END THE KHAYA FAMILY SIEGE!

STOP THE BRUTALITY

The Saharawi civil society, on behalf of the Khaya family, appeals to the international community and human rights advocates everywhere around the world to stand for and defend the right of everyone to live in peace and dignity. Since November 2020, the Khaya sisters, and their mother, have been under siege by Moroccan armed forces. Today, we are asking you to add your voice to that of the Khaya family and help us END the siege.

We call on the Moroccan government to:

- 1- Immediately remove all military, uniformed security, police, and other agents who surround the house of the Khaya family.
- 2- Remove all barricades that isolate Sultana Khaya's neighborhood from the rest of the community.
- 3- Allow family members and the Saharawi supporters to freely visit the Khaya family without retaliation.
- 4- Restore water NOW and maintain electricity to the Khaya family home.
- 5- Allow an independent cleaning company to remove all chemicals from the house and the family's water reservoir.
- 6- Restore and replace the destroyed furniture in the home.
- 7- Allow non-Moroccan medical teams to examine and treat the Khaya Sisters and their mother.
- 8- Allow international organizations such as the International Criminal Court (ICC) to freely investigate all allegations made by the Khaya family of human rights abuses, including rape, sexual torture, sleep deprivation, poison with chemicals, and unknown injections.
- 9- Bring the perpetrators and all responsible parties to justice by the ICC.
- 10- Reassure the public in a written statement of the safety and freedom of movement of the Khaya family.
