

SCAFEDRAGON'S 2D ART QUEUE

Please keep in mind that I am on a tight schedule with my job IRL.

I'll be working on 2D commissions most nights of the week alongside my retexture commissions.

If you do not pay within 24-48 hours after I send an invoice/Ko-fi link to pay then, your position will be placed **on hold** until payment is received.

Once payment is received, you will be placed back on your original position in the queue.

In progress = means that I am in the middle of working on your commission

Reserved = means that I've placed you on my next round of commissions

On hold = means that I am waiting for extra info or payment from you.

Nearly done = means that I am almost done or waiting on final approval.
