Screening/Testing of Students

Parents/guardians and eligible students have the right to review, and survey, assessment, analysis or evaluation administered or distributed by a school to students whether created by the District or a third party. For purposes of this policy, “eligible student” means a student 18 years of age or older or an emancipated minor. Any survey, assessment, analysis or evaluation administered or distributed by a school to students will be subject to applicable state and federal laws protecting the confidentiality of student records.

Survey, Assessment, Analysis or Evaluation for Which Consent is Required

Except as otherwise permitted by law, students shall not be required to submit to a survey, assessment, analysis or evaluation that is intended to reveal information, whether the information is personally identifiable or not, without prior written consent of the parent/guardian or eligible student, if that survey, assessment, analysis or evaluation reveals information in the following areas (“protected information”):

1. Political affiliations or beliefs of the student or the student’s parent/guardian;
2. Mental or psychological conditions, of the student or the student’s family;
3. Sexual behavior or attitudes;
4. Illegal, anti-social, self-incriminating or demeaning behavior;
5. Critical appraisals of other individuals with whom the student has a close family relationship;
6. Legally recognized privileged or analogous relationships, such as those with lawyers, physicians and ministers;
7. Religious practices, affiliations or beliefs of the student or the student’s parent/guardian;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program);
9. Social security number.

Notice Required

School personnel responsible for administering any such survey, assessment, analysis

or evaluation shall give written notice at least two weeks in advance to the student's parent/guardian or the eligible student and shall make a copy of the document available for viewing at convenient times and locations. The notice will offer to provide the following written information upon request:

1. Records or information that may be examined and required in the survey, assessment, analysis or evaluation;
2. The means by which the information shall be examined, reviewed, or disseminated;
3. The means by which the information is to be obtained;
4. The purposes for which the records or information are needed;
5. The entities or persons, regardless of affiliation, who will have access to the information; and
6. A method by which a parent/guardian can grant or deny permission to access or examine the records information.

These notice provisions also apply to any survey, analysis or evaluation funded by the U.S. Department of Education or the State of Colorado.

Exceptions to Policy

Nothing in this section of the policy shall:

1. Be construed to prevent a district employee from reporting known or suspected child abuse or neglect as required by state law;
2. Be construed to limit the ability of a registered nurse that is acting as an agent of the school district to evaluate an individual child;
3. Be construed to require parental notice or consent for assessments used to collect evidence of what a student knows and is able to do and to measure a student's academic progress toward attaining the District's academic standards unless required by law as with the Colorado Measures of Academic Success Program.

Surveys, Assessment, Analysis or Evaluation for Marketing Purposes

Parents/guardians and eligible students shall receive notice and have the opportunity to opt a student out of activities involving the collection, disclosure or use of personal information collected from the student for the purpose of marketing or selling that information or otherwise providing the information to others for that purpose.

Annual Notice

At the beginning of each academic year, the District shall inform parents/guardians and eligible students that the parent/guardian or eligible student has the right to consent before students are asked to submit to a survey that concerns one or more of the protected areas and to opt out of the following:

1. Activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information;
2. The administration of any protected information survey; or
3. Any non-emergency, invasive physical examination or screening other than a hearing, vision or scoliosis screening that is:
 - Required as a condition of attendance;
 - Administered by the school and scheduled by the school in advance; and
 - Not necessary to protect the immediate health and safety of the student or of other students.

Psychiatric/Psychological/Behavior Testing Methods or Procedures

School personnel are prohibited under state law from recommending or requiring the use of psychotropic drugs for students. They are also prohibited from testing or requiring testing for a student's behavior without giving notice to the parent/guardian describing the recommended testing and how any test results will be used. Prior to conducting any such testing, school personnel shall obtain written permission from the parent/guardian or eligible student in accordance with applicable law.

School personnel are directed to discuss concerns about a student's behavior with the parent/guardian, and such discussions may include a suggestion that the parent/guardian speak with an appropriate health care professional regarding any behavior concerns that school personnel may have.

Special Education Evaluation

The giving of parental permission for evaluation or re-evaluation of a student with disabilities and any required consent to the provision of special education services to a student with disabilities is governed by state and federal law and is outside the scope of this policy.
