/2025 but still open!
Petition	State - WA Minister for Environment	Reject Australia's biggest fossil fuel project Extending Woodside's North West Shelf gas export project for almost 50 years will hurt our climate and Australian communities. This gas export project will emit more than 4 billion tonnes of emissions, further corrode Australia's priceless cultural heritage, including the World Heritage nominated Murujuga Rock Art, with its acid gas emissions and drive up energy prices. Read more about Woodside in our issue briefing, and don't forget to add your submission to their public consultation.	https://nb.australiainstitute.org.au/reject_north_west_shelf?recruiter_id=1044739	The Australia Institute	20/05/2025	N/S
Petition	Federal	Protect the Torres Strait There is an urgent need for the federal government to fund seawalls across the Torres Strait. Advancing seas are already threatening homes and damaging fresh water supplies, crops, burial grounds and sacred cultural sites. Join us in calling on the Albanese Government to increase funding for seawalls.	https://ourislandsourhome.com.au/	350.org	05/05/2025 (previously added on 17/3/24; petition has reopened)	N/S
Petition	N/A - Big Banks	Big banks: Stop fuelling the climate crisis! Here's the deal: big banks are investing billions in climate-wrecking companies that are harming women and undermining human rights. Big, polluting fossil fuel companies like Woodside and Santos can't expand without the money to fund their projects - and it's big banks that are giving them the dosh.	https://actionaidaustralia.org.do/stop-fossil-finance/big-banks/	ActionAid Australia	01/05/2025	N/S

Petition	Federal	The Australian Bushfire Survivor Declaration We are bushfire survivors, and the Australians who stand beside them. We are people from all walks of life, all abilities, all communities, all ages. Bushfires fuelled by the escalating climate crisis have cost us too much already. Now, we stand together in community to demand urgent action on climate. Will you stand with us?	https://www.bushfiresurvivors.org/declaration	Bushfire Survivors for Climate Action	29/04/2025	N/S
Petition	Federal	Fix our broken environment laws Australia's environment laws should protect our climate, our unique wildlife, biodiversity and World Heritage. But right now, they're safeguarding corporate interests instead of nature. Australia urgently needs stronger, more effective laws to protect our climate, environment, endangered species and World Heritage.	https://nb.australiainstitute.org.au/fix_our_broken_environment_laws	The Australia Institute	29/04/2025	N/S
Open Letter	Federal	Cut out bills with good, clean energy Everyone should have a home that's safe, healthy and affordable to heat, cool and live in, but for so many of us struggling right now, it feels like a distant dream. That's why, we are calling on the next Government to make a historic investment to expand these benefits and help everyone cut their energy bills for good with clean energy and home efficiency upgrades. If the government helped more people access solar, batteries, home insulation and better appliances, we could cut our energy bills by more than \$23 billion every year, reduce air pollution and create high-quality jobs in the industries that service household energy.	https://environmentvictoria.org.au/action/open-letter-cut-our-bills-for-good-with-clean-energy/?apcid=0066b1aa8ed967ec8520ee00	Environment Victoria	16/04/2025	N/S
Petition	Federal	Our wildlife needs your urgent action Australia is a deforestation hotspot and number one in the world for mammal extinctions. Every single second a native animal is brutally killed by bulldozers. But there is hope. The Australian Government is in a once-in-a-generation process of overhauling our national environmental law. Together we can make sure the new law halts nature destruction and ends the extinction crisis. Sign the petition and join the call to end agricultural deforestation in Australia by 2025.	https://www.greenpeace.org.au/act/forests-petition	Greenpeace	12/04/2025	N/S

Petition	Federal	Australia's healthcare system must get ready for the next climate disaster Australians are no strangers to extreme weather events. And with our climate changing, it's more important than ever that our healthcare systems ready themselves for the challenges ahead.	https://healthyclimatefuture.org.au/sign-the-petition/	Royal Australasian College of Physicians	12/04/25	N/S
Petition	Federal	Fix our Environment Laws, protect our climate The Albanese government is updating our outdated environment laws that in their lifetime have approved over 740 coal and gas projects. We have an opportunity to influence this process and make sure climate change is a key consideration of all the projects that come across the minister's desk.	https://350.org.au/fix-our-climate-laws/	350	12/04/25	N/S
Petition	Federal	Let's prove to decision-makers that we support strong climate action that protects people and oceans. For those that live and work by the sea, the impacts of climate change hit close to home. Many of us are already taking action to protect our dive sites, but we cannot do it alone. Decision makers, politicians, businesses and individuals must drive ambitious climate policy, empower climate leadership, decarbonise industry, and support community resilience in the dive industry. This national statement will be delivered to federal MPs and decision-makers within the dive tourism industry.	https://www.diversforclimate.com/imadiverforclimate	Divers for Climate	11/04/2025	N/S
Petition	Federal	Stop the promotion of climate-damaging fossil fuels The marketing, advertising, PR and media industries must stop promoting activities that are increasing greenhouse gas pollution and putting us on a path to a dangerous climate.	https://www.change.org/p/industry-associations-must-take-the-lead-on-the-climate-crisis https://fossiladban.org/	Comms Declare	26/03/25	N/S
Survey	N/A	Youth Climate Mental Health Survey ecomind, alongside Curtin University, Psychology for a Safe Climate, Imperial College London's Climate Cares and the Blackdog Institute, is launching what we hope will be Australia's largest targeted survey on climate change and mental health in young people. This survey aims to explore young Australians' feelings, experiences, and needs concerning mental health and wellbeing issues related to climate change.	http://www.ecomind.au/survey	Ecomind	19/02/25	N/S
Petition	Federal	Duty of Care Bill	https://adutyofcare.davidpocock.com.au/petition	Duty of Care Campaign/David	25/02/25	N/S

		Politicians and policy makers still aren't acting in the best interests of young people and future generations. We need to act now if we want to protect the people and places we love. Sign to support the Climate Change Amendment (Duty of Care and Intergenerational Equity) Bill 2023 which imposes a statutory duty on decision makers to consider the likely impact of decisions that could harm the climate on the health and wellbeing of current and future children as the paramount consideration; and not to make a decision that could harm the climate if the decision poses a material risk of harm to the health and wellbeing of current and future children in Australia.		Pocock		
Petition	Various	The Australia Institute - various petitions The Australia Institute keeps an updated list of live petitions relating to the climate crisis	https://australiainstitute.org.au/initiatives/type/petitions/	The Australia Institute	19/02/25	Ongoing
Petition	Federal	Stop the climate wreckers! "End coal and gas in Australia to ramp up climate action. That means: - This decade, replacing existing coal, gas and uranium exports with a renewable-powered exports industry and climate-positive careers for communities - No new coal and gas projects or infrastructure - Stop spending public money on the fossil fuel industry – fund climate solutions instead."	https://www.acf.org.au/end-coal-gas-petition	Australian Conservation Foundation	19/02/25	Ongoing
Petition	Federal	Oxfam Climate Justice "Join us in demanding equality and call on the government to: - Immediately increase Australia's current climate finance to \$3 billion over 2020-2025 - Reduce carbon emissions by 75% by 2030 and reach net-zero by 2035 - Develop a plan to rapidly phase-out coal and gas from Australia's energy supply"	https://you.oxfam.org.au/demand-climate-justice.html	Oxfam	19/02/25	N/S
Petition	Federal	No More Coal and Gas Ask the government to put a climate trigger in our Environment Laws	https://www.movebeyondcoal.com/labor_fix_our_laws	Move Beyond Coal	3/9/24	N/S
Petition	Federal	Speak up for strong nature laws	https://environmentvictoria.org.au/action/speak-up-for-strong-nature-law	Environment Victoria	3/9/24	N/S

		Right now the Government is reviewing our nature laws. We are in the grip of an extinction crisis and the government has the power to turn this around. Ask the minister to act on this now.	s/			
Email Form	Corporate	ANZ, stop lending money to fossil fuel companies and protect our environment ANZ is the worst performing bank in terms of its climate policies in comparison to the other four big Australian banks. Tell ANZ why you care about action on climate change and ask them to take urgent action to end their support for fossil fuel expansion.	https://www.acf.org.au/email-bank-anz	Australian Conservation Foundation	1/08/24	N/S
Email Form	Victoria	Ask Premier Jacinta Allan to make sure Victoria is climate ready. We need better public transport, better information and supports to get off gas, more supports and preparation for emergency services such as fire brigades, country fire authorities and paramedics, and support for our first nations people to help heal our country.	https://www.melbournefoe.org.au/climate_ready_vic	Melbourne Friends of the Earth	22/4/24	N/S
Petition	International	Endorse the FOSSIL FUEL NON-PROLIFERATION TREATY An initiative to phase-out fossil fuels and fast-track solutions. Climate change, like nuclear weapons, is a major global threat. Bold and immediate action is needed to address the climate emergency. Update 20/10/2022: The European Parliament has now endorsed this treaty and is calling on all nations to support it.	https://fossilfuel treaty.org/home	Fossil Fuel non proliferation Treaty.org Stand.Earth	22/2/21 (ongoing)	N/S

Action	Level of government	Brief Background Information	Link	Organisation	Date added	Retired
Petition	State - WA EPA	Help protect Scott Reef from Woodside's Browse fossil fuel proposal We have a matter of days to stop Woodside's deeply damaging Browse gas project from putting one of Australia's most important reef systems at risk. Public comment has unusually been reopened on Woodside's Browse gas proposal – part of the Burrup Hub – after intense public and scientific scrutiny of its impacts on Scott Reef.	https://www.marineconservation.org.au/actions/wa-environmental-protection-agency-submission-petition-browse-scott-reef/	AMCS	28/5/2025	

		The Browse proposal is part of the highly controversial North West Shelf extension that will process gas from major projects in north-west Australia for 40+ years. Read more about Woodside in our issue briefing, and don't forget to add your submission to their public consultation.				
Pledge / email to local candidate	Federal	Take the pledge: I'm Voting Climate The next term of Federal Parliament will take us most of the way to 2030 – the end of this critical decade for climate action. It means the policies Australians support at the upcoming election will play a pivotal role in the race to secure a safer future. This election, we can use the power of our votes to support parties and candidates who will keep our momentum going and avoid backsliding into climate denial, delay, and distraction. The time to make a difference is now. Right now. Please add your name now to pledge your support for a climate-focused Federal Parliament. When you sign, your local candidates will be sent an email informing them of your pledge and asking them to commit to policies that slash pollution in line with what the science tells us is necessary.	https://www.climatecouncil.org.au/actions/2025-climate-pledge/	The Climate Council	29/04/2025	N/S
Petition	Federal	Burning fossil fuels causes more deaths than tobacco Air pollution from burning fossil fuels kills more Australians than alcohol, gambling and car crashes combined. And, when you add the impacts of global warming, fossil fuels are our greatest health threat.	https://www.smokekills.com.au/	Doctors for the Environment Australia (DEA) and Comms Declare	12/05/2025	N/S
Petition	Federal	Smoke Kills Air pollution from burning fossil fuels kills more Australians than alcohol, gambling and car crashes combined. And, when you add the impacts of global warming, fossil fuels are our greatest health threat.	https://www.smokekills.com.au/	Smoke Kills	26/03/25	N/S
Email Form	Corporate	Ask the banks to stop and reverse nature destruction. We depend on nature but none of the big four banks have policies to ensure their lending and other practices are safe for our natural world. Ask them to adopt policies they safeguard and restore our natural heritage.	https://www.acf.org.au/banks-run-risky-business	ACF	3/9/24	N/S
Email Form	Federal	Ask the Minister to restore our Wetlands to save our reefs. Research shows that restoring wetlands in 5% of land at the edge of sugarcane farms can slash nitrogen pollution by up to half. Since wetlands are natural water filters, they reduce pollution that runs into	https://www.marineconservation.org.au/actions/affect-water-quality-restoration/	AMCS	3/8/24	N/S

		waterways. They also protect our coastlines from extreme weather events and act as a buffer against climate change by absorbing carbon dioxide and storing it for thousands of years. Coastal wetlands have superpowers that can tackle the biggest threats to reefs.				
Petition	Federal	Ban fracking	https://www.aph.gov.au/e-petitions/petition/EN7146	Individual - Helen Dawson	19/02/25	2/04/2025
Petition	Federal	Overhaul our dodgy lobbying laws In Australia, big business groups are using professional lobbying to sway decision makers to serve their own interests, rather than what's best for the broader community. We need stronger regulations on professional lobbying, with proper enforcement, to make our democracy more transparent and fair.	https://www.ourdemocracy.com.au/petition-overhaul-lobbying-laws/	Our Democracy	17/5/24	
Email Form	Federal	Say No to Woodside's gas expansion plans in WA Woodside's Browse gas and North West Shelf extension proposals currently hinge on our Environment Minister's approval. Both proposals are climate and nature disasters, they threaten First Nations cultural heritage and are major components of Woodside's massive Burrup Hub gas expansion plans for WA – but we can stop them!	https://www.acf.org.au/browse-nwshelf-letter	ACF	7/4/24	
Petition	Federal	Take this opportunity to demand nature laws that really work. Add your name to the petition and call on the Government to remove loopholes and flaws in their draft of Australia's new environment protection framework – and make rigorous new laws that halt the destruction, reverse the decline, and bring nature back.	https://envirojustice.org.au/call-for-environment-laws-that-actually-protect-the-environment/	EJA	26/3/24	
Declaration	International	Support the call of indigenous Peoples to protect 80% of Amazonia by 2025. Protection of Amazonia is not only of great environmental importance but is also a human rights issue. Sign the declaration calling on leaders to protect Amazonia.	https://act.stand.earth/page/60672/petition/1	Stand.earth	17/3/24	
Email Form	Federal	Save Scott Reef from Woodside's dirty gas mining. Fossil fuel giant Woodside wants to drill for gas at Scott Reef. It's planning to turn this pristine reef into an industrial gas zone. The future of the reef and the amazing marine around it rests in the hands of the Environment Minister. Ask her to protect this pristine marine habitat.	https://www.greenpeace.org.au/act/woodside-tanya-plibersek	Greenpeace	17/3/24	

Petition	Federal	Ask the Environment Minister to use the Water Trigger. There is an urgent need for the Water Trigger to be implemented to stop Tamboran charging ahead with its destructive fracking projects in the N.T. The obscene use of water for these projects must be halted.	https://act.350.org/sign/water-laws-joint-petition/	350.org	17/3/24	
Petition	Federal	Fix Australia's Climate Law now. The Great Barrier Reef has just had 365 consecutive days of record breaking ocean temperatures. But our environment laws don't address climate change. This constitutes a grave omission. Ask the government to pause all fossil fuel approvals until our laws are strengthened.	https://www.climatecouncil.org.au/actions/fix-australias-environment-law/	Climate Council and Bushfire Survivors	17/3/24	
Email Form	Victoria	Email the Victorian Premier and the Minister for the Environment to encourage them to implement, with haste, their new recovery plan for the iconic Leadbeater's possum. Take this opportunity to congratulate them for the release of the plan but encourage them to move quickly to implement it.	https://wilderness.good.do/precurecoveryplan/vicmarch2024/	Wilderness Society	17/3/24	
Petition	Global	Demand a strong Global Plastics Treaty. Each year, the world produces 350 million tons of plastic waste — more than the weight of the entire human population — with devastating effects on human life and our environment. We need our leaders to take action to reduce plastic use and ensure it is recycled carefully.	https://only.one/act/plasticstreaty	OnlyOne	17/3/24	
Petition	Federal	Sign the Petition for laws that actually protect nature. Australia has the highest rate of deforestation in the developed world and has driven more mammals to extinction than any other country. The government's goal of 'no new extinctions' has to be backed up with strong action before even more irreversible damage is done.	https://www.acf.org.au/environment-laws-petition	ACF	17/3/24	
Petition	National	Support Local Energy hubs We want the energy shift to create local jobs and opportunities, and unite communities. Regional Communities need to be supported to be informed , prepared and aware of the advantages in working towards local renewable energy hubs which are tailored to their local needs.	https://www.foe.org.au/localenergyhubs	Friends of the Earth	8/3/24	
Open Letter	National	Include regional communities in developing local renewable energy hubs.	https://docs.google.com/forms/d/1DgcGjuHPvFsWgJPGJyaDVkWc7pjf5O	Consortium: ACF, F.o.E, ReAlliance, Community Power	8/3/24	

		Regional Communities need to be supported to be informed , prepared and aware of the advantages in working towards local renewable energy hubs which are tailored to their local needs.	vieRDzpz3047A/viewform	Agency		
Petition	Federal	Tell Minister Plibersek to use the water trigger to stop Tamboran fracking. Tamboran is powering ahead with their plans to frack the Beetaloo basin. The Minister for the Environment has the power to stop them by using the water trigger.	https://www.getup.org.au/campaigns/climate-justice/plibersek-use-the-water-trigger/stop-tamboran-fracking-use-the-water-trigger-now	GetUp	8/3/24	
Email Form	Federal	Stop the Offshore gas power grab Ask the Resources Minister, Madeleine King, to protect our oceans from this greedy, destructive mining of our precious oceans. We need to strengthen our environment laws, but what is being proposed is remove protections and allow the likes of Woodside and Santos to sidestep environmental protections.	https://www.acf.org.au/offshore-gas-approvals	ACF	29/2/24	
Email Form	Federal	Abolish seismic blasting Special Prospecting Authority permits (SPA). SPA permits are anachronistic, poorly controlled and lacking in transparency, which are outside the control of the Minister for the Environment. An SPA permit allows exploration of enormous areas of our ocean floors. Send the email to Minister King asking for a stop to the permit for the Otway basin and changes to the way such permits are acquired.	https://www.marineconservation.org.au/actions/end-special-prospecting-authorities/	AMCS	22/2/24	
Email Form	Northern Territory	Ask NT leaders to take the opportunity to improve the NT environment laws. The NT has no proper environment laws. They have guidelines with too many loopholes, resulting in terrible damage to fragile and precious habitat. This needs to be remedied.	https://www.ecnt.org.au/nt_nature_laws_now_petition	Environment Centre N.T.	22/2/24	
Email Form	Federal	Less than 5 days to stop seismic blasting off Victoria's coast. CGG, a multi national geotech company is seeking NOPSEMA approval to seismic blast over 3000 square kilometres of Australian coasts. Work will start soon off the Victorian coast. Sign the email to ask NOPSEMA to reject the proposal.	https://www.marineconservation.org.au/actions/stop-cgg-seismic-blasting-victoria/	Australian Marine Conservation Society	22/2/24	
Petition	Federal	Scrap Public money for fracking. Empire Energy is under investigation for wrongfully using \$28.7 million in "research and development" public funding for gas exploration. The scheme forbids funds being used for gas	https://www.getup.org.au/campaigns/gas-and-fracking/petition-scrap-public-money-for-gas/scrap	GetUp!	22/2/24	

		exploration. Urge the Treasurer to force Empire Energy to return the funds and scrap public money handouts to gas once and for all.	p-public-money-for-fracking			
Petition	National	A letter from survivors of the Black Saturday Fires to Australians A call to act to get off Fossil Fuels and move towards a safer energy source to keep people and the environment safer.	https://www.bushfiresurvivors.org/openletter	Bushfire Survivors	19/2/24	
Petition	Federal	Ask the Minister for the Environment to fix our Environment laws. Minister Plibersek is reforming our environment laws. These will help determine whether fossil fuel projects are approved. So we have a rare opportunity to make sure our laws are strong enough to protect the future of our environment.	https://act.350.org/sign/minister-plibersek-fix-our-environment-laws-now/	350.org	19/2/24	
Petition	National	Tell Woodside to walk away from its destructive gas drilling project Woodside's climate wrecking gas expansion threatens marine parks and protected areas including Scarborough, the North West Shelf, Browse, probably Ningaloo and more. This is too horrible to allow; sign now!	https://www.greenpeace.org.au/act/woodside09nhcUXoj1o1FjDqpBG	Greenpeace	19/2/24	
Petition	International	Ask the UK government to save Lake Windermere. England's Lake District is a place of extraordinary beauty. But greedy water company United Utilities has been trashing its crown jewel Lake Windermere – using it as a dump for sewage that can trigger toxic, fish-choking algal blooms. Local campaigners have been fighting to save their home and have got it onto the national agenda. Now they're demanding an urgent inquiry into regulation failures. Sign now to give them support.	https://actions.eko.org/a/uk-government-overhaul-the-environment-agency/	EKō	19/2/24	
Email Form	WA	Help ensure the new 'South Coast Marine Park' gives world class protection for endangered marine life. The WA government has released plans for a new marine park along WA's south coast and they are asking for feedback. Give them feedback!	https://www.saveourmarineinlife.org.au/actions/southcoastmarinepark/	Save our Marine Life	19/2/24	
Email Form	Victorian	Ask the Vic Government to stop logging and start legislating for the promised parks. More than two years ago the government promised new parks in the central west of the state. There is no sign of the parks but logging continues in the guise of storm recovery and fire management.	https://vnpa.org.au/action/legislate-not-log/?mc_cid=9d09a8c496&mc_eid=97e9449d15	VNPA	19/2/24	

Open Letter	National	Our Super Fund companies have the power to hold polluters to account. Sign the letter asking our fund managers to use their power to take action before and during AGM's to push polluters to be more responsible for our future.	https://www.acf.org.au/super-funds-open-letter-24	ACF	19/2/24	
Email Form	Federal	Protect Australia's Heard and McDonald Islands Heard and McDonald Islands are the only Sub-Antarctic island group with an entirely intact ecosystem, free of any known species directly introduced by humans! Add your name to the letter to the Minister for the Environment to protect these precious islands as she has done for Macquarie Island.	https://www.saveourmarine.org.au/actions/heardandmcdonald/	Save Our Marine Life	Re-posted 12/2/24 Originally posted 30/8/23	
Email Form	Federal	Less than 14 days to stop seismic blasting off Victoria's coast. CGG, a multi national geotech company is seeking NOPSEMA approval to seismic blast over 3000 square kilometres of Australian coasts. Work will start soon off the Victorian coast. Sign the email to ask NOPSEMA to reject the proposal.	https://www.marineconservation.org.au/actions/stop-cgg-seismic-blasting-victoria/	Australian Marine Conservation Society	12/2/24	
Petition	Federal	Increase the Petroleum Resources Rent Tax (PRRT) The Government collects more from student HECS fees than from Gas companies paying the PRRT. Increasing the PRRT is necessary to ensure the Australian people get a fair share of the windfall profits from our own natural resources; and the loopholes in the current PRRT need to be fixed.	https://nb.australiainstitute.org.au/increase_the_prtr	The Australia Institute	11/2/24	
Email Form	Federal	Ask the Environment Minister to save Scott Reef Scott Reef lies off the coast of WA and is teeming with life. It's a feeding ground for endangered pygmy blue whales. Green sea turtles travel thousands of miles to lay their eggs on the sand. But fossil fuel giant Woodside wants to drill for gas at Scott Reef. It's planning to turn this pristine reef into an industrial gas zone. The future of Scott Reef is in the hands of Environment Minister	https://www.greenpeace.org.au/act/woodside-tanya-plibersek/	Greenpeace	11/2/24	
Petition	Victorian	Ask the Government to ban offshore drilling for oil and gas in Victorian oceans. There are plans to start seismic blasting for gas off the coast of Victoria, despite protests from local indigenous groups. The NSW government recently announced plans to stop offshore drilling in NSW waters. Ask the Vic government to follow suit and end the destructive madness of fossil fuel exploration.	https://greens.org.au/vic/campaigns/ban-oil-and-gas-drilling-victorias-oceans	The Greens	11/2/24	

Petition	Northern Territory	Ask the NT Environment Minister to act immediately to release the emissions forecast report and take real action on climate. The NT is seriously vulnerable to climate change and has potential to develop some of the worst fossil fuel projects, but the territory government lags on action to protect our future.	https://www.ecnt.org.au/climateactionnow	Environment Centre NT	11/2/24	
Petition	Federal	Ask the Government to urgently act to strengthen our national environment law. This should have been addressed months ago. Instead fossil fuel projects continue to be approved in the absence of comprehensive environment laws. Call for a moratorium on all new fossil fuel projects until the environment laws are enacted which will protect our future.	https://www.climatecouncil.org.au/actions/fix-australias-environment-law/	Climate Council	8/1/24	
Declaration	National	Express your commitment to the fundamental democratic right to protest. Australia has a proud history of effective protests which led to significant changes. All Australian governments have an obligation to guarantee our right to protest and to protect protesters. In recent years, we've seen this right gradually eroded with regressive anti-protest laws passed by states and an increase in anti-protest policing.	https://australiandemocracy.org.au/protest-rights-declaration/	Australian Democracy Network	8/1/24	
Email Form	Federal	Tell the Minister for Infrastructure not to spend taxpayer funds on the Middle Arm Project. The amount of public money promised for the Middle Arm Project may double as the NT Government has asked the Federal government to increase the earmarked amount. The cost of the project is growing, this is a project to support processing and export of fossil fuels, and against the wishes of the traditional owners of the land.	https://www.getup.org.au/campaigns/climate-justice/contact-minister-king-scrap-public-money-for-middle-arm/minister-king-stop-3-5billion-in-public-money-for-middle-arm	GetUp!	8/1/24	
Email Form	Federal	Our democracy needs more transparency, integrity and openness. The Government is reviewing recommendations to ensure our electoral system is more transparent and the influence of the corporate sector is more balanced. Good laws to improve our democracy will benefit the future of our environment..	https://www.acf.org.au/jscem-recommendations	ACF	8/1/24	
Email Form	Federal	Urge the Environment Minister to save Toondah Harbour's precious natural resources.	https://www.acf.org.au/toondah-letter	ACF	8/1/24	

		The decision about the future of this Ramsar listed wetland is in the minister's hands. It's a choice between nature and luxury apartments and shopping strips.				
Petition	International	Ask the Norwegian Government to Stop Deep- Sea Mining Mining operations on the ocean floor will destroy ecosystems, poison our oceans and bring enormous damage to marine life. It must be stopped.	https://secure.avaaz.org/campaign/en/deep_sea_mining_norway_rb_lec/	AVAAZ	5/1/24	
Email Form	Federal	Ask the PM to improve our democracy by increasing transparency. We need to have legislation which will help expose hidden money in our political system and tackle dangerous misinformation once and for all.	https://www.ourdemocracy.com.au/email-prime-minister-albanese/	Our Democracy Network	5/1/24	
Email Form	Federal	Help protect Toondah Harbour's precious Ramsar listed wetlands. The fate of this Ramsar listed area is in the hands of the Minister for the Environment. Ask her to protect our wildlife and country from developers.	https://www.actforbirds.org/savetoondah	Bird Life Australia	5/1/24	
Pledge	National	Invasive species are destroying our totems and degrading our land and sea Country. The past two centuries have seen nothing but a constant decline of our plants, wildlife, soil and water due to the introduction and lack of control of invasive species. Today they are the biggest threat to our native species. It needs all of us to commit to protecting our amazing country and wildlife: sign the pledge!	https://invasives.org.au/our-work/voice-of-county-pledge/	Invasive Species Council	5/1/24	
Petition	Federal	Ask the government to work towards a healthy democracy that puts people and the planet first. We need a democracy that prioritises people and the planet above corporate profit. Sign the petition.	https://www.ourdemocracy.com.au/sign-the-petition/	Our Democracy	2/1/24	
Petition	Federal	Ask the Federal government to roll out policies that will address storage solutions. Sensible, affordable storage solutions can potentially help solve our three major national issues: cost of living, climate change and the energy crisis.	https://www.solarcitizens.org.au/storage_petition	Solar Citizens	2/1/24	
Petition	Federal	Help stop deep sea mining Scientists warn that deep sea mining risks causing severe and potentially irreversible damage to the deep ocean and the marine	https://www.greenpeace.org.au/act/deep-sea-mining-pacific	Greenpeace	2/1/24	

		life that calls it home. Ask the Australian Government to take a strong stand against deep-sea mining.				
Petition	International	Ask world leaders to support a global plastics treaty. The negotiations for the Global Plastics Treaty have started, with the goal of completing the process by the end of 2024. The future treaty has a huge potential to put the world on a path towards a plastic-free future but it will be up to us to make sure that it delivers on its promises.	https://www.greenpeace.org/international/act/lets-end-the-age-of-plastic/	Greenpeace	11/12/23	
Email Form	National	Ask our financial organisations to stop funding nature destroying projects. Westpac has set a zero deforestation target. Encourage six other institutions to follow their lead and ensure that loans are not granted to projects that clear thousands of hectares p.a. for agriculture.	https://www.acf.org.au/email-banks-deforestation	ACF	11/12/23	
Petition	Federal	Demand an ambitious national packaging solution to turn the tide on plastic. Ask the Minister for the Environment and Water to cut plastic packaging by 20% by 2030 and legislate to ensure 30% packaging is reusable	https://www.boomerangalliance.org.au/petition_cut_plastic_by_20_percent_by_2030	Boomerang Alliance	11/12/23	
Petition	Federal	Call on the Federal government to pass the Climate Change Amendment (Duty of Care and Intergenerational Equity) Bill 2023 We need to ensure all political decisions are made with the best interests of current and future children in mind. In particular with regard to climate and environmental impacts.	https://adutyofcare.davidpockock.com.au/petition	A Duty of Care: David Pockock	Reposted 20/11/23 Originally posted 26/10/23	
Petition	Federal	Call on the Federal government to pass the Climate Change Amendment (Duty of Care and Intergenerational Equity) Bill 2023 We need to ensure all political decisions are made with the best interests of current and future children in mind. In particular with regard to climate and environmental impacts.	https://www.parentsforclimate.org/dutyofcarebill#:~:text=We%20ask%20that%20you%20support,significantly%20increase%20greenhouse%20gas%20emissions.	Australian Parents for Climate	20/11/23	
Email Form	Federal	Tell Canberra to protect the Roper River The NT government plans to allow huge amounts of water to be pumped out of the Roper River which will cause major damage to one of our last free flowing rivers.	https://territoryrivers.org.au/protect-the-roper-river/	Territory Rivers	9/11/23	

Email Form	Northern Territory	Ask the Chief Minister of the N.T. to rethink his position on fracking. A new report from academics at Griffith University throws the government's fracking science into doubt, identifying no less than 16 critical knowledge gaps about the potential impacts of fracking on water. It's urgent the NT government do not proceed with these disastrous plans.	https://www.ecnt.org.au/evidence_slams_ntg_fracking_science	Environment Centre NT	27/10/23	
Email Form	Federal	Ask your local MP and the Minister for the Environment to strengthen protections for our water. Water is life, and Australia is the driest continent. Yet without stronger protections for this precious commodity, business interests may win out over the needs of a healthy environment.	https://fossilfuelwatch.org.do/fixourclimatelaws/contact/	Fossil Fuel Watch	27/10/23	
Email Form	Western Australia	Say No to massive, industrial salt works at Exmouth Gulf wetlands. Send an email to the WA Minister for the environment. Tell him not to approve this proposal by an international company to gain profit from the destruction of a valuable wetland ecosystem in the precious Exmouth Gulf, Ningaloo,	https://www.marineconservation.org.au/actions/stop-saltworks-in-exmouth-gulf/	Australian Marine Conservation Society	27/10/23	
Petition	International	Tell U.S. leaders to sign the Break Free from Plastic Pollution Act. Less than 10% of the millions of tons of plastic which is produced every year is recycled. We need serious action to reduce plastic production, and increase recycling of plastic.	https://only.one/act/break-free-from-plastic-pollution	Only One	27/10/23	
Petition	Federal	Call on the Federal government to pass the Climate Change Amendment (Duty of Care and Intergenerational Equity) Bill 2023 We need to ensure all political decisions are made with the best interests of current and future children in mind. In particular with regard to climate and environmental impacts.	https://adutyofcare.davidpocock.com.au/petition	A duty of Care: David Pocock	26/10/23	
Petition	International	Tell Prime Minister Trudeau and president Biden forests should not be used for biomass. Healthy forests are one of our best protections against climate change. We cannot afford to log and burn them for biomass to create electricity. There are cleaner, better ways to power our societies.	https://act.stand.earth/page/51402/petition/1	Stand.earth	26/10/23	
Petition	International	Panama's largest and dirtiest copper mine is about to be expanded.	https://actions.eko.org/a/fqm-no-cobre-panama-e	EKŌ	26/10/23	

		The people of Panama are outraged at this proposed, environment wrecking expansion. But the government and the company just see profits. Sign the petition to support the people of Panama.	xtension-and-expansion/			
Petition	Federal	Ask the Transport Minister to decarbonise our transport system Federal Transport Minister Catherine King has the opportunity to deliver a healthier transport system, which delivers clean air and community connection across Australia. Better for our health and the environment!	https://www.healthytransport.au/petition	Healthy Transport	12/10/23	
Email Form	Local Government	Ask your local government to adopt a 100% emissions free fleet. 40% of new car sales in Australia are purchased by government, business and rental fleets, transitioning to zero-emissions council fleets can make a big impact to reduce transport emissions across Australia.	https://www.climatecouncil.org.au/action-electrify-council-fleets/	Climate Council	12/10/23	
Petition	International	Let's end the age of plastic. Tell the UN Intergovernmental Negotiating Committee on Plastic Pollution to support a strong Global Plastics Treaty at the (INC2).	https://www.greenpeace.org.au/act/global-plastics-treaty	Greenpeace	11/10/23	
Petition	International	Stop the 1000 km rail line that will destroy critical forest habitat in the Amazon. Last year alone an area of tropical forest the size of Switzerland was destroyed. And while the company publicly promises to end these practices, it only expands further.	https://actions.eko.org/a/cargill-drop-the-ferrograo-project-and-leave-the-amazon/	EKÖ	11/10/23	
Email Form	Federal	Tell your MP you want Woodside out of our oceans. Fossil fuel giant Woodside needs government approval to drill for climate wrecking gas in whale habitat in W.A. We don't need the gas, we need the government to reject the application for permission to drill in precious ocean habitat.	https://www.greenpeace.org.au/act/woodside-email-mp-clean-energy-transition	Greenpeace	11/10/23	
Petition	International	Defend the Amazon and indigenous lands in Brazil The Brazilian Senate has approved a bill that will allow miners and tree cutters back into native forests and indigenous sacred lands. Sign the petition to persuade Brazil's President to veto this law.	https://secure.avaaz.org/campaign/en/fatal_blow_to_the_amazon_3blast/	AVAAZ	11/10/23	
Petition	Federal	Ask the Environment Minister and the Foreign Minister to protect our blue planet.	https://www.greenpeace.org.au/act/protect-the-oceans	Greenpeace	11/10/23	

		Our leaders must urgently create a sanctuary for the South Tasman Sea and Lord Howe Rise. The oceans need to be protected by ratification of the Global Oceans Treaty.				
Petition	International	Call on Ireland's Government to protect its seas. Marine biodiversity is rapidly declining and the numbers of Ireland's iconic marine species are plummeting. The now critically endangered angel shark has suffered a staggering 90% population decline since the early 1900s, while Ireland's seabirds are more endangered than ever, with the puffin under serious threat of extinction. Laws need to be implemented to fix this.	https://only.one/act/30x30-ireland	Only One	11/10/23	
Petition	Federal	Fix Australia's Environment Laws. The Government promised to fix the laws to protect the environment, but they are not acting fast enough.	https://www.climatecouncil.org.au/actions/fix-australias-environment-law/	Climate Council	11/10/23	
Petition	International	Sign the petition asking world leaders to pass a Fossil Fuel Non-Proliferation Treaty. We need to hold leaders accountable. They need to take action, not just talk!	https://act.stand.earth/page/34663/petition/1	Stand.earth	11/10/23	
Email Form	Federal	Ask Chris Bowen to urgently increase funding for sea walls. The UNHCR says Australia's failure to adequately fund sea walls to protect Torres Strait Islands is a human rights violation. Many islands are already experiencing the impacts of rising sea water. More funding is needed.	https://act.350.org/letter/ask-chris-bowen-urgently-increase-funding-seawalls/	350.org	11/10/23	
Petition	International	Tell world leaders to support the Loss and Damage Fund The 20 wealthiest nations are responsible for 80% of greenhouse gas emissions. While developing nations contribute very little to climate change they often bear the greatest burden. In the lead up to COP28 encourage rich leaders to support nations facing the greatest threats.	https://only.one/act/loss-and-damage	OnlyOne	10/10/23	
Email Form	National	Call time on Fossil Fuel sponsorship Use the email to urge ten prominent sports and arts governing bodies to take the Fossil Fuel Free Sponsorship pledge and end their sponsorship relationship with polluting companies.	https://www.climatecouncil.org.au/action-call-time-on-fossil-fuel-sponsorships/	Climate Council	8/10/23	
Petition	Federal	Climate justice is within our reach. Ask the Treasurer to properly tax rich polluters and use those taxes to support those who are already experiencing the destructive	https://you.oxfam.org.au/MakeRichPollutersPay.html	Oxfam	8/10/23	

		impact of climate change; and an end to fossil fuel subsidies and all new fossil fuel projects.				
Petition	International	Amazon Leaders must commit to zero deforestation Eight leaders of Amazon countries recently met and failed to reach agreement about the future of the forest. It's critical to let these leaders know they are being watched and they must act for the planet.	https://actions.eko.org/a/amazon-leaders-you-must-commit-to-zero-deforestation/	EKÖ	8/10/23	
Petition	International	Say NO to giant cruise ships Amidst the climate crisis, the multinational Royal Caribbean has chosen to announce the launch of Icon of the Seas, the largest cruise ship in the world. For the environment this means an increase in ocean waste, higher levels of greenhouse gases, and a greater risk for animal and plant species, with many facing the risk of permanent extinction. This single cruise ship will cause as much pollution as millions of cars!"	https://actions.eko.org/a/ocean-devourer-icon-of-the-seas/	EKÖ	8/10/23	
Petition	National	Ask the supermarkets to stop selling salmon and ocean trout from Macquarie Harbour. Intensive fish farming in Macquarie Harbour is destroying the last remaining habitat of the endangered Maugean Skate, a species which dates from prehistoric times. Ask Coles, Woolworths and Aldi to source their fish elsewhere.	https://actions.eko.org/a/supermarkets-stop-selling-macquarie-harbour-salmon/	EKÖ	8/9/23	
Fax, Email Form	NSW	End Shark nets in NSW The NSW plan to continue using outdated and cruel nets to stop sharks. A range of other species also get entangled and die. Send an outdated fax to the NSW government, via the link, to ask for a cessation of this cruel practice.	https://sharkchampions.org.au/end-shark-nets-in-nsw/	Shark Champions with AMCS and HSI	8/9/23	
Petition	Federal	Pause approvals for coal and gas projects until the new federal EPA is operating Despite promises and good intentions, carbon emissions continue to rise and our government still provides enormous subsidies to the fossil fuel industries. The right regulatory frameworks (eg the EPA) need to be in place to ensure reduced emissions for the best outcomes for our environment.	https://www.bushfiresurvivors.org/petition-pause-approvalsepa	Bushfire Survivors for Climate Action	1/9/23	
Email Form	NSW	Take action to protect Greater Gliders from extinction There is a shocking and intensive logging operation occurring right now in a large unburnt area of Tallaganda State Forest, which is core Greater Glider habitat. The NSW Government must	https://www.wildernessaustralia.org.au/tallaganda-action	Wilderness Australia	30/8/23	

		immediately halt logging in Tallaganda to give time for an independent assessment of the logging impacts on this outstanding Greater Glider habitat.				
Email Form	Federal	Protect Australia's Heard and McDonald Islands Heard and McDonald Islands are the only Sub-Antarctic island group with an entirely intact ecosystem, free of any known species directly introduced by humans! Add your name to the letter to the Minister for the Environment to protect these precious islands as she has done for Macquarie Island.	https://www.saveourmarine.org.au/actions/heardandmcdonald/	Save Our Marine Life	30/8/23	
Email Form	Federal	Ask the Environment Minister to commit to water protections now. Fracking companies have been accused of spraying toxic fracking waste onto country, and of contaminating contract workers. The minister has committed to implementing action to protect the environment. Hold her to that commitment.	https://www.getup.org.au/campaigns/gas-and-fracking/contact-plibersek-water-trigger-now/email-plibersek-water-trigger-now	GetUp!	28/8/23	
Email Form	Federal	We need action to stop the invasion of Fire ants Our politicians say they remain committed to eradicating fire ants – but so far have only announced \$60 million in funding. Far less than the \$300 million their own report calls for and less even than what was spent this year on fire ant eradication!	https://invasives.org.au/how-to-help/take-action/fire-ant-decision-day/	Invasive Species Council	28/8/23	
Petition	International	Ban Fossil fuel companies from climate talks. It's too hot, and we all know that fossil fuels are to blame, yet reckless companies like Shell and BP are planning to send an army of lobbyists to hijack UN climate talks in November. It's like putting the fox in charge of the henhouse.	https://actions.eko.org.au/tell-the-un-ban-fossil-fuel-corporations-from-climate-talks/	EKō	28/8/23	
Petition	International	Save a habitable Earth for our children. Ten massive risks, all of our own making, now confront the whole of humanity. Unless we act, they will destroy us. The Council for the Human Future is proposing an Earth System Treaty, a global legal agreement to stand together to fight these threats. Everyone on the planet will be able to sign the Treaty, and commit themselves to a habitable Earth.	https://www.change.org/p/save-a-habitable-earth-for-our-children	Change.org	28/8/23	
Petition	International	Tax private jets. Private jets cause 14 times more pollution than commercial flights. Yet billionaires get massive tax subsidies that help them fly private jets all over the globe. They're getting a bargain for destroying the climate. Sign the petition for countries to tax destructive private jets.	https://actions.eko.org.au/tax-private-jets/	EKō	28/8/23	

Email Form	Victoria	Email the Ministers to give the wildlife of Western Port Woodlands a future. In 2019 the Bass Coast was declared a 'Distinctive Area and Landscape'. This doesn't mean it's safe, but it does mean a chance to change how this natural wonder is looked after into the future. Those decisions are being made right now. Email the Planning and Environment Ministers to ask them to take steps to protect this wildlife corridor.	https://vnpa.org.au/action/ministers-give-the-wild-life-of-western-port-woodlands-a-future/	VNPA	28/8/23	
Email Form	International	Abrdn, a major international investor, is close to quitting Adani, all it needs is a push to announce it publicly. Adani is restarting plans to build a monstrous plant to convert dirty coal into the world's dirtiest plastic. Abrdn expresses its commitment to the environment, but is considering financing Adani's plans. Write to Abrdn and ask them to ditch this proposal.	https://actions.eko.org/a/abrdn-deny-debt-to-adani-publicly/	EKÖ	28/8/23	
Petition	International	Tell Amazon to commit to eliminating maritime emissions. IKEA has demonstrated a clear commitment to securing a climate-safe future. Other retailers, like Amazon, are sadly lagging behind, with many not yet even quantifying their complete Scope 3 emissions. Amazon wants to be a leader in sustainability, so we need to keep up the pressure to help secure bold climate action on reducing maritime emissions.	https://act.stand.earth/page/55405/petition/1	Stand.earth	28/8/23	
Petition	International	Demand the US stop offshore drilling which is killing whales The Rice's whale could soon be extinct. The deafening noise from fossil fuel exploration is a deadly threat to whales and other sea life. Seismic blasting in offshore areas must stop.	https://actions.eko.org/a/rice-s-whale/	EKÖ	23/8/23	
Open letter	National	Sign the open letter asking power companies to be honest and stop greenwashing. Ask power companies to advertise the climate impact of their products honestly, so we can make real choices about what we buy; and change their business from polluting to clean renewable energy.	https://www.ap4ca.org/greenwashing	Australian Parents for Climate Action	23/8/23	
Petition	International	Tell Citi bank to stop financing Amazon destruction. Out of 160 banks, Citibank is the second highest financier of Amazon oil and gas projects. Amazonia has already been forced to a tipping point due to forest destruction caused by industrial activities. If we don't redirect money from oil and gas into renewables, we will not be able to avoid climate chaos.	https://act.stand.earth/page/55526/petition/1	Stand.earth	22/8/23	

Email Form	NSW	Save the Snowies, support aerial control of feral horses in Kosciuszko N.P. The NSW government has opened a public consultation and anyone in Australia can take part. <u>We have just 20 days</u> to ensure everyone who cares about Kosciuszko and its wildlife helps get these vital changes over the line by supporting this action.	https://invasives.org.au/how-to-help/take-action/stop-feral-horses-submission/	Invasive Species Council	22/8/23	
Petition	Federal	Enshrine a Duty of Care that protects all Australian children. Independent Senator David Pocock is introducing a private member's bill to call for changes to the Climate Change Act to force government to consider the health and well being of young and future generations when making decisions about projects that impact the climate. Sign the petition.	https://www.ap4ca.org/dutyofcarebill	Australian Parents for Climate Action	22/8/23	
Petition	Federal	Tell Minister Plibersek to fast track water protections Tamboran Resources is preparing to drill across hundreds of kilometres, use up to quadruple the amount of water than anything else approved in Australia, leak toxic forever chemicals into the groundwater, and release millions of tonnes of climate pollution every year. We need the water trigger to be introduced with haste.	https://act.350.org/sign/tell-minister-plibersek-fast-track-water-protections/	350.org	11/8/23	
Petition	Federal	Ask the government to adopt all the climate demands of the Torres Strait Islanders Eight Torres Strait Islanders have won a historic legal case against our government for climate inaction. Ask the prime Minister to adopt their five demands.	https://ourislandsourhome.com.au/	Our Islands Our Home	11/8/23	
Email Form	National	Ask the Tasmanian government 'Sustainable Timber' company to protect swift parrots. The habitat of these amazing, and increasingly rare migratory birds is being logged putting the viability of the species at serious risk. Ask the government run organisation not to pursue this plan.	https://www.actforbirds.org/protectswiftparrot	Birdlife Australia	3/8/23	
Email Form	National	Ask State and Federal Ministers to act urgently to recover water for the health of the Murray Darling River system. We're 750 billion litres short – vital water needed to keep the river flowing, help waterbirds breed, and nourish the wetlands in the Basin. With the next drought around the corner, failing to return more water will spell disaster. Ask the relevant Ministers to act urgently and do their job.	https://environment victoria.org.au/action/dear-water-ministers-do-your-job/	Environment Victoria	3/8/23	

Petition	Victorian	Call on the Victorian Government to give communities a say on new mining laws. The Victorian government is about to gut mining laws, paving the way for companies to undertake mining without community input, oversight or transparency. Ask your MP to ensure adequate transparency and protections.	https://envirojustice.org.au/blog/onlineaction/vic-govt-mining-laws-action/	Environmental Justice Australia	26/7/23	
Petition	International	Ask the banks to stop fueling the destruction of the Amazon through their funding of fossil fuel activities. Between 2009 and 2023 eight banks provided over \$11 billion in funding oil and gas activities in the Amazon. There is no place for oil and gas activities in the Amazon.	https://act.stand.earth/page/54896/petition/1	Stand.earth	26/7/23	
Petition	international	Stop the cruel and wasteful killing of whales and dolphins in the Faroe Islands Every summer more than a thousand dolphins and whales are killed, not for meat, simply for the culture of the kill. Sign the petition to make this stop,	https://actions.eko.org/pages/faroe-islands-end-this-cruel-hunt/	EKÖ	26/7/23	
Petition	International	No more shark slaughter Across the world shark numbers are dwindling from overfishing and various other causes. A loophole in Brazilian law allows mass culling of sharks for huge profits from sale of sharkfins. This barbaric practice must be stopped.	https://secure.avaaz.org/campaign/en/stop_the_shark_massacre_loc/	AVAAZ	26/7/23	
Email Form	National	Help stop seismic blasting between Victoria and Tasmania. Exploration companies have applied to NOPSEMA (the regulator for offshore projects) for approval to carry out seismic blasting in an area of 55,000 sq km, that will impact blue whale habitat and the Zeelan Marine Park. Seismic blasting is deadly and can impact ocean life more than a kilometre away.	https://www.marineconservation.org.au/actions/stop-nopsema-seismic-blasting/	Australian Marine Conservation Society	25/7/23	
Petition	International	Help stop deep sea mining before it starts. The deep sea is a treasure of biodiversity and home to untold wonders. However mining companies are attempting to plunder the sea floor for profit. Deep sea mining could pose a threat to Pacific island people's livelihoods, create serious damage to the ecosystem and probably reduce the ocean's ability to absorb carbon. Tell our government to take strong action against deep sea mining.	https://www.greenpeace.org.au/act/deep-sea-mining-pacific	Greenpeace	24/7/23	
Petition	Queensland	Reject Waratah Coal: protect Queensland Clive Palmer's Waratah Coal has applied to unleash a new climate-wrecking coal fired power station which would last for 50	https://brisbane.foe.org.au/reject_waratah_petition	Friends of the Earth	24/7/23	

		years! Even worse, it would support their delayed mega coal mine on the precious Bimblebox nature refuge in Central Queensland's Galilee Basin.				
Petition	National	Tell BP and Shell not to frack the Beetaloo Basin NT fracking company, Tamboran, have announced they will sell their fracked gas to BP and Shell. These agreements are non binding at the moment, which allows a window to protest Shell and BP's participation.	https://www.getup.org.au/campaigns/gas-and-fracking/bp-and-shell-petition/bp-and-shell-don-t-frack-the-nt	GetUp	28/6/23 re posted: 23/7/23	
Email Form	International	Demand Citibank stop funding the climate crisis. A major catalyst for the climate crisis is the funding of the fossil fuel industry by big banks. Citibank is one of the major climate offenders. Citibank has provided funding to companies like Exxon, Shell, Chevron. These unethical investments make Citibank the second largest funder of fossil fuels in the world.	https://act.stand.earth/page/54723/action/1	Stand.earth	23/7/23	
Petition	International	Tell Rio Tinto to stop polluting Madagascar's lakes. Rio Tinto's dirty QMM mine in Madagascar is contaminating pristine lakes and waterways where locals draw their drinking water. The mine is not just affecting water quality, it is undermining the local communities' health, depleting fish stocks and impacting food production which has reduced people's income by as much as 50%.	https://actions.eko.org/a/rio-tinto-stop-poisoning-madagascar-s-lakes/	EKÖ	23/7/23	
Petition	International	Tell Toyota to end sales of fossil fuel burning cars. Transportation contributes to 21% of direct CO2 emissions from fuel combustion, with passenger vehicles responsible for the largest chunk at 45%. Toyota, the world's largest automobile manufacturer, came in last place in Greenpeace East Asia's recent evaluation of the top 10 automobile companies on their decarbonization efforts. Tell the company that it's time to end reliance on fossil fuels.	https://www.greenpeace.org/international/act/drive-change/	Greenpeace	23/7/23	
Petition	International	Tell the EU to ban the export of lethal chemicals which are banned from use in Europe. Paraquat, a pesticide, is so lethal one sip can be fatal. It's banned in Europe but is exported to other (poorer) countries. It is used on food which is then, often, imported back into Europe.	https://actions.eko.org/a/eu-ban-deadly-chemical-exports/	EKÖ	20/7/23	
Petition	International	Tell leaders we need a strong global treaty to stop the plastics crisis. Each year, the world produces 300 million tons of plastic waste—nearly the weight of the entire human population—with devastating effects for human and climate health. Unfortunately the	https://only.one/act/plasticstreaty	Only One	20/7/23	

		people and communities most affected by plastic production and pollution are disproportionately the most vulnerable and least culpable. There have been commitments to create a treaty, but we need to speak up to hold them to their promises.				
Petition	Victorian	Stop the Hydrogen Energy Supply Chain project The Hydrogen Energy Supply Chain project would turn brown coal into hydrogen for export to Japan, while proposing to use carbon capture and storage technology to store carbon dioxide (CO2) in disused offshore gas wells, a technology that has not been proven to work at this scale anywhere in the world. This in the midst of a climate crisis.	https://www.parliament.vic.gov.au/view-sign-e-petitions/details/12/508	Vic Parliament, Legislative Council E-Petitions	20/7/23	
Submission Support	Victorian	Support the VNPA submission for a healthy Wilsons Prom: sign the letter of support. y 16 July t The Prom's special features and habitats are under pressure – from invasive species, increased visitation and climate disruption. Right now Parks Victoria are looking for guidance on how to better look after Wilsons Prom. It is vital the new management plan is as well-informed and evidence-based as possible. You have until Sunday to shape the next 15-20 years of this natural treasure.	https://vnpa.org.au/action/help-shape-a-healthy-future-for-the-prom/	VNPA	14/7/23	
Email Form	Federal, N.T.	Ask Minister Plibersek to save Lee Point. Lee Point, on Larrakia country, is culturally significant to the Danggalaba Kulumbirigin Traditional Owners, is home to the iconic Gouldian Finches, Black-footed tree rats, and 400 year old wollybutt trees. But this special place is due to be destroyed by Defence Housing Australia in coming weeks.	https://www.ecnt.org.au/you_can_save_lee_point	Environment Centre N.T.	14/7/23	
Open Letter	International	Stop deep sea mining! Add your signature to a letter to the UN and the International Seabed Authority. Having devastated forests and poisoned rivers for decades, big corporations are now lining up to destroy deep sea beds by mining them. Their actions will cause immense damage to another important ecosystem and reduce the sea's ability to absorb carbon. Scientists believe the deep sea is possibly the largest carbon sink on earth.	https://only.one/act/mining	Only One	14/7/23	
Email Form	International	Ask the EU to restore and protect nature. We have a once-in-a-lifetime opportunity to turn the tide for nature in Europe: a law to #RestoreNatur. What makes this opportunity unique is that this law will legally oblige EU countries to restore a set	https://www.restorenature.eu/en/take-action	Client Earth	14/7/23	

		amount of nature. If they fail, they can be held accountable, and taken to court.				
Email Form	International	Increase pressure on Canadian law makers to protect old growth and communities. Canada is experiencing extreme wildfires communities and nature are being impacted but the government of B.C. is not changing the laws to protect endangered old growth forests. Pressure them to take action.	https://act.stand.earth/page/54106/action/1	Stand.earth	14/7/23	
Email Form letter	Federal	ADAC (A Different Approach Community) puts out a “Letition” once per month. They describe a “Letition” as “one letter with one message, sent by many”. This month they have an easy send letter to send to your local MP protesting against the proposed Middle Arm and Beetaloo developments. See their webpage for more.	https://adacaust.com.au	ADAC	3/7/23	
Petition	National	Tell BP and Shell not to frack the Beetaloo Basin NT fracking company, Tamboran, have announced they will sell their fracked gas to BP and Shell. These agreements are non binding at the moment, which allows a window to protest Shell and BP’s participation.	https://www.getup.org.au/campaigns/gas-and-fracking/bp-and-shell-petition/bp-and-shell-don-t-frack-the-nt	GetUp	28/6/23	
Petition	Victoria	Stop a consortium of businesses from establishing a brown coal to hydrogen complex in the LaTrobe Valley Sign the petition to stop the Hydrogen Energy Supply Chain project in the Latrobe Valley and begin the urgent phase out of all existing coal projects with appropriate support for workers and communities.	https://www.parliament.vic.gov.au/view-sign-e-petitions/details/12/508	Victorian Parliament, Legislative Council E-Petitions	28/6/23	
Petition	International	Stop multi-national bottled water companies from pumping water from communities impacted by drought and water scarcity. Blue Triton makes money by taking much needed water from communities which need it. Sign the petition to ask for this to stop.	https://actions.eko.org.au/james-beard-blue-triton/	EKö	28/6/23	
Petition	Federal	Support our Pacific neighbours by asking Minister Wong to make a strong case for climate action to the highest court in the world. Pasifika climate leaders made history by taking their case for climate action to the highest court in the world. Now they need support from our government. Sign the petition to support them.	https://www.greenpeace.org.au/act/pacific-justice	Greenpeace	28/6/23	
Email Form	Western Australia	Let the WA Premier know you support a well protected South Coast Marine Park	https://www.saveourmarineinlife.org.au/actions/so	Save our Marine Life	28/6/23	

		The Great Southern Reef rivals the Barrier Reef in size and importance. But a quarter of the species are at risk of extinction and there are no protected areas in the Southern Reef. The Premier needs to be encouraged to declare this area a protected marine park.	uthcoastletter/			
Petition	Australian	Save Australia from the rapid spread of Fire Ants Fire ants are on the move south. This species is dangerous to the economy, the environment and human health. State and federal ministers need to be encouraged to act for the eradication of this invasive species before it takes hold across more of Australia.	https://invasives.org.au/how-to-help/take-action/save-australia-from-fire-ants/	Invasive Species Council	28/6/23	
Petition	International	Tell the Central Banks to protect people and planet not big oil and gas This is an opportunity to ask the funders of fossil fuel companies to do the right thing and stop funding damaging oil coal and gas.	https://actions.eko.org/pages/tell-the-central-banks-to-protect-people-and-planet-not-big-oil-and-gas/	EKÖ	27/6/23	
Email Form	Victorian	Get off Gas: Email your MP Methane gas is not only expensive, it's also dangerous to health and the environment. There are alternatives to burning gas in our homes, but the government's policies for gas substitution don't go far enough; email your MP and ask them to strengthen the Gas Substitution Roadmap.	https://environmentvictoria.org.au/action/get-off-gas-email-your-state-mp/	Environment Victoria	27/6/23	
Email Form	Federal	Send the Minister for the Environment and Water a message: save the Murray Darling Basin before it's too late. The promised vital water to improve the health of our rivers has not been delivered. The deadline to fix this and save our rivers is looming, but there is little evidence promised water will be available. Ask the Minister to make sure the promises are delivered.	https://environmentvictoria.org.au/action/ask-federal-water-minister-plibersek-to-deliver-the-murray-darling-basin-in-full-and-on-time/	Environment Victoria	27/6/23	
Email Form	Federal	Tell your MP you want clean energy not Woodside Woodside want to drill for gas in whale habitat off the WA coast. Their plan will damage the environment and create major disruption to the ocean wildlife for dirty gas which we don't need.	https://acthubspot.greenpeace.org.au/woodside-email-mp-clean-energy-transition	Greenpeace	26/6/23	
Email Form	NSW	Take Action for NSW Forests Send the email to The NSW Treasurer and the minister for Finance and Natural Resources to ask them to sign up to protecting the native forests of NSW	https://www.wildernessaustralia.org.au/ending_native_forest_logging	Wilderness Australia	26/6/23	
Pledge	National	Sign the pledge to stay flight free.	https://flightfree.net.au/a	Flight Free Oz	6/6/23	

		Air travel has a huge impact on our emissions. There is no quick fix for aviation fuels, which are extremely damaging to our environment. But we can all reduce our impact by not flying. Make the commitment, sign the pledge	ll-causes/pledge-to-be-flight-free/			
Petition	International	Tell Nestlé to stop destroying rainforests for collagen for beauty products. Nestlé is cutting down Amazon rainforest and destroying native lands to produce collagen based beauty products from cattle.	https://actions.eko.org/a/nestle-stop-destroying-the-amazon-rainforest	EKÖ	1/6/23	
Petition	Federal	The Environment Minister has approved a new coal mine in the Bowen Basin Ask the Minister to end all new coal and gas approvals and ramp up investment in renewables.	https://www.acf.org.au/share-end-coal-gas-petition	Australian Conservation Foundation	1/6/23	
Petition	Western Australia	Help the Nippers programme in WA get off sponsorship from fossil fuel company Woodside Junior surf lifesavers across Western Australia are known as the "Woodside Nippers" with Woodside's logo on their rashies, hats, and caps. Sign the petition to end that sponsorship.	https://www.greenpeace.org.au/act/free-the-nippers	Greenpeace	28/5/23	
Petition	Federal	Disarm the Middle Arm Scathing new documents reveal the Albanese Government knew the Middle Arm gas hub is central to the expansion of fracking production in the Beetaloo Basin, and are <i>still</i> supporting the project with billions in public funds. It comes just a week after Larrakia Traditional Owners warned that sacred sites at Middle Arm are at risk of being Juukan Gorge 2.0 if the polluting gas hub goes ahead.	https://www.getup.org.au/campaigns/climate-justice/middle-arm-petition/disarm-middle-arm	GetUp	28/5/23	
Petition	International	Ban private jets Just 1% of the global population is responsible for half of the world's aviation emissions. Private jets are the epitome of social and climate injustice. A private jet flight causes about 10 times more CO2 emissions than a regular flight per flight per person, and 50 times more than the average train ride. Governments need to take a strong stand now!	https://www.greenpeace.org/international/act/ban-private-jets/	Greenpeace	28/5/23	
Petition	International	Tell Amazon to switch to zero emissions transport for shipping goods Amazon is one of the biggest companies in the world. Millions of purchases mean millions of parcels, and millions of deliveries clogging up streets creating unnecessary traffic, fumes, and climate pollution. With online shopping projected to massively grow, this	https://act.stand.earth/page/51302/petition/1	Stand.earth	28/5/23	

		problem is only going to get bigger.If Amazon moves to zero emissions deliveries, then we'll drive change across the whole sector.				
Petition	Federal	Scrap the stage 3 tax cuts The Stage 3 income tax cuts are fiscally irresponsible, massively expensive and completely unfair. They will cost the budget around a quarter of a trillion dollars and will benefit billionaires the most, while battlers get slugged.	https://nb.australiainstitute.org.au/scrap_stage_3_tax_cuts	The Australia Institute	28/5/23	
Petition	Federal	Stop new coal mine approvals Environment Minister Tanya Plibersek rejected Clive Palmer's proposal coal mine, but there are 28 more new coal mine projects in the pipeline awaiting federal government approval. Research shows that, if they are approved and proceed, the lifetime emissions from these mines would be equivalent to keeping all of Australia's coal-fired power stations operating for an additional 129 years.	https://nb.australiainstitute.org.au/stop_new_coal_mine_approvals	The Australia Institute	28/5/23	
Petition	Federal	Ban Consulting firms who breach public trust Consulting firms who leak confidential information and breach public trust should be barred from winning government contracts.	https://nb.australiainstitute.org.au/ban_consulting_firms_who_breach_public_trust	The Australia Institute	28/5/23	
Petition	Northern Territory	No Middle Arm Gas Hub Larrakia Traditional Owners have warned that the gas-fired petrochemical precinct in Darwin Harbour could be another Juukan Gorge. They haven't been consulted about the development plans despite it being right next to the only remaining Larrakia rock art	https://act.350.org/sign/no-middle-arm-gas-hub/	350	28/5/23	
Petition	National	Tell Woodside to clean up its trash Woodside is leaving a trail of rusting, rotting oil and gas infrastructure off the coast of Western Australia, close to World Heritage areas. Tell the CEO fix this issue.	https://www.greenpeace.org.au/act/tell-woodside-to-clean-up-their-act	Greenpeace	28/5/23	
Petition	International	Tell EU leaders to stop the trade in Shark fins in Europe Sharks are essential for marine ecosystems, biodiversity, climate protection and food security. However, more than 100.000.000 sharks are killed every year, mainly for their fins. The number of sharks in the high seas has therefore declined by more than 70% in the last 50 years, 167 shark species are threatened with extinction. The EU is the single largest supplier of shark fins to the Asian fin markets, contributing 45% of the total fins in the global trade.	https://only.one/act/stop-the-trade	OnlyOne	28/5/23	

Petition	Queensland	Ask the Queensland Minister for the Environment to ban gillnet fishing The Great Barrier reef is home to globally significant populations of dugongs, turtles, dolphins and sawfish. But commercial gillnets catch these iconic species in their thousands. Gillnets are indiscriminate killers, easily entangling species like dugongs and turtles where they can quickly drown.	https://www.marineconservation.org.au/actions/lets-make-2023-gillnet-free-amcs/	Australian Marine Conservation Society	28/5/23	
Email Form	National	Tell the big 4 banks to rule out fracking the Northern Territory The NT government has given the go ahead to fracking in the Beetaloo basin, putting our climate and communities at risk. We can put roadblocks in the way of companies who want to frack for gas kilometres underground by ensuring they can't secure Australian finance.	https://www.bankonourfuture.com.au/australian-banks/email-the-big-4-banks/t	350.org	4/5/23	
Petition	Federal	Sign the petition to end coal and gas in Australia Our governments gift \$22,217 in taxpayer money every minute to coal and gas industries. Sign the petition urging the Australian Government to stop handing public money to coal and gas exports and invest in renewable-powered exports to slash pollution and future-proof our economy.	https://www.acf.org.au/end-coal-gas-petition	Australian Conservation Foundation	4/5/23	
Email Form	Federal	Tell the Treasurer to properly fund nature protection The government has failed to protect the environment and endangered species from destructive projects for too long. Keep the pressure on the government by emailing Treasurer Jim Chalmers and Minister for Environment and Water Tanya Plibersek today and ask them to get serious about funding nature protection.	https://wilderness.good.do/budget2023/fundnature/	Wilderness Society	4/5/23	
Email Form	National	Tell the Minister for the Environment not to go soft on plastics The packaging industry will not reach the 2025 national targets for plastic packaging. It is now urgent the government replaces the voluntary system with set and legislated targets for plastic packaging.	https://www.boomerangalliance.org.au/please_dont_go_soft_on_plastics	Boomerang Alliance	4/5/23	
Email Form	National	Help protect Australia's world-heritage Macquarie Island The Albanese government wants to know what the community thinks about the proposal to expand Macquarie Island. This is a once in a lifetime opportunity to help protect a unique wild place which is habitat to iconic wildlife.	https://www.marineconservation.org.au/actions/macquarie-proclamation-consultation/	Australian Marine Conservation Society	4/5/23	
Email Form	Victorian	Ask the Victorian Premier to speed up the native logging transition	https://vnpa.org.au/action/native-logging-transition	Victorian National Parks Association	4/5/23	

		VicForests are repeatedly accused of breaching laws supposed to protect Victoria's native forests, water catchments and threatened wildlife. They run at a loss and are subsidised by Victorian government subsidies whilst destroying habitat of critically endangered native species. This practice needs to end.	on/			
Petition	International	Call on the US and Canada to reject forest biomass as a false climate solution Logging the world's last old growth and primary forests is bad enough – but logging forests to burn for electricity is unforgivable. Logging and burning primary forests for electricity has no place in a renewable energy future.	https://act.stand.earth/page/51402/petition/1	Stand.Earth	4/5/23	
Email Form	National	Ask Woolworths, Aldi and Coles to electrify their vehicles Trucks are responsible for 38% of Australia's transport emissions. By electrifying their fleets, supermarkets can go from being a pollution problem, to part of the solution. These companies are not acting fast enough, but they take notice of customer demands.	https://www.greenpeace.org.au/act/fleets-supermarkets	Greenpeace	4/5/23	
Email Form	Federal	Tell Labor: voters want fracking subsidies scrapped. Send your Federal MP polling data which demonstrates the electorate does not want taxpayers money used to support fracking.	https://www.getup.org.au/campaigns/climate-justice/email-labor-scrapping-subsidies/tell-labor-voters-want-fracking-subsidies-scrapped	GetUp	4/5/23	
Email Form	Victorian	Have your say on duck hunting Add your views to the Inquiry into Victoria's Recreational Native Bird Hunting Arrangements. Send your email by 8/5/23	https://www.actforbirds.org/bird-hunting/vic-2023	Birdlife Australia	4/5/23	
Email Form	Victorian	Ask the Minister for Environment and her Department to protect the critically endangered Mount Donna Buang Stonefly Our state nature laws could help keep this millenia-old critter off the extinction list. But only if our elected leaders activate a never-used tool designed to give extra protection to its habitat.	https://vnpa.org.au/action/minister-use-our-nature-laws-to-protect-rare-stonefly/	Victorian National Parks Association	4/5/23	
Petition	International	Ban octopus farming Email EU leaders and the president of the Canary Islands to stop the inhumane practice of farming sentient, intelligent octopus under appalling conditions.	https://secure.avaaz.org/campaign/en/ban_octopus_farming_lite_74/	AVAAZ	4/5/23	

Petition	National	Ask the government to build an oil and gas rig recycling industry Off Australia's coast are scores of rusting fossil gas and oil rigs, hundreds of wells and thousands of kilometres of pipeline, all of which need to be retired over coming years. This is an opportunity to recycle masses of materials, create thousands of direct and indirect jobs and clean up our coastline.	https://www.foe.org.au/recycle-the-rigs	Friends of the Earth	26/4/23	
Petition	National and Queensland	Ask the Australian and Queensland governments to enact the road map to protect the reef. The UNESCO and IUCN's report outlines 22 recommendations the government must implement if they are serious about saving the reef. Urge the government to take these key steps now.	https://www.marineconservation.org.au/actions/reactive-monitoring-mission-report-release-reef/	Australian Marine Conservation Society	23/4/23	
Petition	Victorian	End duck shooting Sign the petition, created by the Buddhist Society of Victoria, to ask the premier to end duck shooting in Victoria.	https://chnq.it/76whJr4c6x	GetUp	23/4/23	
Email Form	Federal	Email politicians to electrify homes Millions of Australian homes are inefficient and ill equipped for the vagaries of climate change. The government needs to be urged to provide more support and resources to help electrify our homes and get off gas faster.	https://www.getup.org.au/campaigns/climate-justice/electrify-campaign-launch/let-s-electrify-climate-smart-homes-not-sky-high-gas-bills	GetUp	17/4/23	
Email Form	Victorian	Tell the Victorian minister for the Environment to protect our rare fat-tailed dunnarts The Victorian Scientific Advisory Committee recently reported that they support the fat-tailed dunnart nomination as a Vulnerable species. This classification would provide some protections for the existing population of these tiny creatures.	https://grassyplains.net.au/Save-our-Dunnies/	Grassy Plains Network	16/4/23	
Petition	International	Tell the Royal Bank of Canada to stop funding climate destruction and respect indigenous rights. As of 2022 the RBC is the largest funder of fossil fuels in the world. The time to act is now. Tell the RBC to start taking the environment and indigenous rights seriously.	https://act.stand.earth/page/27742/petition/1	STAND.earth	16/4/23	
Open Letter	National	Help protect Australia's World Heritage Macquarie island. Let the government know that you support the draft plan to triple the size of the Macquarie Island Marine Park.	https://www.saveourmarine.org.au/actions/projectmacquarie/	Save Our Marine Life	16/4/23	

Petition	Victorian	Petition the Victorian Minister for the Environment to protect our iconic snow gums which are at serious risk. Climate change driven fire seasons are leading to more frequent fire, which is causing more death of trees and changes to forest structure. We are on the verge of losing our alpine landscapes. Ask the minister for protection of these beautiful places.	https://www.melbournefriends.org.au/snow_gum_petition	Melbourne Friends of the Earth	16/4/23	
Petition	International	Sign the petition to the Dominican Government to deny an application for expansion to a toxic gold mine. For over a decade the Barrick gold mine has been polluting rivers and land causing death to animals, illness to people in six communities and forcing them to buy water. Tell the Dominican government that this must end.	https://actions.eko.org/a/barrick-dominican-republic	EKÖ	16/4/23	
Email Form	Federal	Safeguarding Australia's South-east Marine Life Some of the richest, but least protected, waters in Australia lie off our south-east coast. The government is currently reviewing marine parks in this area. Right now we have a rare opportunity to more than double the area of fully protected marine sanctuaries.	https://www.marineconservation.org.au/actions/south-east-marine-park-network/	Australian Marine Conservation Society	16/4/23	
Petition	National	Ask the State and Federal Ministers for roads and transport to upgrade our roads to protect our native wildlife from becoming roadkill. Our wildlife is in a precarious position and every year millions of creatures are killed on our roads. We need better protection for our native animals.	https://www.change.org/p/stop-the-carnage-on-our-roads-build-aussie-wildlife-crossings-now/psf/promote_or_share	Change.org	16/4/23	
Open Letter	Federal	Stop new coal mines approvals There are 28 new coal mines or expansions awaiting approval. Approving even one of them is incompatible with limiting dangerous climate change. Sign this open letter to the Environment Minister.	https://nb.australiainstitute.org.au/stop_new_coal_mine_approvals	The Australia Institute	11/4/23	
Email Form	Victorian	Speak up for Aboriginal cultural heritage Recent actions by a pro-feral horse group, enabled by Victorian government agencies including Parks Victoria, have caused significant damage to protected Aboriginal heritage sites and ecosystems in the Barmah Forest. Send a quick email calling for action to protect irreplaceable cultural heritage in the Barmah National Park.	https://envirojustice.org.au/blog/2023/03/30/speak-up-for-aboriginal-heritage-barmah/	Environmental Justice Australia	11/4/23	
Petition	International	Stop illegal gold mining in the Amazon	https://actions.eko.org/a/enough-illegal-mining-o	EKÖ	9/4/23	

		Luxury jewellers have been found to be involved in illegal mining in the Amazon. The illegal actions result in forest destruction and displacement of indigenous land owners.	n-indigenous-lands			
Petition	International	Tell World Leaders to protect 30% of the world's oceans by 2030. At COP 15 last year world leaders agreed to protect the high seas, but only 3% of the ocean is protected. The rest is open to overfishing, bottom trawling and other forms of degradation. Hold our leaders to their commitments.	https://only.one/30x30	Only One Team	9/4/23	
Petition	Victoria, Tasmania and South Australia	Save our Southern Sea Country: Stop Oil and Gas Exploration in Vic, SA and Tasmania A call for our politicians to support the Offshore Petroleum and Gas Storage Amendment Bill 2022, and protect our oceans and sea life.	https://www.change.org/p/stop-oil-and-gas-exploration-in-tas-vic-sa-save-our-southern-sea-country?redirect=false	Change.org	9/4/23	
Petition	NSW	Tell the NSW Legislative Assembly to stop logging in the proposed Greater Koala National Park. Home to Koalas and Southern Greater Gliders, logging is destroying the habitat of these iconic creatures. Sign by 11/4/23	https://www.parliament.nsw.gov.au/la/pages/epetition-details.aspx	Citizens to NSW Legislative Assembly	9/4/23	
Open Letter	Federal	Sign the open letter asking the government to provide interest free loans for households to electrify their homes. Helping households to improve the energy efficiency of their homes by installing solar panels, installing better insulation and changing to energy efficient appliances could reduce Australia's carbon emissions. Ask the government to help bring this on.	https://www.climatecouncil.org.au/actions/pen-letter-zero-interest-loans/	Climate Council	9/4/23	
Email Form	Victorian	Call on the Victorian Environment Minister to step up on air pollution New data on toxic air pollution shows that although Victoria's three power stations are producing less electricity, they are now producing more toxic air pollutants such as mercury, sulphur dioxide and PM2.5 and PM10 particles. These are hazardous for the health of people, plants and animals..	https://envirojustice.org.au/blog/onlineaction/npj-vic	Environmental Justice Australia	9/4/23	
Petition	International	Tell Microsoft executives to reinstate their "Ethics and Society" Team and ensure ChatGPT is safe. Shortly after Microsoft made a huge investment in ChatGPT they scrapped their entire Ethics and Society team whose job it was to make sure the technology was safe to use.	https://actions.eko.org.au/tell-microsoft-shafeguards-chatgpt	EKÖ	9/4/23	

Email Form	National	Take action to help eradicate dangerous invasive fire ants Our governments are delaying the release of a report on these invasive pests. We need information and action to stop the spread of these ants before the change our Australian way of life.	https://invasives.org.au/how-to-help/take-action/flight-for-the-release-of-the-secret-fire-ant-report/	Invasive Species Council	9/4/23	
Email Form	National	Tell the CommBank CEO to respect the Tiwi Islanders Last year, CommBank, NAB, ANZ and Westpac, plus a range of international banks were part of a \$1.5 billion loan to Santos AFTER the Tiwi Islanders had submitted their complaint about the consultation process and whilst the case was ongoing. Despite all 4 Australian banks having policies and commitments to the principles of free, prior and informed consent.	https://act.350.org/letter/email-commbank-tiwi-islanderst	350.org	9/4/23	
Petition	National	Australia has the worst mammalian extinction record in the world. Sign the petition to call for better control of invasive species. The statistics on destruction of our native creatures are appalling. We need more humane action to ensure no more extinctions.	https://invasives.org.au/how-to-help/take-action/sign-the-petition-feral-cats-gf-version?	Invasive Species Council	5/4/23	
Email Form	National	Email the big 4 banks to demand they stop funding Santos's expansion of the Darwin LNG project. Indigenous communities have taken Santos to court and the banks have chosen to fund the Santos project before the court case is settled. Take action to hold the banks to account.	https://www.marketforces.org.au/australias-big-four-banks-receive-human-rights-complaint-over-financing-of-barossa/	Market Forces	5/4/23	
Email Form	Federal	Ask the Government to back strong fuel efficiency standards Fuel Efficiency Standards will bring a greater supply of electric vehicles to Australia, and give people the choice of more efficient, affordable and diverse vehicles, including models already available overseas. Additionally, Fuel Efficiency Standards will put us on track to meet our 43% by 2030 emissions reduction target by reducing emissions from road-based transport.	https://www.solarcitizens.org.au/email_labor_back_strong_fes	SolarCitizens	4/4/23	
Petition	Federal	We need laws that actually protect nature Australia has one of the worst extinction records on Earth. It's time for laws that actually protect nature, and an independent regulator to enforce them. Sign the petition to demand that our national environment laws actually protect nature.	https://www.acf.org.au/environment-laws-petition	ACF	4/4/23	
Email Form	Federal	Ask Tanya Plibersek to take serious action on recycling plastics. The collapse of REDcycle requires action from governments to take action to change how we use and recycle plastic. Ask the Minister	https://www.boomerangalliance.org.au/please_dont_go_soft_on_plastics	Boomerang Alliance	4/4/23	

		for the Environment to consult with her state counterparts to ensure we fix this problem.				
Petition	International	Ask California to endorse the fossil fuel treaty If California were to endorse, it would put serious pressure on world leaders to begin negotiations around a global Fossil Fuel Treaty.	https://act.stand.earth/page/50404/petition/1	Stand.Earth	4/4/23	
Petition	International	Urge Procter and Gamble to stop harming indigenous people and forests for profit Each year, Procter & Gamble buys more than 600,000 *megatonnes* of palm oil to make everything from shampoo to toothpaste – and too much of it is still grown on bulldozed rainforest and stolen Indigenous land, wreaking havoc on lives and livelihoods.	https://actions.eko.org/a/p-and-g-solve-your-big-deforestation-problem	EKÖ	4/4/23	
Email Form	Victorian	Write to your politician to save the Fat-tailed Dunnart Urge your elected representative to listen to the scientists and declare the Fat-tailed dunnart vulnerable to save this small creature from extinction.	https://vnpa.org.au/action/ministers-dont-let-this-mighty-tiny-predator-go-extinct/	Victorian National Parks Association	4/4/23	
Petition	International	Ban Private Jets Just 1% of the global population are responsible for half of the world's aviation emissions. Private jets are the epitome of social and climate injustice. Sign the petition to ban private jets.	https://www.greenpeace.org/international/act/ban-private-jets/	Greenpeace	4/4/23	
Open Letter	Federal	Sign the open letter calling for no new Fossil Fuels Add your name to those of scientists and environment organisations asking the government to heed the advice of the IPCC and the IEA to prevent any further new fossil fuel developments.	https://nb.australiainstitute.org.au/scientists_open_letter	The Australia Institute	24/3/23	
Email form	Federal	Let your local M.P. know the public cares about the environment. Email your local MP to send them the results of polling which shows that voters want stronger action on the safeguard Mechanism and greater protection for the environment.	https://www.getup.org.au/campaigns/climate-justice/email-your-labor-rep-this-climate-poll/tell-labor-voters-want-genuine-pollution-cuts	GetUp	23/3/23	
Petition	Federal	Demand a Strong Safeguard Mechanism We need a Safeguard Mechanism which will stop new fossil fuel projects, ensure the worst polluters actually cut their emissions, sets hard limits and makes the worst polluters pull their weight.	https://www.climatecouncil.org.au/resources/dirty-dozen/	Climate Council	23/3/23	

Email Form	Federal	No Gas Bailouts Email your MP to ask them to ensure there is no public money for the fossil fuels under Safeguard Mechanism funding.	https://fossilfuelwatch.org.do/nogasbailouts/Email-CCS-money/	Fossil Fuel Watch	9/3/23	
Petition	International	Tell Barclays Bank to end its relationship with the Adani organisation Adani has had serious problems of late and desperately needs funds to support its climate wrecking actions. Barclays bank continues to support Adani. Barclays needs to be told this is not the time to support Adani for the sake of the planet and their own reputation.	https://actions.eko.org.au/barclays-it-s-time-to-break-up-with-adani/	EKÖ	9/3/23	
Petition	International	Tell Toyota to stop dirty lobbying in Australia Australia has weak laws regarding fuel emissions and Toyota are lobbying hard to ensure our weak laws stay weak to ensure we are behind the rest of the world. Toyota was once a leader in technology for hybrid vehicles, but have been left behind and need a market for their old technology.	https://actions.eko.org.au/toyota-australia-is-fueling-the-climate-crisis/	EKÖ (formerly SumOfUs)	9/3/23	
Petition	Federal	An Open Letter from Australian Scientists and Experts - No New Fossil Fuel Projects Add your name with more than 118 Australian scientists and experts who have signed an open letter calling on the Australian Government to prevent any further new fossil fuel projects in Australia.	https://nb.australiainstitute.org.au/scientists_open_letter	The Australia Institute	6/3/23	
Petition	Federal	It's time to electrify It's time for clean air, a safer climate and healthier communities. It's time for cheaper fuel and energy independence. It's time to electrify everything. First stop: transport.	https://act.greenpeace.org.au/electrify-fes-petition	Greenpeace	17/2/23	
Petition	International	Support an International Treaty to protect the high seas. Only 1.2% of the high seas is protected. Scientists say we need 30% of the seas protected to ensure the health of our seas and our planet. Sign the petition to urge our leaders and other world leaders to support the treaty.	https://only.one/act/high-seas	Only.one	12/2/23	
Petition	Victoria	End duck shooting in Victoria in 2023. Sign the petition demanding the duck shooting season doesn't start on 16/3/23 and never gets another start. Bring Victoria into line with other states on this issue.	https://www.change.org/p/end-duck-shooting-in-victoria-in-2023/psf/promote_or_share	Change.org	12/2/23	
Petition	Federal	We need stronger nature laws in 2023	https://www.actforbirds.org	Birdlife Australia	12/2/23	

		We need strong nature laws this year, to ensure our beautiful and irreplaceable birds and landscapes are protected forever. Ask all Federal elected representatives to support strong legislation that protects nature! Sign the petition.	org/stopextinctions			
Petition	International	Let's end fossil fuel's crimes against humanity and the climate. The fossil fuel industry is built on colonialism and injustice. Fossil fuel companies are responsible for countless crimes against the environment and humanity and they have been getting away with it for far too long. For a fair, green and peaceful world, we need climate justice. End the crimes, we want justice!	https://act-int.greenpeace.org/end-fossil-crimes	Greenpeace	12/2/23	
Pledge	International	Support the Amazonia for Life Initiative 80x2025 Scientists are warning of the danger of irreversible destruction of the Amazon Rainforest unless we protect it. Global environmental organisations are calling for 80% of the forest to be protected by 2025.	https://act.stand.earth/page/44149/petition/1	Stand.Earth	12/2/23	
Email Form	Federal	Is your M.P. an E.V. champion? Email your M.P. to ask him to make E.V.'s affordable and accessible for all.	https://greenpeace.good.do/electrify-mp-email/mailmp/	Greenpeace	12/2/23	
Petition	International	Protect the Oceans Our oceans are under threat from climate change, plastic pollution, destructive mining and over fishing. Sign the pledge to ask the UN to sign a Strong Global Ocean treaty to establish a network of sanctuaries.	https://www.greenpeace.org/international/act/protect-the-oceans/	Greenpeace	5/2/23	
Moratorium Support	International	Support a global moratorium to stop deep sea mining in its tracks. Mining of sea beds for materials for commerce is destructive to the life of the oceans. Join pacific nations and others to call for a moratorium on this destructive activity before it's too late.	https://www.greenpeace.org/international/act/stop-deep-sea-mining/	Greenpeace	5/2/23	
Email Form	National	All around Australia native forests are at risk, take action to stop this destruction Australian forests and forest dependent species are seriously threatened by the combustion of native forest biomass for energy production at industrial scale. Furthermore, burning our forests for power limits the capacity of nature to remove carbon from the atmosphere and impedes the deployment of genuinely clean, renewable energy sources.	https://wildernessaustralia.giveraus2.com.au/home/	Wilderness Society	5/2/23	

Petition	National	Act to save Kosciuszko Feral horses are pushing 23 threatened native plant species like the vulnerable Kiandra leek orchid and 11 native animal species like the critically endangered southern corroboree frog to the brink of extinction. Sign the petition now.	https://invasives.org.au/how-to-help/take-action/sign-the-petition-kosciuszko/	Invasive Species Council	5/2/23	
Email Form	National	Ask the Prime Minister to ensure the Safeguard Mechanism is strong enough to achieve real reductions in emissions. The Safeguard Mechanism should ensure big polluters reduce their emissions in line with the 43% reduction target. But currently there are aspects of the draft Safeguard Mechanism which will allow fudging of reductions.	https://www.acf.org.au/message-to-mr-albanese	ACF	31/1/23	
Pledge	National	Ask the dirty dozen big polluters to pull their weight The Climate Safeguard Mechanism needs to be strengthened. The big polluters need to take more responsibility and greater action to ensure a safe healthy future. This pledge asks them to do that.	https://www.melbournefoe.org.au/safeguard_our_climate	Friends of the Earth	31/1/23	
Petition	National	Ask the NT government to fully implement all aspects of the 2018 Fracking Inquiry and protect Territory water. The NT government is under pressure to grant fracking licences to companies in the Beetaloo Basin, which would negatively impact water quality.	https://www.getup.org.au/campaigns/gas-and-fracking/protect-water-at-all-costs/protect-water	GetUp	27/1/23	
Email Form	National	Ask Northern Territory government MP's to strengthen NT community rights, rein in large scale clearing with updated, enforceable laws and practice. Appalling land clearing practices are turning beautiful biodiverse rich lands into desolate dusty landscapes. Laws in the NT need to be strengthened to protect valuable biodiversity and ensure the community can participate in decision making.	https://wilderness.good.do/CREDNT/ntministers/	Wilderness Society	27/1/23	
Petition	International	Tell Mondelez (makers of Oreos & Toblerone) to clean up their supply chain and stop using palm from native forests. This multinational snack producer obfuscates and uses opaque supply chain links to hide the source of some of the palm oil they use. Some of this is illegally sourced from protected forests.	https://actions.sumofus.org/a/mondelez-be-a-hero/	SumOfUs	27/1/23	
Petition	International	Demand fossil fuel CEO's immediately stop opening any new fossil fuel extraction sites and stop blocking a clean energy transition.	https://secure.avaaz.org/campaign/en/davos_2023_loc/	Avaaz	16/1/23	

		Next week top fossil fuel CEO's are meeting in Switzerland. Support four young activists by signing their stop and desist letter, which they will deliver to these CEO's at their meeting.				
Petition	National	Prime Minister: We need a national climate disaster plan. In the past year disasters have been declared across 60% of the country. Call on the PM to develop a national climate disaster prevention, adaptation and recovery plan with Premiers and key Ministers and in consultation with Traditional owners and local leaders.	https://www.getup.org.au/campaigns/climate-justice/national-climate-disaster-plan/prime-minister-we-need-a-national-climate-disaster-plan	GetUp	13/1/23	
Email Form	Victorian	Demand an end to Logging The Andrews government has committed to ending logging of native forest by 2030. But VicForests have shown they cannot be left to manage logging in sensitive native forests. If we wait until 2030 the forests will be all but gone. Sign the letter to Minister Stitt to end native forest logging and transition to sustainable jobs for the workers.	https://www.melbournefoe.org.au/end_logging_now	Friends of the Earth	13/1/23	
Petition	National	It's time for laws which actually protect nature While the draft plans the minister has presented are welcome, the EJA lawyers are concerned there are some significant gaps and issues that could jeopardise the whole thing. There are 6 priority issues to be addressed.	https://envirojustice.org.au/blog/onlineaction/environment-laws-petition/	Environmental Justice Australia	11/12/22	
Open Letter	National	Ask the government not to proceed with dumping of radioactive waste at Kimba S.A Sign the open letter Resources Minister Madeleine King to keep the radioactive waste securely stored at the best place until we adopt a credible and evidence-based approach to long-term waste management.	https://www.acf.org.au/open-letter-radioactive-waste	ACF	11/12/22	
Petition	International	Tell Canada to end Aquatic Clearcutting Canada's shipping laws are promoting aquatic clearcutting. By incentivising ocean dumping, these laws are helping to destroy the kelp forests and accelerate the decline of critically endangered species. This must stop immediately.	https://act.stand.earth/page/44568/petition/1	STAND.earth	11/12/22	
Petition	Federal	Ask your local MP and Senators to speak up for our beautiful wildlife. Send an email to support the petition signed by half a million Australians to fix and strengthen the EPBC Act and ensure our natural world is protected.	https://www.acf.org.au/mail-mp-nature-petition	ACF	4/12/22	

Petition	Vic	End VicForest logging Native Forests A petition requesting the Legislative Council to call on the Government to immediately close VicForests, stop all logging and bring forward, for immediate effect, the schemes to assist and retrain all employees affected by the closure. Closes 1/9/22. Closure date has been extended to 16/3/23	https://www.parliament.vic.gov.au/view-sign-e-petitions/details/12/462	Citizens to the Legislative Council	Re added 4/12/22	
Petition	Federal	Tell Tamboran that you support indigenous owners demands for no fracking in the Beetaloo Basin Tamboran now hold most of the licence areas in the Beetaloo Basin. Their reckless plan to frack for gas is in opposition to traditional owners' wishes.	https://www.getup.org.au/campaigns/gas-and-fracking/tamboran-contact-ask/take-action-with-traditional-owners	GetUp	4/12/22	
Petition	Federal	Give Woodside the boot Woodside, and other big polluters, are sponsoring and exploiting our favourite sports to buy a positive reputation and market themselves as a community oriented brand. Ask the Freemantle Dockers not to be part of this.	https://www.acf.org.au/give-woodside-the-boot	ACF	4/12/22	
Petition	Federal	Take Action to tackle Australia's biggest environmental threats Let Minister Plibersek know you support strong laws and systems that protect nature and prevent any more extinctions. Our biosecurity laws need to be updated and more work needs to be done to mitigate the damage done by invasive species such as myrtle to our iconic forests and bushlands.	https://invasives.org.au/how-to-help/take-action/sign-petition-epbc-act-federal-environment-minister/	Invasive Species Council	4/12/22	
Petition	Federal	Support a submission to Tanya Plibersek to reconsider 18 new coal and gas projects Write a submission yourself (see C4C's submissions doc or https://www.acf.org.au/open-for-comment-18-new-coal-and-gas-props by 24/11, and / or sign the petition asking for climate and environment issues to be considered in the review of 18 new coal and gas projects.	https://www.getup.org.au/campaigns/climate-justice/reconsider-18-coal-and-gas-projects/tanya-plibersek-reconsider-18-coal-and-gas-projects	GetUp!	15/11/22	
Petition	International	Kick big polluters out of COP New research has just uncovered that fossil fuel industry representatives in the negotiations outnumber those from all 10 countries facing the worst impacts from the climate crisis. Fossil fuel companies caused this mess, and now they're trying to stop us from cleaning it up. Sign the petition to have them remove from the decision making table	https://act.stand.earth/page/46192/petition/1	Stand.earth	15/11/22	

Petition	National	Ask our big corporations to take responsibility for plastic pollution Ask Coles and Woolworths to fund recycling of plastic packaging and force them to adopt better packaging practices.	https://www.change.org/p/coles-woolworths-to-make-the-change/psf/promote_or_share	Change.org	15/11/22	
Email Form	National	Ask the Prime Minister and the Climate and Energy Minister to sign on to the Glasgow Statement The Glasgow Statement will mean that Australia puts its money where its mouth is and aligns our public funding with our climate commitments. No more public funding of fossil fuels.	https://fossilfuelwatch.org.au/nogasbailouts/glasgow-statement/	350.org	15/11/22	
Email Form	Victoria	Urgent protection needed for Alpine Forests Whilst some forests have some protection against logging, areas in the High country have none and are in imminent threat of severe logging. Climate change and fires are driving our mountain ash to extinction. We need an urgent end to logging of the remaining ash forests and immediate protection for these iconic areas of the High Country.	https://www.melbournefoe.org.au/take_action_protect_the_alpine_forests	Friends of the Earth	15/11/22	
Petition	National	Tax Plastic Packaging We need to make plastic less attractive to use. It is time that a tax was imposed at the point of import or manufacture of plastic. If plastic is more expensive, it will mean industry will look at other options. The tax collected could subsidise better alternatives to plastic.	https://chnng.it/yJv4NkPJ4	Change.org	15/11/22	
Petition	International	Don't let the Pacific Islands sink. Stand together with Pacific Nations whose survival is threatened by the use of fossil fuels. Email world leaders at COP 27 and ask them to adopt the Fossil Fuel Non Proliferation Treaty, deliver funding to the most vulnerable for adaptation and mitigation and make the polluters pay for the damage they've done.	https://secure.avaaz.org/campaign/en/fossil_fuel_treaty_cop27_10/	AVAAZ	7/11/22	
Petition	National	Tell the government to stop funding coal and gas and support farmers. Despite being on the frontlines of climate-driven droughts and floods, Aussie farmers currently receive some of the least government support anywhere in the OECD. Whilst the government hands out billions of dollars in subsidies and tax breaks to coal and gas companies.	https://farmersforclimateaction.org.au/portfolio/coal-and-gas-subsidies/	Farmers for Climate Action	7/11/22	
Email Form	Victoria	Take action to stop feral horses destroying Victorian National Parks	https://invasives.org.au/how-to-help/take-action/	Invasive Species Council	2/11/22	

		Feral horse numbers are in the tens of thousands in the High country and Barmah Forest. They destroy plant life and waterways. A motion has been passed in the upper house of the Victorian parliament that increases pressure on the government to backpedal on current feral horse management plans. Send the email to the minister to protect our native species from feral animals.	ake-action-to-protect-victoria-horses/			
Survey	NSW (with implications for all other states)	The EPA is seeking guidance on expansion of its Container Deposit Scheme This is a quick survey seeking views regarding inclusion of wine, spirit, juice and cordial bottles and ultimately milk containers. There is a short time frame to respond (2/12) the outcome has implications for CDS in other states. For reference: Boomerang Alliance guide Please read our suggested responses.	https://yoursay.epa.nsw.gov.au/driving-nsws-circular-economy	New South Wales EPA	31/10/22	
Petition	National	Kick fossil fuels out of sport Stand with our athletes in calling for a ban on fossil fuel sponsorship in sport. Burning coal, oil and gas causes climate change and air pollution, neither of which are conducive to life let alone playing sport.	https://www.getup.org.au/campaigns/climate-justice/kick-fossil-fuels-out-of-sports/kick-fossil-fuels-out-of-sports	GetUp	25/10/22	
Petition	International	Ahead of COP 27, human rights abuses against climate protesters, journalists and others need to be challenged. In the run up to the UN Climate Change Conference 2022 (COP27) taking place in Egypt in November 2022, there is great concern regarding the human rights situation in Egypt and in particular the government's restrictions on the rights to freedom of expression, association and peaceful assembly, which risk to undermine a successful, inclusive and participatory climate summit. Effective change requires freedom of speech and expression.	https://copcivicspace.net/petition/	COP Civic Space	24/10/22	
Email Form	Federal	No to \$1.5 billion subsidy for Middle Arm and fracked gas Labor has announced a massive \$1.5 billion fossil fuel subsidy — for a huge Middle Arm petrochemical plant to use fracked gas from the Beetaloo. This comes months after now Climate Change Minister Chris Bowen, after sustained pressure from our movement, promised no new public funding for fossil fuels. Send an email to your Federal M.P.	https://www.getup.org.au/campaigns/climate-justice/stop-middle-arm-petrochemical-plant/labor-no-1-5-billion-subsidy-for-middle-arm-fracked-gas	GetUp	24/10/22	
Email Form	Federal	Help Protect Antarctic krill	https://www.saveourmarine.org.au/actions/ant	Save Our Marine Life	21/10/22	

		Krill are facing severe threats from concentrated fishing and a warming planet – and we must act to protect this vital species. In coming weeks there is a meeting of the 26 Antarctic Treaty nations which manage the Antarctic. Australia must take the lead in this meeting to support strong, science-based conservation measures to manage krill populations.	arctickrill/			
Petition	International	Tell Chubb: Stop funding fossil fuels Insurance giant Chubb stands out as one of the biggest remaining enablers of dangerous new oil and gas expansion. Tell the CEO to drop insurance coverage for fossil fuels and respect the right to free, prior and informed consent of Indigenous communities.	https://act.stand.earth/page/45260/petition/1	Stand.Earth	21/10/22	
Petition	International	EU: Stop spreading banned chemicals Tonnes of banned chemicals are made in Europe every day and shipped all over the world. The European Commission committed in October 2020 to lead by example and not allow production of banned chemicals for export. Ask the EU to get on with and stop these deadly exports.	https://actions.sumofus.org/a/outlaw-exports-of-banned-chemicals	SumOfUs	19/10/22	
Email Form	Federal	Ask Minister Plibersek to deliver the Murray Darling water Plan in full on time. With only 20 months left before the Basin Plan deadline, our governments are nowhere close to recovering the vital water that was promised. At stake is the survival of Australia's largest river system – and all the wetlands, wildlife and communities it supports.	https://environment.vic.gov.au/action/ask-federal-water-minister-plibersek-to-deliver-the-murray-darling-basin-in-full-and-on-time/	Environment Victoria	13/10/22	
Petition	Federal	End coal and gas in Australia Our state and federal governments hand over \$22,000 every minute in public money to the polluting coal and gas industries, fuelling climate impacts like more extreme floods, fires and droughts. Let's urge the Albanese Government to end public money for fossil fuels and slash climate pollution.	https://www.acf.org.au/end-coal-gas-petition	ACF	13/10/22	
Email Form	Victorian	How the energy crisis is impacting cost of living for families Government subsidies and support for families to transition to clean energy technology like rooftop solar, household batteries and electric vehicles can save families thousands of dollars a year.	https://www.ap4ca.org/cost_of_living_email_my_vic_mp	Australian Parents for Climate Action	13/10/22	
Endorse a submission	Federal	Endorse a submission to ban native forests being logged for biomass	https://www.foe.org.au/biomass_burning	Friends of the Earth	13/10/22	

		During the Climate Bill negotiations, the ALP made a commitment to look into removing a Coalition loophole from the Renewable Energy Act, which allows the destruction and burning of native forests to be classified as renewable energy. This is a chance to prevent further destruction of native forests.				
Petition	Federal	Protect the Torres Strait with climate action now People living in the Torres Strait Islands are at serious risk of becoming Australia's first climate refugees. Now, two Traditional Owners from the Guda Maluyligal Nation are taking the Australian Government to the Federal Court for their failure to act. Ask the federal government to protect the torres strait islands.	https://action.amnesty.org.au/act-now/protect-the-torres-strait-with-climate-action	Amnesty International	13/10/22	
Petition	NSW	End the needless destruction of Kosciuszko National Park Act urgently to protect the unique ecosystems and wildlife of Kosciuszko National Park by implementing a plan that reduces the feral horse population before it's too late.	https://invasives.org.au/how-to-help/take-action/sign-the-petition-horses/	Invasive Species Council	8/10/22	
Petition	Federal	Save the Great Australian Bight from fossil fuel companies The Great Australian Bight supports an abundance of life. It's a vital nursery for the protected southern right whale, home to endangered sea lions and more than 36 species of dolphins and whales. Three Big Oil companies—Equinor, BP and Chevron—have abandoned their plans. We need to stop others.	https://wilderness.good.do/BightForGood/protectgab/	The Wilderness Society	8/10/22	
Email Form	Federal	Ask the PM to support the big three global agreements to slash pollution at COP27 Ask him to support the global pledge to slash methane emissions, boost support for developing countries to enable them to develop via renewables and support the Glasgow statement to end public finance for overseas coal and gas projects	https://www.acf.org.au/email-prime-minister-cop27	ACF	8/10/22	
Email Form	Federal	Strengthen the Safeguard Mechanism A call for Australia's 10 biggest polluters to publicly pledge to reduce their emissions in absolute terms by 2030 under a strengthened Safeguard Mechanism.	https://climatecouncil.gov.au/pollutionspeedlimit/email-top-polluters/	Climate Council	7/10/22	
Petition	Federal	Petition EN4404 - Stop Seismic Testing in Australian Waters Seismic testing is the process of locating gas and oil deposits deep beneath the ocean floor. This is done by trailing an air gun off the back of a ship, which sends out sonic blasts 24 hours a day, every 10 seconds, at 256 decibels for up to two months at a time; causing	https://www.aph.gov.au/e-petitions/petition/EN4404	Citizens to House of Representatives	5/10/22	

		distress (pain) to most sea life. Request the government to cease seismic testing and withdraw all titles for this process.				
E-Petition	Victorian	End VicForest logging Native Forests A petition requesting the Legislative Council to call on the Government to immediately close VicForests, stop all logging and bring forward, for immediate effect, the schemes to assist and retrain all employees affected by the closure. Closes 1/9/22. Closure date has been extended to 16/3/23	https://www.parliament.vic.gov.au/view-sign-e-petitions/details/12/462	Citizens to Legislative Council	27/8/22 Amended 1/10/22	
Email Form	Vic	It's time for a rapid transition out of coal, gas and native forest logging. In November, Victorians will go to the state election. The good news is that the transition to clean energy is already underway – but to adequately respond to the climate crisis we need to continue to increase our ambition and the speed and scale of action.	https://www.melbournefriends.org.au/election-2022	Friends of the Earth	29/9/22	
Petition	National	Urge the Treasurer to scrap handouts to fossil fuel multinationals. The Morrison Government gave \$19,000 every minute to fossil fuel companies, the same companies making climate change worse. The Labor Government can clean up this mess in the October budget review.	https://act.350.org/sign/s-crap-fossil-fuel-subsidies/	350.org	24/9/22	
Email Form	Vic	Encourage the Victorian government to increase its climate policy Latest figures for Victoria's greenhouse gas emissions are good. Let's congratulate the government on a good result and encourage an even more ambitious target for the next stage to be released in 2023.	https://www.melbournefriends.org.au/celebrate-victorian-emissions-cuts	Friends of the Earth	23/9/22	
Email Form	National	NAB refinances the climate-wrecking Coastal GasLink pipeline NAB has once again failed to match its rhetoric and commitments on climate change with real action, refinancing a new gas pipeline project in Canada. As well as being incompatible with limiting warming to 1.5°C, the pipeline is also currently being constructed on the unceded lands of the Wet'suwet'en First Nations people.	https://www.marketforces.org.au/nab-refinances-coastal-gaslink-pipeline/	Market Forces	23/9/22	
Petition	International	Don't plunder the rainforest for wind energy! The expansion of wind power in China, Europe and North America has triggered a run on balsa wood in Ecuador. Up to 90% of the balsa traded worldwide comes from the South	https://www.rainforest-rescue.org/petitions/1255/dont-plunder-the-rainforest-for-wind-energy	Rainforest Rescue	23/9/22	

		American country. Whilst we need wind generators we must not destroy native lands and precious rainforest in the process. Balsa supply chains must be made transparent and verifiable.				
Email Form	International	CIMB is risking its sustainability credentials by funding a coal giant. CIMB is hosting The Cooler Earth Sustainability Summit 2022 while funding Adaro, a coal company. If CIMB truly supports a “just transition” and a safer planet as the conference suggests, the bank must rule out funding to Adaro.	https://www.marketforces.org.au/campaigns/international/cimb-cooler-earth-summit/	Market Forces	23/9/22	
Petition	National	Hold coal and gas corporations accountable for climate pollution If we can show the overwhelming public support for strong climate policies, we can push the Albanese Government to create a strong mechanism that holds fossil fuel corporations to account and forces them to do their fair share to reduce pollution	https://www.getup.org.au/campaigns/climate-justice/safeguard-mechanism/hold-coal-and-gas-corporations-accountable-for-climate-pollution	Get Up	23/9/22	
Petition	International	Stop the destructive Maya train project in Mexico The 1,500 km long tourist megaproject “Maya Train” is set to bulldoze its way through the last remaining forests of southern Mexico. A local Mexican activist group are petitioning the Mexican courts to challenge this destructive project.	https://actions.sumofus.org/en/a/maya-train-court-case/	SumOfUs	23/9/22	
Email Form	NSW	Protect Swift Parrots Forever Email your NSW Member of Parliament and ask them to stop the logging of native forest to protect the habitat of the critically endangered Swift Parrot. (Note this could also be sent to MP’s in other states as the same issues apply.)	https://www.actforbirds.org/protect-swift-parrot-email-nsw-state-mp	Birdlife Australia	23/9/22	
Open Letter	Federal	A people’s recovery for Australia An open letter to Parliamentarians listing five areas for action to create a society where everyone has the opportunity to thrive, communities are resilient to future pandemics and extreme weather events, and we reclaim our democracy from vested interests.	https://350.org.au/a-peoples-recovery/	Fossil Fuel Watch: 350	13/9/22	
Petition	International	Procter and Gamble: Stop being a Rainforest and Climate Killer This multinational company is responsible for rainforest and orangutan habitat destruction. Email them to stop this destructive activity.	https://actions.sumofus.org/a/p-and-g-no-more-rainforest-killing-palm-oil/	SumOfUs	12/9/22	

Petition	Federal	Ban on New Coal and Gas Petition to the Prime Minister and Minister for Climate Change and Energy to stop new fossil fuel projects.	https://www.aycc.org.au/petition_ban_on_new_coal_and_gas	AYCC	12/9/22	
Email Form	Federal	Ask your MP to sign the Community Protection Pledge The Climate Council has a prepared email to send to your Federal MP to sign the pledge of ten points which aim to protect the community from the impacts and ravages of climate change.	https://emergencyleader.sforclimateaction.org.au/community-protection-pledge/	Climate Council	12/9/22	
Petition	Queensland	Stop Queensland's Crocodile Cull The Queensland Government is considering continuous culling of crocodiles. The proposal is in conflict with the current Management Plan, and threatens the existence of native crocodiles.	https://www.change.org/p/stop-queensland-s-crocodile-cull/psf/promote_or_share	Change.org	11/9/22	
Email Form	Victorian	Stop Logging and start Legislating promised National Parks An email requesting the Premier, Minister for the Environment and MP for Mcedon to end logging in native forests and fulfil the promise made over a year ago to create a National Park in the Central West area of Victoria.	https://vnpa.org.au/action/legislate-not-log/	Victorian National Parks Association	11/9/22	
Email Form	Victorian	No Floating Gas Terminal in Corio Bay Viva Energy wants to build a new floating gas terminal in Corio Bay. A lengthy Inquiry has ended, now the Minister for Planning must decide the fate of Corio Bay. Email her to urge her to protect the environment by rejecting this application.	https://geelongrenewablesnotgas.org/petition/	Geelong Renewables	11/9/22	
Email Form	National	Threatened Species in My Backyard WWF has created a template to email your local Federal Member of Parliament to ask them to consider the extent of threatened species in their electorate and to ensure protection and improvement for our biodiversity by supporting an improved EPBC Act.	https://www.wwf.org.au/get-involved/my-backyard?	World Wildlife Fund	11/9/22	
Petition	Federal	Affordable storage solutions Call on the Federal Government to introduce a Renewable Energy Storage Target to unlock Australia's renewable potential, by supporting affordable battery storage.	https://www.solarcitizens.org.au/storage_petition	Solar Citizens	5/9/22	
Petition	Federal	Strengthen National Environment Laws We need national environment laws which actually protect our environment and the amazing native species which inhabit	https://www.acf.org.au/environment-laws-petition-google	ACF	5/9/22	

		Australia. The recommendations of the review of the EPBC Act need to be adopted and extended.				
Email Form	Victorian	Email Victorian Ministers for stronger post-gas commitments The Victorian Government has shown remarkable leadership in recognising the dangers of gas to the climate, the economy, the environment and human health. However there is much more to be done to decarbonise the environment. This email lists six areas to act on, ranging from a just transition for workers, education of the community, no new gas projects and more.	https://www.melbournefoe.org.au/email_post_gas_vic	Friends of the Earth	5/9/22	
Petition	National	Ask Tanya Plibersek to ensure our children's future is protected Sign an open letter asking the Environment Minister to accept the Samuel's review of the EPBC Act and ensure that our precious environment is protected for our children	https://www.ap4ca.org/dutyofcare	Australian Parents for Climate Action	3/9/22	
Petition	International	Tell the Banks not to fund Santos climate wrecking project Santos is seeking funding for new fossil fuel projects. Send an email to 28 banks asking them not to finance Santos's climate wrecking projects.	https://www.marketforces.org.au/campaigns/companies/santos/#take-action-banks	Market Forces	3/9/22	
Petition	Federal	Climate Jobs For All Demand for a Senate Inquiry into the Climate, Jobs and Housing Crises and deliver real solutions to the problems our communities are experiencing	https://tomorrowmovement.com/climate-jobs-for-all/	Tomorrow Movement	1/9/22	
Petition	National	A Demand for a just Transition for workers employed in Mining, Forestry etc A call for the Albanese government to establish an independent and properly resourced National Energy Transition Authority to manage an orderly and fair transition process for affected workers – including support for redeployment, skills and training, and secure job opportunities.	https://www.foe.org.au/demand_for_national_energy_transition_authority	Friends of the Earth	27/8/22	
Petition	International	End human right violations and help stop rainforest destruction in Indonesia Oreo cookies, Cadbury Cream eggs and Milka chocolate are making Mondelez rich while impoverishing entire communities in Indonesia as they are not only filled with bulldozed rainforests but also double-stuffed with broken promises!	https://actions.sumofus.org/a/mondelez-deliver-on-your-promises/	SumOfUs	22/8/22	

Petition	VIC	Immediately Cease Logging A request for the Government to immediately cease native forest logging and bring forward redeployment of forestry employees. Closing date 1/9/22	https://parliament.vic.gov.au/council/petitions/electronic-petitions/view-electronic-petitions/details/12/462	Citizens to Legislative Council	19/8/22	
Petition	National	Time to electrify transport Transport is a major contributor to our greenhouse gas emissions. Australia is the only wealthy nation without strong fuel efficiency regulations. We are being left behind. Now is the time for our government to legislate for necessary changes.	https://www.greenpeace.org.au/act/electrify-fes-petition	Greenpeace	17/8/22	
Email Form	National	Extinction is a choice Some of the things that make Australia truly special are being put at risk because our national nature laws don't work—and haven't worked for decades. Australia is facing a wildlife extinction crisis. These laws have continued to allow the destruction of threatened species habitats, failed to protect places with world heritage natural and cultural values and haven't given the community a meaningful say in environmental decisions that affect them and will affect their children and grandchildren. Email new Environment Minister Tanya Plibersek MP today to let her know nature law reforms are urgently needed.	https://wilderness.good.do/extinction2022/naturelaws/	The Wilderness Society	10/8/22	
Petition	National	Ask the Environment Minister to safeguard our children's future We all carry a duty of care for our youth. Especially those in power that have the ability to affect their futures so deeply and profoundly with the decisions they make today. Imagine the impact on all sides of politics, if all Australian parents, grandparents, carers and family members signed this open letter demanding urgent action to heal and protect our country and our children's future.	https://www.ap4ca.org/dutyofcare	Australian Parents for Climate Action	9/8/22	
Email Form	Westpac	Tell Westpac: net-zero by 2050 and the Paris Agreement means no further finance for Santos! Last week, Westpac announced it was joining the Net-Zero Banking Alliance and made some further climate change commitments that still fail to demonstrably align with the Paris Agreement's goals. As Westpac made the announcement, another part of the bank was reportedly in talks with Santos, a company planning to	https://www.marketforces.org.au/westpac-net-zero-banking-alliance-santos/	Market Forces	2/8/22	

		open up several new oil and gas projects such as the Barossa gas field off the Northern Territory coast and the Narrabri Coal Seam Gas project in Northern New South Wales.				
Email Form	National	Email Coalition Senators: Vote yes for Climate Change Bill Despite losing many seats to Independents with strong climate credentials at the May election the Coalition is still not responding to the people of Australia's demands on climate. The Climate Change Bill will be voted on in both the House of Representatives and the Senate, meaning all Coalition members now have a real opportunity to represent their communities' interests by supporting the bill – and urging their colleagues to do the same.	https://www.acf.org.au/send-climate-bill-letter-senators	ACF	2/8/22	
Email Form	NAB	Email NAB CEO - no more Santos lending Right now NAB is deciding whether to keep lending to Santos, one of the world's largest oil and gas companies, for a major gas project that threatens the Tiwi Islands and our climate. If enough of us email NAB CEO Ross McEwan telling him that he can't break his bank's promise without the community knowing about it and his credibility is on the line, we could see the bank pull out of the deal.	https://act.350.org/letter/email-nab-ceo-santos/	350	27/7/22	
Petition	National	FES up, we need affordable EVs! Transport emissions and petrol prices are rising rapidly in Australia, but we're still lagging behind the rest of the world on electric vehicles. The Federal Government must implement Fuel Efficiency Standards to bring more affordable electric vehicle models to Australia, or we risk becoming a dumping ground for costly and polluting petrol cars.	https://www.solarcitizens.org.au/ev_petition	Solar Citizens	25/7/22	
Email Form	National	Email Tanya Plibersek to reform our nature laws Some of the things that make Australia truly special are being put at risk because our national nature laws don't work—and haven't worked for decades. Australia is facing a wildlife extinction crisis. We need laws to be effective, fair and forward thinking. They need to actually halt and turn around the wildlife extinction crisis and the destruction of natural and cultural values.	https://wilderness.good.do/extinction2022/naturelaws/	The Wilderness Society	19/7/22	
Email Form	National	We must increase Australia's climate target!	https://www.foe.org.au/climateambitions	Friends of the Earth	18/7/22	

		The Albanese government has increased Australia's ambition on climate change, to a target of 43% by 2030. However, the deepest emissions cuts need to be made before 2030. At the UN-sponsored COP27 climate talks to be held in November 2022, countries will be asked to declare their updated plans to cut emissions by 2030. This is Australia's chance to show that it is acting on the climate crisis with the seriousness that the latest science and evidence of already devastating impacts demand.				
Petition	National	Urge governments to implement the disaster Royal Commission After the 2019-20 Black Summer bushfires, emergency service leaders, bushfire survivors, and experts delivered 80 recommendations to state and federal governments in the Royal Commission into National Natural Disaster Arrangements. It's a clear roadmap of how to prepare, respond and recover in the face of climate disasters. Most of the Royal Commission recommendations have not been implemented, so now it's time for a comprehensive response from state and federal governments that matches the scale of repeat climate disasters.	https://www.getup.org.au/campaigns/climate-justice/implement-the-disaster-royal-commission-recommendations/urge-governments-to-implement-the-disaster-royal-commission	Get Up	17/7/22	
Petition	National	Windfall tax now Many of us are dreading our next energy bill. Meanwhile, big gas corporations are absolutely raking it in and getting away with not paying their fair share. The mega profits gas corporations are experiencing coupled with a rising cost of living crisis is prompting calls from tax experts for the Albanese Government to introduce a windfall tax.	https://www.getup.org.au/campaigns/corporate-tax/make-them-pay/windfall-tax-now	Get Up	15/7/22	
Petition	Victoria	Call on Dan Andrews to withdraw new anti-protest laws The Victorian Government is trying to introduce draconian new laws to silence people protesting illegal logging in native forests. They could regulate the logging industry, regenerate our forests, and crack down on illegal logging. But instead, the Victorian government is trying to introduce extraordinary penalties and possible jail time to stop concerned citizens from protesting. If these laws get through, people attempting to prevent native forest logging in Victoria will face fines of up to \$21,000 or 12 months in jail. This is a politically motivated	https://envirojustice.org.au/blog/onlineaction/petition-vic-protest-laws/	EJA	13/7/22	

		crackdown on legitimate political expression. It is undemocratic and unnecessary.				
Petition	National CommBank	Commbank is fuelling climate chaos Australia's biggest bank has invested \$7 billion in fossil fuels. Right now, CommBank is reviewing their oil and gas lending policy. If we can pressure CommBank to rule out lending to companies that are fuelling climate chaos, we can stop some major Australian and international oil & gas projects.	https://www.bankonourfuture.com.au/australian-banks/commbank/	350	28/6/22	
Email Form	Victoria	Champion Community Power Hubs today While big energy companies continue to fuel the climate crisis, local communities are playing a critical role leading the transition to renewable energy. But with baseline funding for Community Power Hubs abandoned in Victoria's recent state budget, that leadership is at risk. Call on the Energy Minister Lily D'Ambrosio to champion Community Power Hubs to make sure the State Government commits to this essential program.	https://www.melbournefriends.org.au/communitypowerhubs	Friends of the Earth	27/6/22	
Email Form	National (Lockton)	Ask Lockton to commit to not work for Adani's disastrous coal project The #StopAdani campaign received a tip-off that on 29 May 2022, Lockton, a US-based insurance broker, was appointed to arrange insurance coverage for Adani's -wrecking Carmichael coal mine and rail line. Market Forces followed up with a letter to Lockton putting this information to the head of its Australian operations Paul Marsden and the London office and it has not been denied. Lockton has been given the opportunity to correct the record and deny any involvement but is currently choosing to stay silent.	https://www.marketforces.org.au/lockton-adani/	Market Forces	23/6/22	
Petition	NT	Darwin Festival: Cut ties with dirty Santos Santos has plans to frack for gas across many remote communities in the NT, putting land, water, sacred sites and our climate at risk. By allowing Santos to sponsor this festival, you're giving them the public support they need to push ahead with their dangerous drilling projects, in the face of the climate crisis. Kick Santos out of the Darwin Festival.	https://act.350.org/sign/darwin-festival-cut-ties-dirty-santos/	350	22/6/2022	

Email Form	National	Stop 'Coalkeeper' Propping Up Fossil Fuels Australia's Energy Security Board is proposing that we pay to keep ageing coal and gas plants running - it's the exact opposite to what we should be doing to tackle the rising energy crisis. Instead of propping up coal and gas clunkers, we need to roll out cheap renewable energy and storage. Federal and State Energy Ministers have the power to block this 'coalkeeper' subsidy.	https://www.solarcitizens.org.au/contact_energy_ministers_capacity_market	Solar Citizens	22/6/2022	
Petition	National	Heal Country Declaration For too long young Aboriginal and Torres Strait Islander voices have not been included in conversations about the climate crisis. Across the globe, young First Nations people are inheriting the consequences of your climate inaction. Sign to demand no more public money to fossil fuel corporations, investment in communities & the future and First Nations people leading the solutions to the climate crisis.	https://nt.seedmob.org.au/declaration	Seed	22/6/2022	
Email Form	National	It's time to tackle Australia's coal mine METHANE problem Did you know that Australia is the world's 6th largest coal mine methane emitter and is on track to become the 3rd worst? We need to make a big dent in the huge methane emissions that result just from the process of extracting coal from the ground.	https://www.lockthegate.org.au/coal_mine_methane	Lock the Gate	22/6/2022	
Email Form	National	Demand the new Government unite with Traditional Owners Fracking corporations are proving they have no shame as they're caught cutting fences and forcing their way onto cattle stations after pastoralists denied them access. For too long, these frackers have revelled in the support of a Morrison Government. But now, with a new Government sworn in, we have an opportunity to reverse the damage and win real protections for country.	https://www.getup.org.au/campaigns/gas-and-fracking/contact-alp/tell-the-new-alp-cabinet-to-unite-with-traditional-owners	Get Up	22/6/2022	
Email Form	National	Email the New Energy Minister It's clear that the election was a big win for stronger action on renewable energy and clean transport. But now is not the time to lose momentum, the Labor Government has been elected on the back of promises to deliver a cleaner future, and we need to keep up the pressure to make sure they hit the ground running. Write a message to new Energy and Climate Change Minister Chris Bowen to ask him to back in Labor's promises and get	https://www.solarcitizens.org.au/email_energy_minister_post_election2	Solar Citizens	2/6/2022	

		Australia on the road to becoming a renewable superpower and leader on clean transport.				
Petition	National	Stop the mindless expansion of fossil fuels From Ningaloo Reef to the Great Australian Bight, Channel Country and the Kimberley, Australia's oceans and unique landscapes are under threat from the expansion of fossil fuels. Destructive fossil fuel projects are still being forced on Australian communities—and we're stuck with the consequences forever. But year after year, Australian governments back the fossil fuel industry over community, by releasing swathes of ocean floor for oil and gas exploration, and providing public funding for new coal or gas—in some of Australia's most biodiverse places, like the Kimberley or Channel Country. Together, we can shine a spotlight on new acreage and ongoing funding for new fossil fuel exploration.	https://wilderness.good.do/expansionff/ff2022/	The Wilderness Society	1/06/2022	
Email Form	International	Tell Adaro's current lenders that they must rule out further financing of Adaro. Adaro Energy Indonesia (Adaro) held its AGM in April 2022, confirming business plans consistent with the failure of the Paris Agreement. Despite evidence to the contrary from the IEA and other experts, the company stated its view that in the long term, the fundamentals for coal are intact and coal is needed to sustain the economy. Adaro's subsidiary, Saptaindra Sejati, is seeking to refinance a US\$350 million loan – a loan which banks that purport to be sustainable, such as SMBC Group, Mizuho, HSBC, CIMB, DBS, OCBC, UOB, Bank of China and Bank Mandiri should not be participating in. Several of Adaro's investors, similarly, have commitments to have net zero carbon emissions by 2050, but continue to invest in a company with 1.1 billion tonnes of coal reserves. The potential emissions of Adaro's coal reserves is 2.18 GtCO₂-e, almost the equivalent of the annual emissions of India.	https://www.marketforces.org.au/adaro-saptaindra-sejati-refinancing-2022	Market Forces	1//06/2022	
Email form	Victoria	SIGN ON: Endorse FoE's 2035 Climate Target Submission The Victorian government has initiated the process to set the country's first Emissions Reduction Target for 2035. It's an opportunity we can't afford to miss. Big polluters will be lobbying the government for weak targets to maintain business as usual... Will you sign on to Friends of	https://www.melbournefoe.org.au/climate_targets_submission	Friends of the Earth	1/6/2022	

		the Earth's submission to show the government that the community wants action? Friends of the Earth Melbourne has made a detailed submission to the panel advising the state government. We are proud to call for a science-based target of net-zero emissions by 2035.				
Email Form	International	Keep fossil fuels out of Chattogram (and the rest of Bangladesh) Let's keep fossil fuels out of Bangladesh for the health and wellbeing of the local communities, the beautiful regional beaches and forests, the Bangladeshi economy, and our shared climate. Email GE, Mitsubishi, JERA, JICA and other companies urging them to stop building fossil fuel infrastructure, to protect the livelihoods and health of local communities and our climate, and preserve this region, its beautiful beaches and wildlife.	https://fossilfreechattogram.com/take-action/	Fossil Free Chattogram (Market Forces)	19/05/2022	
Petition	International	Hey Europe, stop financing Australia's deforestation Australia's in the grip of a deforestation crisis, with massive areas of threatened species habitat being cleared or logged every year, pushing more and more plants and animals towards extinction. However, on other continents like Europe, people are generally unaware of the ravaging impacts of deforestation in Australia. This matters because European banks and investors are actively contributing to this deforestation disaster by funding destructive industries in Australia. Right now, the European Union is debating new laws to reduce European businesses and governments' impact on the Earth's forests. But the laws may not end up being strong enough	https://wilderness.good.do/europefinance/euletter/	The Wilderness Society	19/05/2022	
Email Form	NT	Tell Bowen: say no to fracking! With an election around the corner, the Senate Inquiry into the Morrison Government's disastrous \$50 million to frack the Beetaloo Basin has released a progress report. The report confirms that Aboriginal communities demand public money be spent on things like housing and healthcare, not fracking, and that Traditional Owners never gave consent to frack their land. Labor supported Traditional Owners when they demanded the Inquiry, but they're yet to commit to anything publicly. Which means they could still give public money to fracking if elected.	https://www.getup.org.au/campaigns/gas-and-fracking/email-bowen-say-no-to-fracking/tell-bowen-say-no-to-fracking	Get Up	11/5/2022	

		We have a unique opportunity to push Labor to publicly stand with Traditional Owners, and say 'no' to fracking the Beetaloo.				
Calendar invite	Federal	Help GLAS make time to Stop Adani There are now 112 major companies that have ruled out providing any support to the climate-wrecking Adani Carmichael coal project. However, debt administration services provider GLAS is not one of them. With Adani's Australian coal port, NQXT, currently looking to raise hundreds of millions of dollars in debt to repay bonds due later this year, GLAS could play a critical role in helping Adani fund its disastrous coal operations. After actions at GLAS' London and Australian offices, thousands of emails, and hundreds of phone calls from concerned community members, GLAS is still refusing to join its competitors in ruling out financial services for Adani's Carmichael project.	https://www.marketforces.org.au/help-glas-make-time-to-stop-adani/	Market Forces	11/5/2022	
Email form	International	Urge Target Executives to commit to zero-emissions ocean shipping! Target is the third most-pollutive retail ocean shipping importer to the U.S and a top contributor to the West Coast ship pollution and congestion crisis. Meanwhile, the company's digital sales doubled during the pandemic, with no regard to the health of its customers and portside neighbours. The technology to slash ocean shipping emissions already exists, and Big Retailers — like Target — can clean up their dirty shipping today. But, Target needs to feel the public pressure to take action.	https://actionnetwork.org/letters/email-target-execs	Ship It Zero	11/5/2022	
Email form	Federal	No gas bailouts Contact your MP today to tell them to stop our public money being used to bail out polluting oil and gas companies. The fossil fuel lobby is running a concerted campaign to exploit this global health crisis to further their agenda.	https://fossilfuelwatch.org.au/nogasbailouts/Beetaloo-email-MP/	Fossil Fuel Watch	11/5/2022	
Email Form	Federal	ACT NOW: Call on Federal govt MPs for a science-based climate target When it comes to the climate crisis, we're in a race to zero emissions. Yet the Morrison government's weak 2030 climate target puts us at the back of the pack in a race we can't afford to lose.	https://www.melbournfoe.org.au/email_your_mp	Friends of the Earth	12/4/2022	

		In November 2021, the Morrison government signed, then seemingly walked away from, the Glasgow Climate Pact—an agreement that requires countries who haven't strengthened their 2030 targets to do so at the COP27 in Egypt later this year. The United States, United Kingdom, and dozens of other countries have strengthened their 2030 climate targets. Here in Australia, the Labor opposition and The Greens have committed to deliver deeper emissions cuts this decade. It's time for the Coalition to pick up the pace on climate to secure new jobs and industries and protect communities from intensifying bushfires, floods, and rising sea levels. ACT NOW: Call on your Federal government MPs to commit to a science-based climate target.				
Petition	International	Call on banks to divest from fossil fuel projects – from pipelines in the Amazon to the Coastal GasLink pipeline in Canada. Call on banks to divest from fossil fuel projects – from crude oil extraction in the Amazon to the Coastal GasLink pipeline in Canada. Behind the dirty curtains of the fossil fuel industry are the financial institutions funnelling trillions of dollars each year into funding the conception and expansion of harmful and environmentally damaging oil and gas projects. From financing state-owned oil companies driving the Amazon rainforest to its tipping point, to financing the highly contested pipeline projects like Trans Mountain and Coastal Gaslink, banks are the foundation of support for the fossil fuel industry. Add your name today to urge banks to hit the brakes on fossil fuel investment and financing so that we can transition to a more sustainable economy.	https://act.stand.earth/p/age/39475/petition/1	Stand.Earth	12/4/2022	
Email form	Federal	Will GLAS shatter its reputation on Adani's coal port? In November 2021, after a short and sharp public backlash, the Bank of New York Mellon (BNYM) became the 104th company to cut ties with Adani's disastrous Carmichael coal project. For many years, BNYM was playing a specialised role as the security trustee for the debt linked to Adani's coal port – North Queensland Export Terminal (NQXT, rebranded from Adani Abbot Point Terminal in 2020).	https://www.marketforces.org.au/will-glas-shatter-its-reputation-on-adanis-coal-port/	Market Forces	12/4/2022	

		With BNYM on its way out, Market Forces reached out to the companies that could replace it. Several replied, with Perpetual, Metrics, AMAL and SILC Group ruling themselves out entirely, and others, including Equity Trustees and MSC Group, going on the record to say they have no current involvement (but refusing to rule out future participation). GLAS did not respond. With these major competitors staying away, GLAS has become the number one suspect as BNYM's replacement. Fill out the form to let GLAS know that any association with Adani's climate-wrecking coal project will shatter its reputation.				
Email form	Local	Tell your local candidates you want climate leadership World experts say we already have the tools to solve the climate crisis quickly and cheaply — if leaders choose to. Right now, local candidates who want to represent you are making choices about which policies to announce during the election. We have a short, powerful window to push for stronger policies from our future leaders, and writing a quick email now could be the most effective action you take this election. Demand from local voters is the most powerful way to influence local candidates, and having candidates on side with our policies will influence party leaders. Contact your local candidates now and ask them to announce strong climate solutions — not coal and gas subsidies	https://www.getup.org.au/campaigns/climate-justice/contact-candidates/tell-your-local-candidates-you-want-climate-leadership	GetUp!	12/4/2022	
Petition	Federal	Solidarity with Ukraine, and shame on the institutions investing our money in the invasion Russia's economy is driven by fossil fuels. Lists of its largest companies are littered with oil and gas players such as Gazprom, Tatneft, Lukoil, Novatek, Rosneft and Surgutneftegas. The Russian government has significant stakes in many of these companies, most notably Gazprom, which it owns half of. These are companies that, even prior to the invasion of Ukraine, should never have enjoyed investment from those who manage our money. Their business plans are aligned with the failure of the Paris Agreement and are fuelling a climate crisis that will lead to more resource scarcity, displacement and conflict in future.	https://www.marketforces.org.au/super-funds-russian-oil-and-gas/	Market Forces	11/3/2022	

		But the fact that our superannuation funds have invested millions of Australians' retirement savings in companies that have enabled the invasion of Ukraine is the ultimate stomach-turner. Tell your super fund to dump the Russian oil and gas companies fuelling climate change and bloodshed in Ukraine.				
Petition	Federal	CALL FOR THE AUSTRALIAN GOVERNMENT TO CUT EMISSIONS THIS DECADE Climate change is accelerating faster than previously thought. Impacts are hitting harder, and will be felt more widely (1). But the faster we can cut emissions, the more climate damage we can avoid. Our emissions reduction target for 2030 is far weaker than our strategic allies (2), and we risk missing out on the jobs and economic benefits that climate action will bring. Together, we have a chance to change this. Can you read and sign the petition below to join thousands of Australians pushing for a stronger 2030 target, and share it with your networks to grow this campaign?	https://www.climatecouncil.org.au/actions/petition-cut-emissions-75/	Climate Council	11/3/2022	
Petition	Federal	Demand a national climate compensation fund! The Morrison Government is ignoring survivors of climate disasters, forcing them to foot the bill for damage caused by reckless fossil fuel corporations. We know coal, oil and gas mining corporations are the biggest contributors to climate change – because they cause the damage they should pay to clean up the mess. Together, we can demand our government replace the burning of coal, oil and gas with the power of renewable energy, and implement a national climate compensation fund that makes the corporations responsible help our communities get back on our feet.	https://www.getup.org.au/campaigns/climate-justice/it-s-time-polluters-footed-the-bill/demand-a-national-climate-compensation-fund	GetUp!	11/3/2022	
Petition	International	Defund Coastal GasLink On February 9, over 100 non-governmental organisations (NGOs) representing millions of members released a letter to the 27 banks financing the Coastal GasLink pipeline – a 670 kilometre fracked gas pipeline proposed through Wet'suwet'en territory in British Columbia, Canada – calling on the banks to divest and withdraw all financial support for this project on human rights, environmental, and climate grounds.	https://act.stand.earth/page/37861/petition/1	Stand.Earth	23/2/2022	

		In November, militarised Canadian police, armed with tactical weapons and dogs, violently arrested Wet'suwet'en land defenders, journalists, and legal observers. By continuing to finance the Coastal Gaslink pipeline, all 27 banks are responsible for the colonial violence perpetrated on Indigenous people at the hands of Canadian federal police. The financiers of this project can stop these human rights violations immediately by pulling their funding. Join us in demanding that they do the right thing and divest from the Coastal Gaslink pipeline.				
Email form	Federal	The government failed this RAT test Three years ago, Australia set a new world record: we officially recorded the first species to go extinct because of climate change. Despite repeated warnings from scientists that the Bramble Cay melomys was in grave danger of extinction, the government did not act—and now this little brown rat is gone forever. Many of Australia's unique and globally important species are under increasing pressure. Right now the government needs to hear from you. Write to Environment Minister Sussan Ley today telling her she must act to save Australia's species.	https://wilderness.good.do/BrambleCay2022/remindley/	Wilderness Society	23/2/2022	
Petition	International	Stop funding carbon capture with public dollars Case-in-point: Shell's massive carbon capture plant – designed to showcase this new tech – is emitting significantly more carbon than it's capturing. 1.2 million cars' worth more, to be exact . Carbon capture is not a climate solution – and our taxpayer dollars should not be funding it. Sign our petition to government leaders urging them to stop subsidising this terrible idea.	https://act.stand.earth/page/37861/petition/1	Stand.Earth	23/2/2022	
Petition	SA/Federal	Tell the Tour Down Under to ditch Santos Santos CEO Kevin Gallagher has responded to our campaign to pressure the Tour Down Under to ditch Santos' sponsorship by telling the media that people advocating for a faster transition to renewable energy are “dreaming”. Gallagher defended Santos' efforts to open up new gas fields by saying there is “no alternative” to fossil fuels.	https://act.350.org/sign/tell-tour-down-under-to-ditch-santos/	Act.350	11/2/2022	

		Let's hit back by showing Hitaf Rasheed, executive director of Events SA, that the community thinks the alternative to fossil fuels is renewable energy, and we demand an alternative sponsor for the Tour Down Under.				
Petition	International	Stop burning trees for electricity Forests are being burned for electricity, and the emissions are dirtier than coal. We are seeing more and more whole trees from primary forests being chopped down to produce wood pellets that are then exported around the world. It can take decades to centuries for forests to regain the majority of their carbon storage after being logged, whereas burning wood quickly dumps mass amounts of carbon dioxide into the atmosphere. Amidst an ever growing climate crisis, we simply can't afford to keep chopping down primary forests to make a fuel that's dirtier than coal Sign the petition calling on decision-makers to stop logging whole trees for wood pellets.	https://act.stand.earth/page/27270/petition/1	Stand.earth	11/2/2022	
Email Form	Federal	GLAS suspected as security trustee for Adani's Carmichael mine The Adani Carmichael project is arguably the most environmentally and socially contentious project in Australia's history. It does not have the Free, Prior, and Informed Consent of the Traditional Owners, who continue to oppose it. It would drain the region of tens of billions of litres of water per year, putting agriculture in the region at risk. In November 2021 the Bank of New York Mellon (BNYM) cut ties with the Carmichael coal project. Market forces expect GLAS to step in as Adani's security trustee, contributing greatly to Adani's ability to refinance debt. Ask GLAS to commit to no further work for Adani's Carmichael coal mine, rail line or NQXT port.	https://www.marketforces.org.au/will-glas-shatter-its-reputation-on-adanis-coal-port/	Market Forces	11/2/2022	
Email Form	Federal	No gas bailouts The gas lobby is at it again.They splashed into this week calling for \$100 million more in public money for their dirty gas projects. Throughout the pandemic, the Morrison Government	https://fossilfuelwatch.ood.do/nogasbailouts/email-your-MP-no-money-for-gas/	350.org	11/2/2022	

		has done exactly what the gas lobby wants. It's time for that to change. Next week Parliament sits for the first time this year. Let's make sure that MPs are heading to Canberra thinking about what their voters want, not what the fossil fuel industry is demanding. Write to your MP now and ask them for no more public money for gas.				
Petition	Federal	Stop the pollution of clean energy! Under the cover of coronavirus, Angus Taylor and Scott Morrison want to funnel clean energy funding into climate-wrecking fossil fuels. They're sabotaging our world-leading renewable energy innovation to prop up dirty power – and we know who's pulling the strings. Morrison and Taylor want the public bodies responsible for Australia's clean energy future to fund toxic gas and nuclear power. All off the back of a review led by a former Origin Energy CEO. They think they can quietly rush these changes through. But we aren't going to let that happen. Sign the petition and tell the Morrison Government we won't stand for this climate sabotage!	https://www.getup.org.au/campaigns/covid-recovery/protect-renewable-investments/stop-the-pollution-of-clean-energy	GetUp!	1/2/2022	
Petition	Federal	Cut Emissions this Decade Climate change is accelerating faster than previously thought. This is the decisive decade: we need urgent climate action now. But the Australian Government is standing still. Our emissions reduction target for 2030 is far weaker than our strategic allies, and we risk missing out on the jobs and economic benefits that climate action will bring. Together, we have a chance to change this. If you agree that the Federal Government needs to do more now to cut emissions and combat climate change – sign and share this petition today.	https://www.climatecouncil.org.au/actions/petition-cut-emissions-75	Climate Council	1/2/2022	
Petition	National	Supermarkets and fast food chains need to stand against forest and bushland destruction Australia is in the midst of a deforestation and land clearing crisis, with an MCG-sized area of forest and bushland cleared every 86 seconds—and most of this happens in Queensland. This kills tens of millions of native animals each year, causes	https://wilderness.good.do/deforestationfree/supermarketsandfastfood/	The Wilderness Society	18/01/2022	

		significant carbon pollution, and pollutes the waters of the Great Barrier Reef. Based on previous analyses, almost three quarters of the destruction in Queensland was likely to make way for beef production. The biggest Australian buyers of beef are the supermarkets and fast food giants. Tell Australia's biggest beef buyers—supermarkets and major fast food chains—that you expect the products they sell to be free of deforestation.				
Petition	QLD	Don't frack Queensland's outback rivers Origin Energy have been given approval to frack for oil and gas across 11 leases covering over 225,000 hectares of land. New expert research shows these gasfields would be the most polluting gasfields in Australia, and would blow our greenhouse gas reduction targets out of the water. Stop Origin Energy destroying the last free-flowing desert rivers in the world. Tell the Premier not to frack with our rivers and floodplains.	https://www.lockthegate.org.au/dont_frack_qld_rivers	Lock the Gate	18/01/2022	
Petition	International	AIG must stop insuring and divest from fossil fuels AIG is a major backer of fossil fuels. The US-based insurance company is the largest coal insurer outside of China, and is among the world's top three insurers of oil and gas projects. AIG is also a known insurer of the Trans Mountain tar sands pipeline, a project being pushed ahead in Canada in violation of Indigenous rights. Right now, AIG is considering adopting new climate goals—so we need to send a powerful message to AIG CEO Peter Zaffino that he must adopt a strong policy to end insurance and investments in fossil fuels. Sign the petition to pressure AIG to stop insuring and investing in fossil fuels	https://act.stand.earth/page/36129/petition/1	Stand.earth	9/12/2021	
Email Form	VIC	Help recovery of bushfire affected forests—review logging The recent Inquiry into ecosystem decline in Victoria recognised the plight of native plants, animals and habitats, including after the 2019-20 bushfires, and the need for urgent conservation action including developing action plans (plans for recovery) for all threatened species with properly resourced implementation. The Victorian government has six months to respond to the recommendations.	https://wilderness.good.do/Vic_AgMinister/Vic_loggingreview/	Wilderness Society	9/12/2021	

		Email Mary-Anne Thomas, the Victorian Minister for Agriculture, asking her to implement an immediate review to reduce logging in Victoria's public forests				
Petition	International	NAB: Divest from Coastal GasLink NOW We call on NAB to cease and withdraw investment in the Coastal GasLink pipeline immediately. Coastal GasLink is trashing Indigenous rights, out of line with the Paris Climate Agreement and environmentally reckless. Cas Yikh are the title holders with the authority and jurisdiction to make decisions about their unceded lands, and they say NO to this dirty pipeline.	https://act.350.org/sign/nab-divest-coastal-gaslink-now/	Act.350	912/2021	
Email Form	Federal	Chrissy cards for Chris Bowen With the 2022 federal election just months away, young people are demanding both major parties step up their ambition - we're calling on Labor and the Coalition to rule out public money for dangerous coal and gas projects, 100% renewable energy by 2030, and net zero emissions by 2035. Chris Bowen just announced Labor's new climate policy committing to 43% emissions reduction by 2030. But Labor still hasn't ruled out public funding for climate-wrecking gas corporations, and we need both major parties to do better.	https://aycc.good.do/chrissycardsforchris/chrissycardsforchris/	AYCC	9/12/2021	
Email Form	Federal	Adani Ports kicked off MSCI indices due to Carmichael coal link Finance research and ratings company MSCI wrote to its clients on Tuesday informing them that Adani Ports and Special Economic Zone (Adani Ports, also referred to as APSEZ) is about to be kicked off four MSCI climate indices, after its links to the Carmichael thermal coal project in Australia escalated its assigned controversy score to "severe". MSCI is used by investors all over the world. It creates a whole range of ESG (environment, social, governance) focused indices which allow investors to put their money into sets of companies that meet certain criteria. Adani Ports already has the lowest possible ESG rating of "CCC", and its controversy score is now "severe", the second-worst possible. However, Sustainalytics, another major ESG ratings company, needs to urgently review its questionable "low risk" ESG rating for Adani Ports, taking the Carmichael project into account.	https://www.marketforces.org.au/adani-ports-kicked-off-msci-indices-due-to-carmichael-coal-link/	Market Forces	9/12/2021	

Email Form	Federal	Email Anthony Albanese: Halve pollution this decade Opposition Leader Anthony Albanese and the Labor Party are on the verge of announcing the climate policy they will take to next year's federal election. Right now, this is Labor's chance – and more importantly a chance for us – to lift Australia up from the back of the global pack and towards responsible climate action that sets a hopeful course for our future. That means halving pollution by at least half this decade. What Labor does will not only influence votes, but can raise the bar for the Morrison Government and their so far irresponsible approach to addressing the climate crisis.	https://www.acf.org.au/email-opposition-leader-halve-pollution	ACF	9/12/2021	
Email Form	Federal	ANZ fails to rule out funding fossil fuel expansion amidst climate crisis ANZ, a bank purportedly committed to net-zero emissions by 2050, released an updated climate policy that does nothing to prevent it from funding new climate-wrecking oil and gas projects and the companies pursuing them. The policy update comes just months after the International Energy Agency (IEA) concluded that achieving net-zero by 2050 leaves no room for expansion of the fossil fuel industry. TAKE ACTION and contact ANZ using our form – tell the bank: until it stops funding new oil and gas, you won't do further business with ANZ.	https://www.marketforces.org.au/anz-climate-policy-2021/	Market Forces	9/12/2021	
Email Form	Federal	Stop funding gas fracking Just weeks after the COP26 climate summit the Morrison Government has announced they are ramping up funding for new climate-wrecking gas fields. The plan announced by Angus Taylor will fast track approvals for fracking and hand millions to gas corporations to keep gas fired power stations burning into 2040! The Morrison Government has proven yet again they would rather support their greedy mates and donors in the gas industry than protect our future from the climate crisis. With the Federal election just around the corner this is a critical time to turn up the heat. If thousands of us take action we can flood their inboxes and make sure the Morrison government feels the heat at home.	https://aycc.good.do/no-morecashforgas/nomorecashforgas/	AYCC	9/12/2021	
Email Form	Federal	Super fund 'engagement' fails to stop Woodside and BHP pressing go on Scarborough carbon bomb	https://www.marketforces.org.au/ScarboroughFlDresponse/	Market Forces	28/11/2021	

		Late yesterday, oil and gas giant Woodside announced it had made a final investment decision to go ahead with its climate-wrecking Scarborough gas project, which includes a huge new offshore gas field (Scarborough) and a new onshore gas processing plant (Pluto 2). Almost every super fund in the country invests in Woodside and BHP. Take action demanding these funds reveal how they engaged with Woodside and BHP to try to stop the climate-wrecking Scarborough gas project. We need our super funds to prove they fought tooth and nail against this project, and that they have a plan to forcefully push back on this disastrous decision. Take action today.				
Petition	TAS	Don't Wind Back World Heritage Protections Six years ago, the Tasmanian government promised the World Heritage Committee that it would honour 20 Recommendations proposed by UNESCO for a stronger Tasmanian Wilderness World Heritage Area. This included creating or expanding national parks within the northern mountainous region of Tasmania's World Heritage Area. The government also promised to respect the wilderness zone of the World Heritage Area management plan and protect the area from logging and mining. But today, the government is reneging on these promises and wants to wind back the protections, leaving the door open to logging and mining. By adding your name, you'll join thousands more people to highlight to UNESCO the government's plan to unwind protections in Tasmania's World Heritage Area.	https://wilderness.good.do/UNLetter_Tas/TWWHA/	Wilderness Society	28/11/2021	
Petition	Federal/International	NAB: Divest from Coastal GasLink NOW We call on NAB to cease and withdraw investment in the Coastal GasLink pipeline immediately. Coastal GasLink is trashing Indigenous rights, out of line with the Paris Climate Agreement and environmentally reckless. Cas Yikh are the title holders with the authority and jurisdiction to make decisions about their unceded lands, and they say NO to this dirty pipeline. NAB loaned CA\$117.5 million to Coastal Gaslink in 2020. Although NAB are committed to net zero emissions by 2050 and have a policy that purportedly ensures project financing follows the UN right to Free, Prior and Informed Consent, they have failed to cut ties with the project.	https://act.350.org/sign/nab-divest-coastal-gaslink-now/	Act.350	28/11/2021	
Email Form	QLD	Tell New Hope's financial backers to stop funding companies expanding the climate-wrecking coal industry!	https://www.marketforces.org.au/new-hope-corp	Market Forces	28/11/2021	

		Coal miner New Hope Corporation's 2021 AGM descended into farce with technology issues compounding upon the company's evasive approach to shareholder accountability. Despite this, New Hope's board still found time to double-down on its commitment to climate-wrecking coal, admitting New Hope intends to continue deriving around 95% of its revenue from coal by 2030. The conduct of this AGM, and the company's environmentally reckless pursuit of new coal projects should cause investors to reconsider their financial support for New Hope.	oration-doubles-down-on-coal-during-farcical-2021-agm/			
Petition	Federal	Fund our communities, not frackers! Rikki Dank, Gudanji Traditional Owner, just got home from Glasgow, where she attended COP26. She told the world how the Morrison Government is steamrolling consent and using public money to bankroll corporations like Empire Energy who want to riddle her country with methane gasfields. Now, Rikki's asking you to join her. In the final sitting week of the year, we'll deliver her petition to Parliament. But we need to make it so huge it can't be ignored.	https://www.getup.org.au/campaigns/gas-and-fracking/no-public-money-for-gas/fund-our-communities-not-frackers	GetUp!	18/11/2021	
Email form	Federal	Tell NAB to rule out Beetaloo, Narrabri and Scarborough NAB has finally released their updated oil and gas lending policy, and after 6 months of pressure from activists, they've made some commitments to phase out oil and gas exposure and have ruled out investments in overseas gas projects and most greenfield gas projects in Australia. The test for NAB now is whether they will follow words with action. This policy is not worth the paper it's written on if they continue to invest in the expansion of the fossil fuel industry - both here and overseas.	https://act.350.org/letter/nab-oil-gas-policy-announcement/	350	18/11/2021	
Petition	International	No time for False Solutions, Keep Forests Standing The clock is ticking as our race to get the world off fossil fuels reaches a frantic sprint towards 2025. Scientists, activists, organizers and academics agree: burning forests for electricity is no solution to the climate crisis. To survive, we must move beyond burning. We know that wood-burning biomass is dirtier than coal at the smokestack. The lie: we have been told that forest biomass is made with dead wood, tree tops and branches. The truth: whole trees and forests are being logged to burn in the name of 'clean energy.' This misrepresentation of clear climate science reaches new levels of urgency as Canada	https://act.stand.earth/page/35202/petition/1	Stand.earth	18/11/2021	

		commits to global climate targets while destroying forests and selling them to be burned abroad.				
Email form	Federal	The government's decided they can't be bothered Recovery plans matter. They are the contracts between the government and the community to protect and recover the unique Australian species that are threatened with extinction. Australia is in the grip of a continental extinction crisis—with more than 1,900 species on the national threatened species list. Right now the Morrison government wants to hear from you—kind of!—about their plans to renege on their duty to make recovery plans for 676 of this continent's unique threatened species. They're consulting with the community but you're definitely not alone if you haven't heard about it—they're not trying too hard.	https://wilderness.good.do/RecoveryPlanTranche1/october2021/	Wilderness Society	4/11/2021	
Forum	Federal	Commbank wants to hear from its customers. Tell the bank: net-zero by 2050 means no new fossil fuels! Just weeks after Commbank was rebuked over its fossil fuel funding at its annual shareholder meeting, its CEO Matt Comyn has invited customers to “ask questions and share your ideas on ways we can support you, businesses and the community”. Customers can submit their questions online, which will be considered ahead of the bank’s ‘CEO Customer Forum’ to be held virtually on Tuesday 9 November 2021 from 6pm – 7pm AEDT. If you’re a Commbank customer, consider registering for Commbank’s CEO Customer Forum and asking it to stop funding expansion of the community- and climate-wrecking fossil fuel industry. See below for further details.	https://www.marketforces.org.au/commbank-ceo-customer-forum-2021/	Market Forces	4/11/2021	
Petition	International	DECLARATION on Climate Change We, the Youth from the Pacific and Pacific Youth in the diaspora, representing frontline communities, grassroots organizations, youth networks, and Indigenous peoples, with unified support from around the world, call on our global leaders to respond to the challenge of this time with an intersectional lens prioritizing justice that promotes an inclusive and just world for ourselves, and the future generations to come. We reiterate that climate-forced displacement is not an adaptation measure, and urge that	https://www.youth4pacific.org/declaration	Youth4Pacific	4/11/2021	

		gender justice, and human rights be integrated with all-climate responses and that putting the Pacific before profit is of paramount importance.				
Email form	NSW	A win for Wollemi! On 3 November, the NSW Deputy Premier announced he will kill off plans for a new coalfield on the doorstep of the Wollemi National Park. That was until Wilderness Society supporters like you voiced your opposition loud and clear with 26,000 signatures against the proposed coal release areas. Please send an email to thank the Deputy Premier and let him know you expect him and the NSW government to follow through on this promise for no new coal on the doorstep of Wollemi National Park.	https://wilderness.good.do/WollemiWin/emailToo	Wilderness Society	4/11/2021	
Petition	International	Our Urgent Demand Humanity is failing to stop the climate crisis. It's now beyond urgent -- the planet is screaming for help. Right now world leaders are meeting for historic climate talks -- but pledges without real action won't cut it anymore. We need bold, visionary leaders to finally do what's needed to pull us back from the abyss.	https://secure.avaaz.org/campaign/en/climate_action_now_loc/?cLFDRrb	Avaaz	4/11/2021	
Petition	International	Urge UBS and JP Morgan Chase to adopt an Amazon exclusion policy for oil & gas The Amazon is home to hundreds of Indigenous communities, and critical to global climate regulation. The continued financing and investment in oil and gas activity in the region by major European and American banks is contributing to the destruction of the rainforest and our climate. JP Morgan Chase and UBS – two big financiers of Amazon oil are being called by a global network of allies, and Indigenous leaders to adopt an Amazon oil exclusion policy. It's time to cut the money pipeline fueling Amazon destruction. Urge banks to stop financing oil expansion in the Amazon by adopting an exclusion policy for the whole region.	https://act.stand.earth/page/34989/petition/1	Stand.earth	4/11/2021	
Petition	Federal	Net Zero Emissions for all new building developments now The federal government has no concrete plans of how to get to net zero and so, as our elected representatives, we call upon you to use your influence at both the federal and state levels. Australia's track record of reducing global warming is lamentable. Governments now have a genuine opportunity to	https://me.getup.org.au/petitions/net-zero-emissions-for-the-national-construction-code	GetUp!	4/11/2021	

		demonstrate, to the people and to the world, that they are serious. Mandating net zero homes could be an easy win-win that will provide jobs, emission reduction as well as healthy, comfortable homes. Let's stop the endless debating - the time for action is now.				
Email form	Federal	Cut climate pollution by more than half this decade! The Morrison Government committed Australia to a target of net zero carbon emissions by 2050. It's a welcome shift, but not enough. The science is clear. We need to cut climate pollution by more than half this decade – for our children, for our communities, for our future. And we need ambitious targets and policies to get us there. It's time to act. Right now, climate is the headline issue in Australia.	https://www.acf.org.au/email-mp-2050	ACF	26/10/2021	
Share post on social media	International	Deutsche Bank's involvement with Whitehaven Coal exposed in German media Executives at Deutsche Bank awoke to a half-page advertisement on page 7 of Handelsblatt, a major newspaper popular in Germany's financial world. The ad, coordinated by Market Forces, exposes Deutsche Bank for reportedly preparing to arrange finance for climate-wrecking coal company Whitehaven Coal. Deutsche Bank's own Environmental and Social Policy Framework says the bank "will not provide any financing for greenfield thermal coal mining" and is committed to "phase out coal exposure by 2025 worldwide" [1]. Yet Whitehaven is planning to spend around \$2 billion on three new and expanded thermal coal mines (Narrabri South, Winchester South, Vickery).	https://www.marketforces.org.au/deutsche-banks-involvement-with-whitehaven-coal-exposed-in-german-media/#-social-media-action	Market Forces	26/10/2021	
Email form	Federal/International	Bank of New York Mellon involved in potential Adani coal deal It has been revealed that an Australian subsidiary of Bank of New York Mellon (BNYM) could be playing a role in a new funding deal linked to Adani's Carmichael coal project. BNYM's reputation is on the line—tell it to immediately rule out playing any new or expanded role relating to Adani's climate-wrecking Carmichael mine, rail line and port, and to publicly cut all ties with Carmichael and Abbot Point/NQXT once current contractual obligations are met.	https://www.marketforces.org.au/bank-of-new-york-mellon-involved-in-potential-adani-coal-deal/	Market Forces	26/10/2021	
Email form	Federal	Help Shift the Politics on Climate and Clean Energy International pressure is mounting for the Morrison government to adopt stronger emission reduction targets	https://www.solarcitizens.org.au/email_your_federal_mp	Solar Citizens	26/10/2021	

		before the upcoming COP26 climate conference, but a handful of National party members are derailing Australia's climate ambition and calling for big handouts for polluting coal and gas. This issue is making front page news and is top of mind for every federal MP and Senator. With just a few Nationals calling the shots, it shows the power that every single one of our elected representatives has to stand up for what's right.				
Petition	International	Tell world leaders at COP26: Pass a Fossil Fuel Non-Proliferation Treaty The record breaking heat waves, extreme weather events, and catastrophic wildfires we've seen over the past few years are nothing compared to what's coming if the global community doesn't come together to keep fossil fuels in the ground and initiate a just transition to clean energy. To stave off the worst of the climate crisis, we need a Fossil Fuel Non-Proliferation Treaty based on the principles of no new exploration, a managed wind down of existing production, and a just transition must be a major topic of conversation.	https://act.stand.earth/page/34663/petition/1	Stand.earth	26/10/2021	
Email form	Federal	Call for climate action this decade Barnaby Joyce is spinning a story that city and country people are divided. But polling shows that no matter our postcode, people everywhere want urgent climate action. Look up your local poll results with your postcode. See how many neighbours are with you - and then email your MP!	https://www.getup.org.au/campaigns/climate-justice/email-your-mp/call-for-climate-action-this-decade	GetUp!	26/10/2021	
Email form	Federal	Step Up, Don't #COPOut on climate The Climate Council's latest report, From Paris to Glasgow: A World on the Move, finds that Australia remains the worst performing of all developed countries when it comes to cutting greenhouse gas emissions and moving away from fossil fuels. But it's not too late for Australia to step up. Every country, including Australia, must bring the most ambitious climate commitments and actions they can muster to the international climate conference, COP26.	https://climatecouncil.gov.au/campaigns/dont-cop-out/	Climate Council	26/10/2021	
Petition	Federal	Sign the petition for ambitious global goals for nature Nature underpins our lives, our health, and our economy. The air we breathe, the water we drink, the food we eat. The places we escape to. But sadly, nature is in crisis. More than a million animal and plant species globally - from tigers to Tasmanian devils - are being driven to extinction. Ancient forests like the	https://www.acf.org.au/global-goals-nature-petition	ACF	26/10/2021	

		Amazon and Daintree are collapsing. And the Great Barrier Reef is in danger. This year countries are gathering to create a global agreement to protect and restore nature. It will be the most important decision for nature in a decade.				
Petition	VIC	Better Buses Petition: Minister Ben Carroll, we want better buses! The transport sector is the second largest and fastest growing source of emissions in Victoria. But right now, the road lobby is still pushing the government to invest in more toxic mega roads, over much needed sustainable public transport like buses - particularly in Melbourne's West. Communities across the state are calling for frequent, connected and electric buses to reduce emissions, create local jobs and connect our communities. Will Victorian Minister for Public Transport Ben Carroll listen to the community and commit to better buses, or continue to cause climate damage by building more mega roads?	https://www.melbournefriendsoftheearth.org.au/betterbuses	Friends of the Earth	26/10/2021	
Email form	Federal/International	Help create Christmas & Cocos (Keeling) Islands Marine Parks. The Australian Government has initiated the next stage of creating two globally significant marine parks around Christmas Island and the Cocos (Keeling) Islands in Australia's Indian Ocean Territories. Co-designed with local island communities, they include vital sanctuaries covering around 739,000 square kilometres – that's bigger than Victoria, Tasmania and ACT combined! This is a huge win for our marine life and island communities. The government is now asking for your feedback. This is the next crucial step in getting these marine parks over the line.	https://www.saveourmarine.org.au/actions/christmascocos/	Save Our Marine Life	17/10/2021	
Email form	International	Japan threatens communities and climate by backing Indramayu and Matarbari coal power projects In the wake of some of the worst climate change impacts experienced globally, Japanese financial institutions and coal developers are pushing new coal power stations in Bangladesh and Indonesia, fuelling extreme weather and climate change. The Japanese government agency Japan International Cooperation Agency (JICA) is considering funding 1,000 MW Indramayu and 1,200 MW Matarbari (Phase 2) coal power projects. This project will worsen CO2 emissions, displace people and worsen air pollution.	https://www.marketforces.org.au/wave-of-change/	Market Forces	17/10/2021	

Email form	Federal	Say no to Gascoyne Gateway industrial port. A plan is on the way to build a port along Exmouth Gulf. This controversial proposal would attract massive ships, including oil and gas vessels, into an important humpback whale nursing and resting area in Exmouth Gulf. Shipping is known to present a serious risk to humpback whales, including from potential ship strike and also disturbance from underwater noise to their crucial resting and nursing behaviour.	https://www.protectningaloo.org.au/no-ggl-port/	protectningaloo.org	17/10/2021	
Email form	Federal	We need urgent climate action to protect health Australian individuals, families and communities are at risk of health impacts from heatwaves, extreme weather, and changing patterns of disease associated with global warming. But unlike many nations, Australia is actively undermining international progress, and has no national strategy to respond to this serious risk. We need a national plan to slash climate pollution by 2030, with strong targets that at minimum match the United States, the United Kingdom and other trading partners such as the European Union and Japan.	https://climateandhealth.good.do/act-on-climate-to-protect-health/emailmap-2/	Climate and Health Alliance	17/10/2021	
Email form	Federal/International	Stop Barossa Gas The Korean energy company SK E&S calls itself eco-friendly. Yet it has teamed up with Australian company Santos on a project that will release 15.6 million tons of carbon dioxide emissions into our atmosphere each year if developed and burned. Santos plans to build a 260km pipeline in pristine waters cutting close to the Tiwi Islands, in the Northern Territory in Australia. If it goes ahead, the project could devastate marine life, including destroying the habitats of threatened turtles. We urgently need your support to pressure SK Group to keep its promise to divest from fossil fuels and cut ties with the Barossa project.	https://stopbarossagas.org/take-action-en/	#StopBarossaGas	17/10/2021	
Petition	International	Total greenwash: tell investors not to buy Total's toxic bonds! This week French oil and gas giant Total is getting set to sell a cunning plan to investors: to use 'sustainable' financing to fund its efforts to drill the Arctic. It's greenwashing on an epic scale. But we have a chance to disrupt Total's plans. Total is unveiling its full corporate strategy to investors like AXA and BNP Paribas starting today. Investors will then decide whether to buy into Total's 'sustainability bonds' over the coming weeks. Tell BNP Paribas,	https://actions.sumofus.org/a/total-greenwash/	SumOfUs	17/10/2021	

		AXA and BlackRock don't buy Total's toxic sustainability bonds!				
Email form	NT	Lodge complaints against Origin Origin think they can get away with destroying sacred country, putting remote communities' health at risk, and contributing to catastrophic climate change by opening up fracking in the Northern Territory. But the time for digging and burning fossil fuels, coal, gas and oil is over. We have everything we need to supercharge the transition to renewable energy for everyone now. All we need is for Origin to listen and take action.	https://www.getup.org.au/campaigns/gas-and-fracking/origin-email-complaints-page-2/lodge-complaints-against-origin	GetUp!	17/10/2021	
Email form	Federal	Email your local MP: Support MP Zali Steggall's Climate Change Bill Independent MP for Warringah Zali Steggall plans to reintroduce a revamped Climate Change Bill. If it passes, it would set Australia a 60% emissions reduction target by 2030, immediately doubling our current targets and bringing us into line with our trading partners, the calls from climate scientists and what the majority of Australians want.	https://www.acf.org.au/email-mp-zali-bill	ACF	17/10/2021	
Email form	Federal	Email ANZ: lift your climate ambition and exit gas and oil ANZ is reviewing its gas and oil lending policy – giving it the perfect opportunity to make good on its support of the Paris Climate Agreement, and become the first big bank to exit gas and oil. As the biggest lender to gas and oil of the big four, ANZ can send a powerful message to the financial sector, the fossil fuel giants that depend on it, and to government decision-makers preparing for COP26.	https://www.acf.org.au/an-z-gas-oil	ACF	17/10/2021	
Petition	Federal	Say NO to nuclear submarines The Morrison government's decision to build nuclear submarines has shocked communities around the country. The Prime Minister must reverse the decision to build nuclear-powered submarines and commit to keeping Australia's military nuclear free.	https://www.foe.org.au/nuclearsubs	Friends of the Earth	17/10/2021	
Email form	Federal	Email Sussan Ley and Scott Morrison to aim high on global goals for nature Negotiations begin for countries around the world to create global goals for protecting and restoring nature. Leaders will be making the most important decisions for nature globally in a decade! It's critical that Australia shows up for nature and	https://www.acf.org.au/email-for-ambitious-global-nature-goals	ACF	17/10/2021	

		pushes for global goals that will reverse biodiversity destruction to achieve a nature-positive world.Email Environment Minister Sussan Ley and Prime Minister Scott Morrison asking them to aim high on global goals for nature!				
Email form	International	We can stop future oil spills It's simple – you can't spill oil if you don't drill for it! If they wanted to, both President Biden and Governor Newsom could decide tomorrow to stop issuing new permits for fossil fuel infrastructure. They could stop an untold number of oil spills before they even have a chance to happen. But unless they are hit with an unprecedented wave of pressure from their constituents, they won't. That's where we come in.	https://act.stand.earth/page/34153/petition/1	Stand.Earth	17/10/2021	
Email form	Federal	Deutsche Bank prepares to raise funds for Whitehaven Financial news source Debtwire reported last week that Deutsche Bank is preparing to raise funds for Whitehaven Coal's climate-wrecking coal business. Whitehaven last month flagged a potential move away from reliance on major banks and towards the bond market as a source of finance for its climate-wrecking coal.If Deutsche Bank's thermal coal exclusion policy allows it to arrange finance for Whitehaven – an undiversified coal mining company pursuing new thermal coal mines – then clearly it is utterly meaningless.	https://www.marketforces.org.au/deutsche-bank-whitehaven/#take-action	Market Forces	17/10/2021	
Petition	Federal	OPEN LETTER FROM WOMEN TO THE PRIME MINISTER OF AUSTRALIA, SCOTT MORRISON MP We are women and girls of Australia and the world calling on you to go to COP26 in Glasgow with ambitious targets for emissions reductions and concrete plans to meet them. We are calling on you to take this decisive action on the climate crisis for the sake of children everywhere, for future generations, and for us all.	https://1millionwomen.nationbuilder.com/im-signing-the-open-letter-to-prime-minister-scott-morrison	1 Million Women	17/10/2021	
Email form	QLD/Federal	Reject Adani's water scheme Adani is trying for a third time to have the Morrison Government approve the same, flawed water-guzzling plan to service a coal mine that will drive climate pollution way up.Adani's plan would guzzle 5,000 Olympic swimming pools worth of our precious water every year! We must strongly encourage the Minister to do the right thing for our climate and nature, and recognise what is now legal precedent.	https://www.acf.org.au/email-ley-adani	ACF	17/10/2021	

Email form	WA	Tell Brookfield: don't enable Woodside's climate-wrecking Scarborough gas project Despite the science telling us there is no room for new fossil fuel projects if we're to meet the Paris climate goals, Woodside Petroleum is trying to build a destructive gas project on the West Australian coast, which would include a massive new offshore gas field and a new onshore gas processing plant. But Woodside doesn't want to proceed with this project until it finds a partner in its new Pluto gas processing plant. We need to tell Brookfield: don't light the fuse on Woodside's carbon bomb.	https://www.marketforces.org.au/brookfieldnotopluo/	Market Forces	17/10/2021	
Email form	WA	Say No to Scarborough Gas Woodside's Scarborough gas project is one of the most polluting proposed fossil fuel projects in Australia. It would emit 1.6 billion tonnes of CO2e over its lifetime and would add to the destruction of the ancient Murujuga rock art. Perdaman has signed a contract with Woodside to take Scarborough gas if it builds a new urea fertiliser plant on the Burrup Peninsula.	https://fossilfuelwatch.org.au/stopthegas-firedrecovery/email-perdaman/	Fossil Fuel Watch	26/9/21	
Email form	International	Help create Antarctic marine parks In the coming month, the Antarctic Treaty nations will decide whether or not they'll support the creation of three new marine parks in the Southern Ocean – the East Antarctic, Weddell Sea, and the Antarctic Peninsula marine parks. This is a massive opportunity to protect and preserve our precious Antarctic marine life. Send a letter today and help create Antarctic marine parks.	https://www.saveourmarine.org.au/actions/antarcticmarineparks/	Save Our Marine Life	26/9/21	
Petition	QLD/Federal	Don't let Clive Palmer's company build a new coal-burning plant Waratah Coal, Clive Palmer's company, wants to build a new coal-burning power station in the Galilee Basin in central Queensland. It's an egregious proposal that could become a climate-wrecking reality, while the rest of the world accelerates the transition away from coal to better energy - like solar, wind and batteries. You can help stop this climate catastrophe. Sign the petition.	https://www.getup.org.au/campaigns/climate-justice/block-clive-palmer-s-coal-burning-power-station/don-t-let-clive-palmer-s-company-build-a-new-coal-burning-plant	Get Up	26/9/21	
Email form	Federal	Tell your super fund to vote for the climate with your retirement savings.	https://www.marketforces.org.au/campaigns/superfund	Market Forces	26/9/21	

		Despite the majority of Australia's 50 largest super funds by assets under management (AUM) publicly supporting the goals of the Paris Agreement, ACCR's report shows that just 9 funds supported 50% or more of the climate-related shareholder resolutions put forward in 2020. Worse still, seven funds failed to support any of these resolutions at all. Your super fund may very well be using your retirement savings to block climate action. Get in touch and tell them to exercise their voting power on your behalf.	er/voting-against-climate-action/			
Email form	International	Demand climate accountability from IKEA While new advertising puts the burden of climate action on customers and families —IKEA continues to keep the oil industry afloat by shipping its products on dirty, fossil-fueled ships. In 2019, IKEA's U.S. maritime shipping alone emitted over 410,000 metric tons of CO2, helping the company earn the seventh-most pollutive spot in our Shady Ships report. Help us push IKEA to commit to abandoning dirty ships now and committing to zero-emission shipping by 2030. Demand accountability from IKEA: email top IKEA executives today.	https://actionnetwork.org/letters/demand-climate-accountability-from-ikea/	Ship it Zero	26/9/21	
Email form	QLD	Take Action: No new coal power station in QLD! Waratah Coal is working to have a new, dirty coal power station approved in Queensland. The Queensland Government has the ability to refuse Waratah Coal's proposed 1400 mega-watt coal fired power station, but has yet to do so. Write to the Queensland Deputy Premier and Minister for State Development Steven Miles and ask him to 'call in' this project and ensure its impacts to our shared climate, the Great Barrier Reef, communities and future generations are properly assessed.	https://www.foe.org.au/newcoal	Friends of the Earth	26/9/21	
Petition	VIC	It's time for Victoria to get off gas Fossil gas is already responsible for 17% of Victoria's emissions, but outdated planning regulations mean tens of thousands of homes are being forced to connect to the fossil gas network every year – supporting the expansion of destructive gas mining and locking in future emissions. The Victorian government is working on a long-term 'Gas Substitution Roadmap'. But we already know changing these laws is a simple and urgent first step in the path to phasing out fossil gas.	https://environmentvictoria.org.au/action/its-time-for-victoria-to-get-off-gas/	Environment Victoria	6/9/21	

		Tell them to phase out gas in Victoria and to take immediate no-regrets actions to put us on the right path.
