Abstract

The abstract is written in Indonesian and English. The abstract is written in no more than 250 words with single spacing. The font size is 10pt. The abstract contains an introduction including the research objectives, methods, results, discussion, and conclusions.

Keywords: consists of minimum three up to five words.

Introduction

The introduction contains the background and objectives of the research. The manuscript is written using Times New Roman, font size 12, spacing 1.5, and is made in one column on A4 paper with a left margin of 4 cm, right 3 cm, bottom 3 cm, and top 3 cm. The length of the manuscript is a minimum of 9 pages and a maximum of 15 pages.

Methods

The method describes the design, population, sample size, sampling techniques, instruments used, and data analysis carried out. If the researcher conducts validity and reliability tests, the results must be included. This section must also include ethical approval from the ethics committee.

Results

The research results must be clearly illustrated and answer the research objectives. If the results are presented in table form, the table is presented in horizontal form. The table contents are written using Times New Roman with single spacing and a font size of 10pt. The table title is

written in Times New Roman with a size of 11pt and printed in bold and placed above the table. Table numbering uses numbers.

Images are placed symmetrically in columns with single/single spacing.

Discussion

The discussion contains the author's analysis and critical thinking on the research results. The research results are also compared with previous findings and existing theories.

Conclusion

Made in narrative form which is the main finding in the research. In addition, the conclusion also contains research limitations or recommendations for further research.

References

The references used use the Vancouver System format (numbering)

References according to Vancouver rules, the sequential number is adjusted to the appearance in the entire text, a maximum of 25 and the latest journal references are prioritized. The numbering of the cited references is placed behind the citation, using superscript font (example 1,2). If the citation number is more than 2 in sequence, the first and last numbers are separated by a hyphen (example 1-3). The writing of references must be principled and consistent. Include the author's last name and first initial. Maximum 6 people, the rest followed by et al. The first letter of the reference title is written in capital letters, the rest in lower case, except for the name of the person, place, and time. The title should not be underlined and bolded.
