## ARCANIA ADVENTURES

Every additional character past the first two will cost 5-10\$ (3.70-7.30\$) extra based on type and complexity

Will do- humans, anthros, fanart (I have the right to decline however), ocs (same rules for fanart applies)

Will not draw-NSFW, Mecha

Depends- suggestive (we'll talk, I don't mind drawing things like pin ups but I am very picky on the subject and if you ask for a cannon minor i will block you on the spot), gore (again we'll talk, i'm a bit more willing with this one but character and severity will effect my choice)

For comics

1. I will do sex jokes as long as the characters are at least 16 (because let's face it it's realistic) and I find the joke funny. (that being said the joke must be audible not visual)
2. No I will not kill off a character you hate in a comic
3. You have to send the the script for the comic
4. A single comic page will have 6 square panels
5. Every 5th comic page is 50% off (when for the same comic)

Basic backgrounds (single or two tone) are free

Complex is 2.50-5\$ (1.80-3.70\$) depending on complexity (comic and illustration)

If I missed anything or you're not sure about something (because this page is a mess) we can talk about it

Pay via Ko-Fi or Pay-Pal, we can discuss other methods but I have the right to decline especially if you're offering to pay me in exposure all you will get is being made fun of by my friends and I.
