POOL PLAY TIE BREAKER FORMULA

1. In any situation where two (2) teams are tied, head-to-head competition between the teams will determine the winner.
2. If more than two (2) teams tie, a point differential tie-breaker will be applied. The point differentials of the teams involved in the tie are totaled (using only games played among the tied teams). Teams are then ranked according to the sum of the point differential - with the highest number placing first, the second highest placing second. (The maximum point differential is 13 points).
3. If more than two (2) teams are still tied after the application of the formula, the point differentials of the teams not involved in the tie are added, and the results recalculated.
4. If more than two (2) teams are still tied after the application of rule #3, then rules #2 should be computed using points allowed (lowest # of points allowed is 1st, etc).
5. If rules #2-4 ever result in only 2 teams remaining tied, head to head shall prevail.
6. The score of all forfeits shall be 13-0.
