- Painting with acrylic paints on canvas, premium series by YS Art. The creation is signed by the author, the authenticity certificate is available. We present only handcraft artpieces. We do everything by ourselves: from making a stretcher and stretching the canvas to painting and packing the painting.
- We do paint with acrylics as this material is safe for health and environmentally friendly. We stretch the canvas on a natural wooden stretcher. And keeping in mind that the picture colors should remain saturated for many years along, we cover its surface with water-based acrylic varnish.
- The stretcher already has metal fasteners, so you can hang the painting right after unpacking.
- We are interested in that the ordered painting arrives to your destination place in perfect condition. Therefore, we carefully pack it ourselves and use only high-quality materials for packing.
- A bright textured painting in a strict black frame will be an ideal accentuating element in the modern interior of your home or office, any living or working space. Also, this modern artwork can become a pleasant gift for a creative, demiurgic-brained person.

Modern Art Canvas Painting will ideally fit into the interior of a city apartment or a countryside house, into a living room or study office. It will bring sophistication and individuality, emphasizing the good taste of that room owner. And never forgetting the simple fact: the painting with flowers is a good gift for your loved someone, your relative, a friend, or a colleague. For example, it can be a wedding, housewarming, birthday, Christmas, Mother's Day or Father's Day, any other memorable event in life that convenes easily for such a nice surprise.

Since 2005, we, the YS Art studio, have been painting for clientele from whole globe round and receive only positive feedback from them. By ordering an artpiece at the YS Art studio be sure of getting an artwork that will exceed your expectations.
