

This is a DM

Hey [name],

It's good to see you crushing it on LinkedIn, however, it came to my attention that your Instagram & Facebook have been abandoned, and I was wondering why that is?

Since Meta currently has the biggest social media platform, it's a good idea to bring your Instagram & Facebook back to life.

With the new changes on those platforms growing can be challenging, so I can help you grow and increase your agency's awareness.
