

Intro to Nursing 2

Recommended Prerequisite: Intro to Nursing 1. Please review the [Intro to Nursing 1](#) and Intro to Nursing 2 syllabi to determine appropriate student placement. WVS does not require any specific sequence.

Description

In this course, students will examine various nursing theories, as well as focus on the nursing process, including assessment, diagnosis, and treatment options. Students will also learn about professional and legal standards and ethics. Additional skills of communication, teaching, time and stress management, patient safety, crisis management will be included.

A Note About Certification: While this course does not offer industry certification directly, it can support students' career and academic goals. Students are encouraged to have conversations with their local school counselors regarding individual career exploration opportunities.

Materials

This course does not include any additional required materials. Please review the [WVS Materials List](#) for each course you are considering to see materials requirements, if applicable.
