

# Corporate Governance Knowledge Lab Seminar

## **Title: Does Biodiversity Risk Affect How Markets Price Earnings? Evidence from Corporate Biodiversity Exposure**

**Speaker: Professor Tracy Wang**

Join Professor Tracy Wang (Australian National University) as she discusses how biodiversity-related risks shape the way markets assess and price earnings. Drawing on her extensive research across corporate governance, financial reporting, sustainability regulation, and information intermediaries, this session offers evidence-based insights into corporate biodiversity exposure and its implications for capital markets.
