Dear Parents / Guardians,

We, Roosevelt High School, are planning to register your child for online courses offered by the Hawaii Online Courses (HOC) program, Hawai'i Online Courses.

These courses are delivered in a learning management system called Canvas. In addition to this, the program uses a variety of online tools to support student engagement, learning, and assessment. The HOC program takes great care to protect your child's privacy in the use of these tools. Please visit the Tech Tools section of the HOC web site to review these tools along with their terms of service and privacy policy.

In order for a student to be enrolled in an HOC course, parent / guardian signed permission to allow their child's use of the various tech tools in the course **is required**. Parent / Guardian signed consent for the Student Publication Audio/Video Release form **is also required** and should be on file with us. If you do not grant signed permission for both, we will not be able to enroll your child in the HOC program and will need to find a suitable alternative.

To provide the signed permission needed for the registration of your child in an HOC course, please fill out the form below and submit it to Jeffrey Azuma, Registrar by the time of registration.

I understand that by selecting "YES" and signing this form, I am granting my child permission to use the tech tools utilized in the HOC courses. I understand that this permission is required for my child to be registered for the HOC courses.

- YES, I have reviewed the terms of service and privacy policies for each of the technology tools that will be utilized for my child's HOC course and I give permission for my child to use these tools in their HOC coursework.
