

The Treasured Persian. The Grand Cosmos. And Our Two New Exclusive Collections.

Great interiors call for exceptional carpets. Introducing a statement piece, that works well with the décor is a wonderful way of including some key design components in your space. The all-new Hands collections – Empire X and Forma II feature extraordinary handmade rugs that elevate a room's aesthetics and leave a lasting impression. While they are conceived through different inspirational triggers and are unique in their own way, they both reflect the core essence of Hands carpets – timeless art that inspires warmth and joy.

Empire X. The Persian Reborn.

Empire X, with its striking off-centre designs intricately hand knotted in wool and pure silk, displays an unconventional take on the traditional Persian rug. Infusing an inimitable sense of grandeur set in a contemporary colour palette.

<pic of Atlas Heights Aqua>

Atlas Heights is a modern take on the *Vagireh*; a rug that served as a glimpse of the larger Oushak masterfully woven in ancient Turkey. Its neutral colour scheme and ever-indulgent finish ensure it can go well anywhere, be it the grand living room, dining hall, lounge area, bedroom, or even the entertainment room.

<pic of River Riverie>

River Riverie is a reinterpretation of the ancient *Heriz* Persian rug, treasured for its brilliant warm colours and versatility. This hand knotted carpet in wool and pure silk adds intimacy and casts a spell of pure luxury. Include it in any corner of the house that demands warmth and sophistication.

Forma II. The Art of the Universe.

Forma II is a collection inspired by the grand mosaic of the cosmos - its mesmerising geometry, awe-inspiring patterns, and surreal play of tones.

<pic of Gizem>

Hand knotted carpets like the Gizem add an aesthetic twist to a space. Inspired by the dramatic and intricately sculpted form of the Grand Canyon, its earthy brown-gold hues lend warmth to any given space.

<pic of Aram>

Aram captures the beauty and unusual form of fire waves left on sedimentary rocks by the shifting of sand dunes. Frame it on a wall, leave it on the floor, this hand tufted carpet in botanical silk provides a perfect opportunity to introduce art to a space wanting of it.
