Abstract: A single paragraph of of 150 to 250 words. For research articles, abstracts should give a pertinent overview of the work. The abstract should be an objective representation of the article, it must not contain results which are not presented and substantiated in the main text and should not exaggerate the main conclusions.

Keywords: *Please provide 4 to 6 keywords which can be used for indexing purposes.*

1. Introduction

The template details the sections that can be used in a manuscript. (Manuscript must be written in English. The font of main text is Times New Roman, size 11, line spacing: at least 13 pt). The Introduction should state the purpose of the investigation and give a short review of the pertinent literature. References should be numbered in order of appearance and indicated by a numeral or numerals in square brackets, e.g., [1] or [2,3], or [4–6]. See the end of the document for further details on references.

2. Materials and Methods

The Materials and methods section should follow the Introduction and should provide enough information to permit repetition of the experimental work. This can be more than one paragraph, and may contain subsections and equations.

2.1. Subsection #1

The text continues here.

2.2. Subsection #2

The text continues here.

3. Results

The Results section should describe the outcome of the study. This section may be divided by subheadings.

3.1. Subsection

The text continues here.

3.2. Figures, Tables and Schemes

All figures and tables should be cited in the main text as Fig. 1, Table 1, etc.

Figure 1. This is a figure, Schemes follow the same formatting.

Table 1. This is a table. Tables should be placed in the main text near to the first time they are cited.

Title 1	Title 2	Title 3
entry 1	data	data
entry 2	data	data ¹

¹ Tables may have a footer.

3.3. *Formatting of Mathematical Components*

This is an example of an equation:

a = 1,

(1)

the text following an equation need not be a new paragraph. Please punctuate equations as regular text.

4. Discussion

The Discussion should be an interpretation of the results and their significance with reference to publications of other laboratories.

5. Conclusions

This section should be not too long.

Funding: This section is not mandatory. Please add: “This research was funded by NAME OF FUNDER, grant number XXX” and “The APC was funded by XXX”.

Acknowledgments: This section is not mandatory. In this section you can acknowledge any support given which is not covered by the author contribution or funding sections.

Conflicts of Interest: Declare conflicts of interest or state “The authors declare no conflict of interest.”

References

References must be numbered in order of appearance in the text (including citations in tables and legends) and listed individually at the end of the manuscript. We recommend preparing the references with a bibliography software package, such as EndNote, Mendeley-ReferenceManager or Zotero to avoid typing mistakes and duplicated references. Include the digital object identifier (DOI) for all references where available.

In the text, reference numbers should be placed in square brackets [], and placed before the punctuation; for example [1], [1–3] or [1,3]. For embedded citations in the text with pagination, use both parentheses and brackets to indicate the reference number and page numbers; for example [5] (p. 10), or [6] (pp. 101–105).
