COMMISSION PROCESS

1. COMMISSION ACCEPTANCE

Commissions are taken via google forms and you are required to fill out the form correctly before I can accept the commission. After I've chosen the commission I'll contact you via the information you've provided from the forms

2. SKETCH AND PAYMENT

Generally this is how it goes after I've chosen your commission. I will discuss with you regarding your commission, usually it's just to help me understand the idea that you want. After that I will send you the sketch based on your idea and what we've discussed, this is the time where you can inform me of any error or anything that you'd like me to change. Next I'll send you an invoice through **paypal and paypal only**, which I will need you to pay before I continue working on your commission. Details about changes will be further explained later. And if I've received the confirmation from you to move to the next part of the process, you are no longer allowed to ask for any changes.

3. RENDERING

The amount of time you have to wait depends on the commission type that you chose. I will try to the best of my abilities to finish your commission in one month. Though this may change depending on my life schedule. Which I will notify all of my commissioners.

4. SEND OUT AND POSTED

After I've finished your commission I will send the finished piece your way. Every commissioned piece will be posted on my Furaffinity Gallery, Discord server, Telegram Channel, and other social medias that I use to promote myself.

REFUNDS

Refunds can be requested as long as the commission has not yet been started or is still in the sketching stage, keep in mind the refund won't be a full one. If I request for the commission to be canceled due to some unforeseen circumstances on my part, I will send you a full refund without the work that has been done. No refunds will be given after the commission has been completed at any time.

For sketch type commissions, a refund is not an option after you've sent the payment. Unless I ask you myself due to me not being able to complete your commission.

REFERENCES

Flat color references are preferred as they are easier to work from. Shaded references can be considered as long as it contains flat color swatches.

Adding more visual references like stickman poses, etc are also appreciated. Since these give me a clear guide on what you want to have and less time spent looking for the appropriate references.

CHANGES

- Each piece is allowed up to 3 free changes. any extra changes after that will cost an additional 20\$
- If there's a mistake on my part, such as an error overlooked on the ref, there will be no cost to changes
- changes cannot be requested after the piece has gone past the agreed rough sketch stage.
- No changes are allowed in sketch type commissions. So make sure to communicate clearly what you want before I do the sketch.

CHARACTER

- Please use the characters that you own.
- If you want a commission of other people's character (as a gift for example) make sure that you have proof of their consent!
- You can ask my consent to have an art piece with my character. But the price remains the same

WHAT YOU'LL RECEIVE

For each commission you'll receive 2 types of png files of the piece :

- Full resolution piece (personal use)
- Smaller resolution piece, Nightshade and Glaze to protect it from AI art scraping (posting purposes)
