

INTERIOR ILLUSTRATORS RESEARCH

D&D 5th Edition

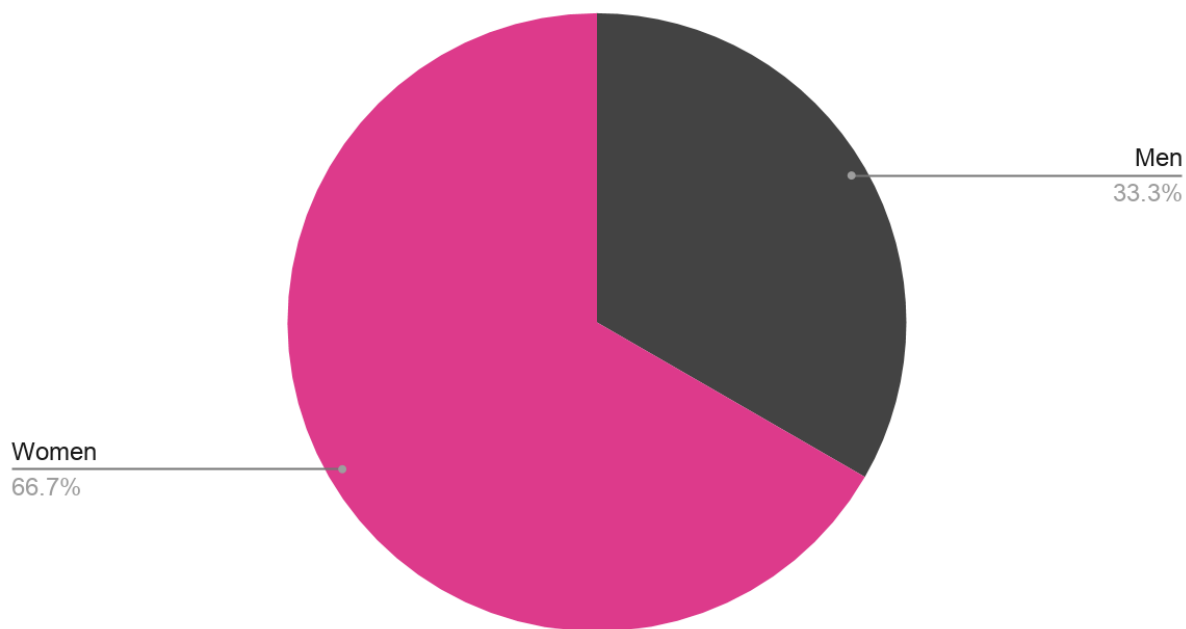

***NOTE: The 5th edition core rulebooks credit some artists who maintain fierce anonymity online. These artists are listed as jD and Min Yum. They were left out of the percentage calculations.*

Wizards of the Coast also used a visual development service called Conceptopolis for the Dungeon Master's Guide and Monster Manual. It is unclear if some of the credited artists came from this service or if there are uncredited artists affiliated with this service and the art they contributed to these books.

These unknown variables are why some totals do not match the number of men and women credited.

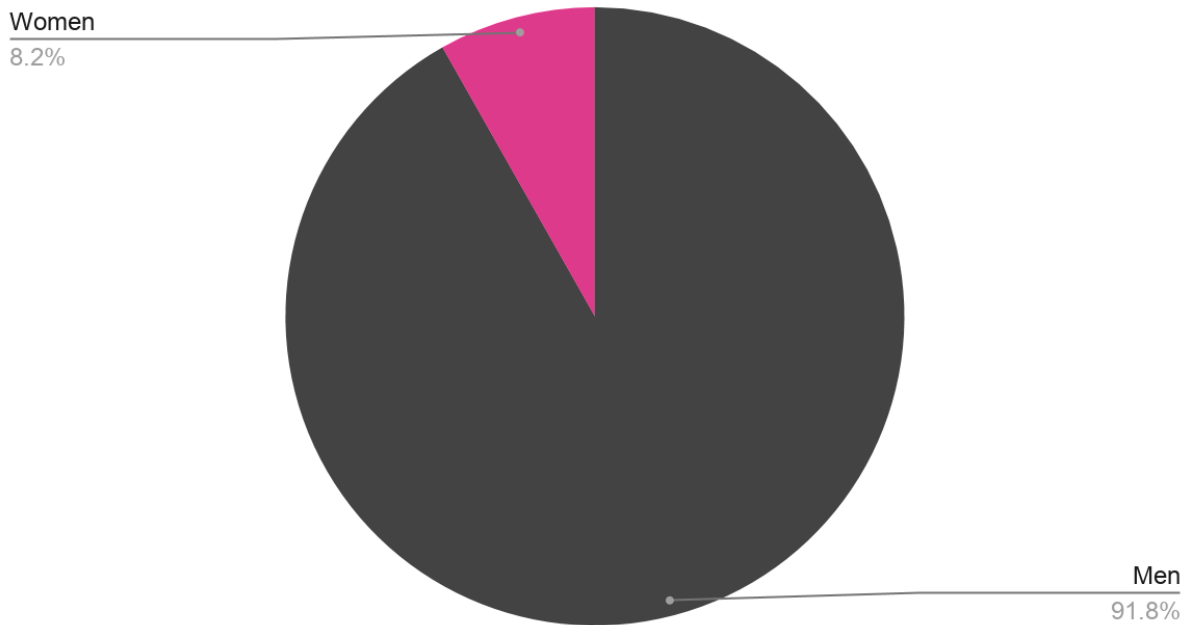

That being said, it is our opinion that, with the statistics gathered, none of these unknown variables would tip the scales all too much in terms of final numbers.
