AI Video Generation Workflow

Luxury Ethnic Wear Product Content Creation Process

AI Technology Used

- Google Veo 3.1 (Flow)
- AI Image-to-Video Generation
- AI Product Photography Enhancement
- Prompt Engineering Workflow

---

1. Workflow Overview

This workflow is designed to transform a single ladies' suit product image into premium luxury product visuals and cinematic marketing videos while preserving the original product exactly as provided.

The process consists of two stages:

Stage 01 – AI Product Photography Generation

Creating multiple premium product photography angles from the original product image.

Stage 02 – AI Video Generation

Converting the generated product images into luxury cinematic product videos using Google Veo 3.1 (Flow).

---

2. Source Image Requirements

The original product image serves as the master reference for all generated assets.

Requirements:

- High-resolution image
- Visible embroidery details
- Accurate fabric texture
- Proper product presentation

- Clear lighting and colors

---

3. Image Generation Process

Multiple luxury product photography angles are generated while maintaining complete consistency with the original product.

Core Product Preservation Rules

The following instructions are applied across all image generation prompts:

- Same color
- Same embroidery
- Same stitching
- Same fabric texture
- Same design details
- Same proportions
- No redesign
- No modifications
- No AI alterations

The generated images must remain visually identical to the original uploaded product.

---

4. Image Generation Prompts

Image Prompt 01 – Top Down Product Showcase

Prompt

Top-down folded product shot, centered composition, soft hands gently holding product corners, embroidery neckline clearly visible. Ultra realistic luxury ethnic wear product photography using the EXACT uploaded product image/design without changing anything at all, preserve the original product completely — same color, same embroidery, same stitching, same fabric texture, same design details, same shape, same proportions, no redesign, no alteration, no AI modifications to the outfit, product must look identical to uploaded reference image.

Create a premium boutique style setup with soft embroidered organza fabric background in matching pastel tones, elegant feminine luxury environment, high-end Pakistani/Indian designer wear aesthetic, soft natural daylight from window, realistic shadows and folds, dreamy luxury mood, shallow depth of field, DSLR photography look, ultra detailed fabric

realism, embroidery in extremely sharp focus, realistic textile fibers visible, no AI look, premium Instagram boutique campaign style.

Keep environment/background consistent across all generated images while only changing camera angles and composition. Product should remain the hero focus in every shot. Ultra photorealistic, cinematic composition, soft pastel luxury color palette, realistic hands if needed, elegant styling, 85mm lens look, f1.8 depth of field, vertical 4:5 composition, highly realistic luxury fashion photography.

Image Prompt 02 – Side Angle Product Presentation

Prompt

Camera slightly tilted from side, premium boutique presentation, soft fabric folds surrounding product. Ultra realistic luxury ethnic wear product photography using the EXACT uploaded product image/design without changing anything at all, preserve the original product completely — same color, same embroidery, same stitching, same fabric texture, same design details, same shape, same proportions, no redesign, no alteration, no AI modifications to the outfit, product must look identical to uploaded reference image.

Ultra photorealistic, cinematic composition, soft pastel luxury color palette, realistic hands if needed, elegant styling, 85mm lens look, f1.8 depth of field, vertical 4:5 composition, highly realistic luxury fashion photography.

Image Prompt 03 – Macro Embroidery Detail Shot

Prompt

Macro focus on neckline embroidery and fabric details, shallow DOF, ultra detailed threadwork. Ultra realistic luxury ethnic wear product photography using the EXACT uploaded product image/design without changing anything at all, preserve the original product completely — same color, same embroidery, same stitching, same fabric texture, same design details, same shape, same proportions, no redesign, no alteration, no AI modifications to the outfit, product must look identical to uploaded reference image.

Image Prompt 04 – Clean Minimal Product Composition

Prompt

Clean aesthetic composition with minimal props, focus fully on product and embroidery. Ultra realistic luxury ethnic wear product photography using the EXACT uploaded product image/design without changing anything at all, preserve the original product completely — same color, same embroidery, same stitching, same fabric texture, same design details, same shape, same proportions, no redesign, no alteration, no AI modifications to the outfit, product must look identical to uploaded reference image.

5. Video Generation Process

Platform Used

Google Veo 3.1 (Flow)

Input

Generated product photography images from Stage 01.

Output

Luxury cinematic product videos with subtle realistic motion.

---

6. Video Generation Prompt

Prompt

Ultra realistic luxury ethnic wear product video using the exact uploaded outfit without changing anything at all. Preserve original color, embroidery, fabric texture, stitching and design exactly identical to the reference image. Product remains the main focus at all times.

Minimal elegant motion only — soft natural daylight shifting slightly from the window, subtle cinematic camera push-in or slow side movement, tiny realistic fabric settling for natural feel. No dramatic movement, no flowing dupatta, no model, no mannequin, no extra action.

Luxury boutique atmosphere, soft pastel environment, realistic shadows, shallow depth of field, ultra detailed embroidery visible, calm feminine aesthetic, premium Pakistani designer wear campaign style, ultra photorealistic DSLR look, cinematic 4K quality, no AI appearance, simple clean luxury reel feel.

---

7. Motion Design Guidelines

Environmental Motion

- Soft daylight movement
- Realistic shadow transitions
- Natural luxury atmosphere

Camera Motion

- Slow cinematic push-in
- Gentle side movement
- Smooth premium reel motion

Product Motion

- Slight fabric settling
- Natural realism
- No dramatic movement

---

8. Visual Style Guidelines

Photography Style

- Luxury Boutique Aesthetic
- Premium Designer Wear Presentation
- Ultra Photorealistic Quality
- DSLR Camera Look
- Cinematic Composition

Lighting Style

- Soft Natural Daylight
- Window Lighting
- Realistic Shadows
- Elegant Highlights

Color Palette

- Soft Pastel Tones
- Feminine Luxury Aesthetic
- Premium Fashion Branding

Technical Quality

- 4K Video Quality
- High Detail Embroidery
- Shallow Depth of Field
- Ultra Sharp Fabric Details
