Our renowned testosterone booster is CHANGING LIVES!

And it's all because we're seriously dedicated to delivering a high quality and genuinely impactful T-booster to the men who need it most.

Hunter Test isn't just an average 'run of the mill' supplement that fits the low standard for a testosterone booster, and believe us the market has been saturated with those, because mediocrity is not something we settle for at Roar Ambition.

Our T-booster isn't crammed with low concentrations of every testosterone boosting ingredient on the planet,

Instead we've focused on delivering optimal amounts of specific nutraceuticals, which you learnt about in our previous email, to deliver actual RESULTS!

So whilst you get stronger and more confident each month those who didn't choose Hunter will fall back, continuing to lose testosterone and watching you conquer at ages they didn't believe it to be possible.

And unlike those other cheap "testosterone boosters" on the market, when you open a bottle of Hunter Test you won't be faced with unpleasant smelling, oversized and hard to swallow placebo pills,

You'll be faced with our specially crafted muscle building, energy and libido enhancing MAGIC!

Don't believe us?

##### **Subject Line- A smart fat burner?**

So you've heard of our Hunter Test, and maybe you've already invested in it because you're one of the few people who realised its actual benefits.

But sometimes boosting testosterone isn't all you can do to feel strong and energised,

We realised that alongside low T-levels, struggling to shed body fat is something which requires a lot of commitment and change to transform your life for the better so you can,

- STOP your compulsive eating!
- Prevent weight gain!
- Tone your body and reveal the strong ripped physique waiting to be unleashed!
- Feel more energised so you can utilise your body to the MAX!
- Achieve the fitness goals you yearn to have but are struggling to get!
- Become more successful and respected by your peers (A 2015 study shows **thinner men earn 16% more money on average!**)

That's why, as usual, we've made this as MINIMAL as possible for you with our Hunter Burn.

With our unrivalled formula containing 3000mg of Konjac Root, its significance in burning fat comes from glucomannan; a fibre which is also known to decrease cholesterol levels!

Plus, we bet you've never heard of a fat burner that contains cayenne pepper!

Utilising powerful thermogenics, the active ingredient in cayenne pepper is effective in raising your body temperature, which in turn increases your metabolic rate; allowing you to burn even more fat, especially during those tough workouts.

And do we really have to mention it's made strict to cGMP and FDA guidelines again?!

[Check out](#) the list of active ingredients we've used in the Hunter Burn for you to reap all the benefits from and feel the way you've always wanted to feel but couldn't...

Until you found us.

Roar Ambition.

#### **Subject Line- SERIOUS about FAT LOSS? Open this email, or don't....**

Slimming down to feel healthier, look better and perform stronger is a serious process and can't be resolved by simply taking a 'wonder' pill.

So here at Roar Ambition we've created a scientifically supported, unmatched formula to deliver a premium fat burner and help you take back control of your body!

We really did our research when it came to this one, because fat loss is demanding, and sourced only the best quality natural fat burning ingredients to create the Hunter Burn!

It doesn't contain any artificial flavours, additives, preservatives, gluten or soy! And the sheer POTENCY of this formula is the only one of its kind (see if you can find another).

And unlike other "fat burners" we use larger doses to meet your demands (180 capsules as compared to the standard 60-80 to be exact).

All of this combined with our simple determination to help you shed body fat, lose weight and feel and look better, whilst preventing muscle loss is the reason all of our customers prefer Hunter Burn and are actually seeing results!

Here's what they have to say...

JUST what I needed. Just take your tablets and let Hunter Burn do the rest."

-Josh

## **Subject Line- Struggling to keep FOCUS? Try Hunter...**

Who's got a terrible procrastination habit?

But really, who lets it get in the way of progress?

Well the first is painfully true for most of you, a lot of us suffer from procrastination, lack of focus, short attention spans, heightened anxiety and the list just goes on...

And it's largely due to the multiple stressors we face in our lives. Working jobs with strenuous demands whilst trying to keep sustained daily focus; balancing those stressful obligations at work with your family and making time for other things.

Or maybe it's the 'social media effect'. The modern world is a place of even greater demand, and trying to keep concentration has become increasingly harder with so many distractions and forms of fast moving content.

But as for the second, the REAL question is how can you **boost your brain power** to PREVENT procrastination and optimise functionality to achieve success?

Which is why we're proud to be able to provide a solution...Hunter Focus!

Hunter Focus was designed specifically to optimise these 6 aspects:

- 1. Enhanced Memory**
- 2. Greater Focus**
- 3. Elevated Mood**
- 4. Increased Energy**
- 5. Boosted Creativity**
- 6. Optimised learning**

By harnessing the latest understanding on mental enhancement, Hunter Focus unlocks your cerebral potential.

**Subject Line- This secret...once the preserve of political leaders and CEOs, is now within your reach!**

Want to know the secret?

Well, actually it's more of a formula,

More importantly, it's our fully transparent formula of a natural nootropic made specifically for high performing individuals.

And it's packed with 20, research backed, key ingredients proven to improve memory retention, increase happiness, decrease anxiety, support brain activity and deliver unbreakable concentration,

All working together to ensure you remain at the top of your game, and are mentally prepared to tackle the professional world so you can make better choices and solve complex problems.

Too many other nootropic brands contain a proprietary blend of unproven ingredients. You either don't know what you're putting in your body, or that which you are putting in is ineffective,

So if there were ever a nootropic that NEEDED to be FDA approved...it's this one!

That's why we used clinical grade nutraceuticals to deliver you the Hunter Focus,

A product renowned by our customers.

Here's what they have to say,

I've tried over 50+ nootropic stacks over a number of years. Hunter Focus definitely seems to be one of the best out there. They have developed a great nootropic formula.

-Greg Gostincar, Biohacker, nootropic researcher and productivity expert. Founder of Your Inception

Why did I choose Hunter Focus? I needed something to increase my concentration at work –as a project manager it can get quite stressful and there's no time to drop the ball! First month down and I'm feeling better than ever. I no longer get those meeting nerves or distracted by those never ending calls and emails... (no stress, they'll get answered eventually). I'm on a roll and I plan to stay that way.

-Terry

I've been taking the supplement for at least 4 months now and have experienced some great improvements in terms of my focus levels, attention and mood. I used to struggle to remain calm in stressful situations and my anxiety would be through the roof. With Hunter Focus, I'm

able to maintain a positive outlook. I can't recommend it enough.

-Jacob

As a father to 3 kids and with an office job that I seem to run away with sometimes, it can be hard to switch off from work. Honestly... I needed something natural and effective to help me switch my focus. I tried a bit of meditation but then found Hunter Focus to help me relax and prioritise. My mental energy is so much better and I no longer let stressful situations get to me
