

ENYO ONUCHE

Fullstack Developer

PROFILE

Perfectionistic Fullstack Developer with 3+ years of experience. Skilled in **ES6(Javascript)**, **Vue.js**, **Bootstrap**, **React**, **Angular**, **TypeScript**, **SASS**, and I have experience in **Node/Express/Nest**. I'm a very **FrontEnd-inclined** developer, but I'm also very knowledgeable of the backend. Proficient in Next.js and Redux, and have a passion for developing high-quality, user-friendly applications. Looking to leverage strong skills as an engineer for your company.

Projects done can be seen at my portfolio page (maywedadev.github.io)

HOBBIES

Solving Mathematical Equations
Solving Puzzles

EDUCATION

From 2020 - Present
B.Sc in Mechanical Engineering. (CGPA 3.54)

Higherground Academy
2018
SSCE / NECO

WORK EXPERIENCE

(Contract)

Primed E-health

Nov 2022 - Present

- Collaborated with a team of developers to troubleshoot and fix technical issues
- Fixed programming errors, bugs and shortcoming of the existing software
- Worked with **Angular**, **TypeScript** and **Angular Material UI** to create usable components as a Frontend Developer
- Participated in code reviews and provided feedback to improve code quality
- Interacting with **RESTful APIs** to connect with backend and third party services.

Black British Women Exist (BBWE) Fullstack Intern

Jul 2021 – Nov 2021

BBWE is a tech company with the mission to create more opportunities for black women. I worked with a talented team of Senior developers and fellow fullstack interns to create and deploy their website.

My Contributions were :-

- Improving the design of the company website (e.g Blog, Job Section).
- Creating Reusable and Bug-free components using **Vue.js** and **TypeScript**.
- Implement the **APIs** on the Blog Section so users can create, edit and delete blogs and their content.
- Assisted teammates when capable, and learnt multiple software development courses during this internship.
