RE: January School Board Report

New ELA Curriculum Pilot:

Our Middle School ELA teachers are working through Piloting a new English Curriculum. Discussion about the need for an ELA Curriculum began last school year. In April the ELA department got together to discuss the needs. We then sat down and discussed the numerous options that are available and spent time reviewing as many options as we could. It was narrowed down to 3 options. Amplify (CKLA for middle school which our Elem. uses), My Perspectives, and EB Academics (writing). We currently do not have a consistent curriculum to use in our Middle School. With our schedule focused on having separate Reading and Writing classes, we are working at finding the best option for our staff and students. Teachers are currently teaching some lessons from these curriculum options and then we will get back together as a team to make our decision going forward.
