

American University
4400 Massachusetts Avenue NW
Washington, DC 20016

November 14, 2022

Dear President Burwell, Ms. Annexstein, Dr. Aw, Mr. Morse, Dr. Starr, Mr. Brown, and Dr. Volkmann,

We, the undersigned members of American University's community, hereby present this list of demands to you. In the aftermath of the break in and assault in Leonard Hall on October 31st, students have come together and realized the depth of the university's ambivalence towards and inaction on sexual violence in our community.

On November 10, 2022, an estimated 500 students and community members attended a walkout all echoing the same request: that you, as administrators, protect your students and survivors, and agree to these demands. We believe these demands are reasonable, and that they are only the beginning of a transformation to a community where survivors are protected and uplifted and preventing sexual violence is understood to be something we all have a role in. We do not need a "working group" to consider what your students are already telling you, and what you seem to know: that **change can't wait**. Acquiescing to these demands and enacting the policies laid out within is the bare minimum. The work towards becoming a community that is free from sexual violence is immense. It requires all of us, and it will take time. It must begin immediately.

These demands were created in November of 2022 by student survivor advocates on campus with the input and assistance of community members and experts.

List of Demands to American University Administration and Title IX

1. Implement a Survivors Bill of Rights modeled after the University of Massachusetts at Amherst one, created with input from survivors, advocates, student organizations, and experts.
2. Mandate live annual sexual violence prevention and response training for all employees, including student employees, that is trauma informed, survivor centered, and led by outside facilitators from reputable organizations such as ItsOnUs, KnowYourIX, End Rape On Campus, or DC Rape Crisis Center. The administration must enter into a minimum 3-year contract with one of these organizations to provide this annual training.
3. Mandate live annual sexual violence prevention and response training for all students that is trauma informed, survivor centered, and led by outside facilitators from reputable organizations such as ItsOnUs, KnowYourIX, End Rape On Campus, or DC Rape Crisis Center. The administration must enter into a minimum 3-year contract with one of these organizations to provide this annual training.
4. The school must hire at least one trauma informed counselor that is trained in sexual violence response and PTSD treatment related to sexual violence.
5. The school must update their Title IX website at least once per month to accurately reflect the state of Title IX and university policies. This website should include a comprehensive resource guide that is easily available, as well as a page with Frequently Asked Questions regarding the Title IX process.

Together in hope for a community free from sexual violence,

American University students, staff, faculty, alumni, and allies
