# Add-ons

---

Extra Character: 30 USD per character  
(depends)

Additional Objects: 5 USD+ (Price varies)

Background: 10-40 USD (depends on the complexity)

# Payment Information

If you have any questions regarding the information above or below, please reach out to my email ([casner.michael22@gmail.com](mailto:casner.michael22@gmail.com)) or my discord (@motormikester) before commissioning; so that you can make the most informed decision possible.

*I only accept payment through paypal. After we agree on the price, I will send you my paypal account.*

## IMPORTANT

*At least 50% of the money must be paid up-front for me to accept the commission. The latter 50% will be due before I can send you the finished drawing. I do not allow refunds.*

*After the sketch phase, I will not make additional changes to the drawing after the lineart and coloring stages without a fee. The*

*amount I request as a fee will depend on how much you want changed. Do note that a change in the drawing at this mark will take a substantial amount of time to accomplish.*

**Throughout the drawing process, I will contact you via email (or discord if you prefer) with specific questions and pictures of my progress on the drawing. After sending you the completed commission, I will likely post the drawing on social media. I will always ask you for permission first.**

*I will have 2 slots for commissions at a time (will increase later).*

*I work on the commissions one at a time in the order I receive them. Expect the drawing to be completed within one to two weeks (it may take longer depending on how busy my life gets at that time).*

**Thank you and I look forward to working with you!**
