

Milestones Onboard

We would like to add our Donation Application (<https://giveth.io>) to the Optimism chain so that every project on Giveth can raise funds with Optimism.

Summary for this funding: We'd like to ask for 24K Optimism to create an LP against GIV to allow GIV to have a secondary market on Optimism & 16k OP to incentivize current nonprofit projects to add an Optimism address.

No.	Milestone Description	Milestone Payment (OP)	Measurement of success to release payment
-----	-----------------------	------------------------	---

1	<p>Goal:</p> <p>Projects can add an Optimism donation address to their project and receive donations on Optimism</p> <p>Work:</p> <p>Front End</p> <ul style="list-style-type: none"> - Add Optimism to the project page and verification flow - Add Optimism to web3-react config - Add Optimism to the donations table in the project page - Find a way to fetch Optimism token prices - Optimism modal on the donation page <p>Back End</p> <ul style="list-style-type: none"> - Rewrite donation verification to include Optimism - Create a GIVbacks Token List for Optimism 	<p>16k OP</p> <p>For rewarding the first 640 projects that add a Optimism Address.</p>	<p>Donations are received by verified projects on Optimism.</p>
---	---	---	---

2	<p>Goal: Donors can get GIVbacks and GIVpower is live on Optimism</p> <p>Work: Smart Contracts</p> <ul style="list-style-type: none"> - Bridge GIV to Optimism - Deploy & test a parallel SC system - Add Optimism GIVstream page - Add GIV rewards for GIVpower on Optimism <p>Product & Comms</p> <ul style="list-style-type: none"> - Revise the switch network user flow (design included) - Work with the Comms team to promote the launch - Actively onboard projects to Optimism advertising the opportunity to get 50 \$OP for creating and address on Optimism 	<p>0 OP</p> <p>We will create the initial 50/50 OP/GIV liquidity pool with funds that we received RPGF</p>	<p>First round of GIVbacks goes out on Optimism & GIVpower is live: GIV holders on Optimism can stake and lock their GIV for an APR and boost their favorite projects.</p>
---	---	---	--

3	<p>Goal:</p> <p>Incrementally more and more unique donations to various projects on Optimism (all three metrics must be achieved to get the reward)</p> <p>Work:</p> <p>Comms & Fundraising</p> <ul style="list-style-type: none"> - Work with the Comms team to promote the use of Optimism on Giveth - Actively encourage projects to run fundraising campaigns on Giveth - bring all the new features we plan to build this year to Optimism such as QF, NFTs, GIVfi and many others, read more on our plans for 2023 here: https://medium.com/giveth/2023-giveth-looking-for-ward-c6c66fb82c3e 	<p>24k OP</p> <p>For adding to our 50/50 OP/GIV liquidity pool</p>	<p>Optimism Metrics to achieve</p> <ul style="list-style-type: none"> • 100 Donors of over \$10 • 30 projects received to donations • \$100k in donations to verified projects • 1M \$GIV staked for GIVpower
	TOTAL	40k OP	
	More Context on Rewards for Milestone #1		<p>We will use 100% of these funds to incentivize verified projects to onboard to Optimism by giving the first 640 verified projects that add a Optimism address 25 OP.</p> <p>These projects are all verified by our team to be reputable, provide a public good to society and will all be holding their own keys on Optimism.</p>

	More Context on Rewards for Milestones #2 & #3		We are innovating away from OP Liquidity Mining, which is really renting liquidity and into more of a Token Swap that will allow GIV to have a secondary market on Optimism without dumping OP to mercenary liquidity miners. We need to create a sizable LP OP to prevent large GIV holders
