Victoria is a 37 year old, married, caucasian female who has no preference in the family she carries for. Victoria lives in St. Lucie, Florida with her husband, Shaun, and their three children.

Victoria is 4' 11.5" and weighs 155 pounds and has a BMI of 30.8. She speaks English and Spanish and is a US Citizen. Victoria describes herself as outgoing and a very big "people person". She loves to make new friends, spend time with her children and her husband.

Victoria has insurance through her husband's place of employment. It will be sent off for review to see if it will cover a surrogacy pregnancy.

Victoria graduated from Bocca High School in 2006. She did not attend college and is not pursuing any degrees.

Victoria works for a commercial AC company. She works 40 hours a week and makes \$33 an hour. She has been employed with her job since 2022. Her husband is a sales rep for Kellogg and he makes \$61,000 a year.

Victoria has never been a surrogate and has never donated eggs. Victoria has had five pregnancies and has never had a miscarriage. Victoria did have two abortions in 2007 and 2009. Victoria has never placed a child for adoption and does not have any deceased children. Her first child, a son, was born on September 17, 2007 at 40 weeks. He weighed 8 pounds 13 ounces. He was born via c-section due to his size. Her second child, a daughter, was born September 20, 2013. She weighed 8 pounds 10 ounces and was born at 38 weeks. Her delivery was a repeat c-section due to size. Her youngest child, another daughter, was born on May 11, 2018 at 38 weeks. She weighed 8 pounds 2 ounces. She was also born via repeat c-section. Victoria stated that there were no complications with any of the pregnancies or deliveries except for the c-sections due to the baby's size. Victoria and Shaun have full custody of their children. None of the children have any psychological or behavioral problems. Victoria has never gone through fertility treatment to become pregnant. She has never delivered a stillborn baby.

Victoria has regular menstrual cycles. Her cycles are approximately 27-28 days apart and last for 4-5 days on average. Victoria does not know if her mother took diethylstilbestrol (DES) while pregnant with her.

Victoria's last pap smear was conducted two years ago and was normal. She has never had an abnormal pap smear. She has never been treated for HIV/AIDS or any STD. Victoria has never suffered from depression and has never been prescribed psychiatric medications. Victoria was

AWAIT

SURROGACY

prescribed medication for her OCD and ADHD but she did not continue to take it after having a reaction to the medication. Victoria has only been hospitalized for the births of her children. Victoria did have 3 c-sections, two abortions and a tubal ligation. Victoria did have some anemia during pregnancy.

Victoria nor Shaun smoke cigarettes or use any smokeless tobacco. Victoria denies any drug use. Victoria has never used any illegal drugs. Victoria has never been diagnosed with any of the following: gonorrhea, hepatitis C, HIV, syphilis, hepatitis B, herpes, genital warts/sores, or anemia. Victoria has never had an eating disorder. Victoria does not drink alcohol.

Victoria nor Shaun have any legal cases pending. She has never been arrested or had conflicts with the law, been convicted of a felony, been accused and/or convicted of child abuse or spousal abuse, lost custody of a child, been in a substance abuse program, or declared bankruptcy.

Victoria has discussed becoming a surrogate with her husband, friends and family members and has a great support system. Victoria has no concerns about sharing her surrogacy journey with her children and Victoria states that there isn't anyone that she is aware of that is against her desire to become a surrogate.

Victoria plans on using the money she gets from being a surrogate to pay off debt and put in savings.

Victoria is willing to carry for any family located in the US or internationally. Victoria is not willing to give up pork or beef products through the journey for a family's religious beliefs. Victoria stated that she wants to become a surrogate after she got pregnant young and her sister struggled with infertility. She offered to be her sister's surrogate if needed. She later had two friends that were surrogates. She has not stopped thinking about being a surrogate and cannot wait to help someone's dreams come true.

Victoria is ok with having selective reduction for any reason and believes that it is up to the intended parents to make that decision. Victoria is willing to transfer one embryo at a time. She is ok with carrying twins and carrying triplets if it happens naturally. Victoria is ok with an amniocentesis if deemed necessary by a doctor. Victoria states that she is ok with the intended parents being in the delivery room. She is open to communication after delivery if the intended parents desire it. Victoria is open to the intended parents coming to doctors appointments, taking pictures and being in the delivery room. She stated that she would like as much communication as possible with the Intended Parents during the pregnancy. Victoria would also like to stay in contact after delivery.

Victoria is willing to get the flu vaccine if needed but she is not willing to get the Covid vaccine.
