General Science

Make a booklet of three states of Matter.

Create An Investigation Repot "Do all solids melt at the same time"?

complete this quiz and take certificate (don't forget to write your name on certificate)

https://www.proprofs.com/quiz-school/story.php?title=states-matter-quiz

Watch this video to make model of "Simple Machine"

https://www.askmeena.com/2021/06/28/how-to-make-simple-machine-model-at-home-video/

Learn all definition from given site and complete task.

https://sites.google.com/site/mleesmiley/useful-links/simple-machines

Note: For detail please check GC and turn in all work over there...

Islamiat

Learn by heart

1. Surat Al-Qari'ah 2. Surat Al Fajr

Read at least three times:

Unit# 5 Lesson #3 Mutual Mercy

Unit #4Lesson #5 Belief in Prophets (Moses and Jesus)

Unit#3: lesson# 1The Morals of Visits and Hospitality

Unit# 2: lesson# 4 The Virtues of Reciting the Holy Qur'an

Unit#3: Lesson# 1 the Qualities if the Believer

Unit#2: lesson# 5 The Call to Prayer (Adhan)

Mathematics

1: Identifying different geometrical dimensions.

Check out different buildings in your neighbourhood, or ones that are in close proximity to the school. Once you have chosen a particular interesting piece of architecture, you can draw a sketch of the building and mention all of the different geometric shapes you notice, along with the kinds of angles and measurements found on the layout.

2: Fraction Pizza Project

• Decide on shape of pizza (rectangular or circular) use piece of paper or trace bowl• Divide pizza into 8 slices (try to make them as equal as possible): start with a half, then cut each

half in half, then cut each fourth in half) • Create the toppings according to the recipe below:

Instructional learning video to support the objective:

https://www.youtube.com/watch?v=hVaxiJB6FIs

3: Construct Array Cities

Make at least three buildings, use a ruler to draw straight lines, and write multiplication facts.

4: Maths Checker

Using removable label stickers, label the white squares (shown above, or red or black if you have a traditional checkerboard) with a multiplication problem. Next, place your playing pieces on top of the squares with the math problem on them. Play begins as usual as players move their pieces diagonally, trying to get to the other side. The twist is, you must solve the multiplication problem you land on. If you answer correctly, you are awarded that many points. For instance, if you land on 8×8 and answer correctly, you get 64 points. The player with the most points at the end of the game wins.

Instructional learning source to support the objective:
