Instructure.

Showcase Series

Integrating Canvas and Google

This Integrating Google session focuses on the integration between Canvas and Google Apps and the Google Assignments and NEW Google Collaborations LTI 1.3 which makes it easier to leverage resources from instructors' Google Drive directly into Canvas. This session showcases options for embedding content, facilitating collaborative opportunities and creating cloud based assignments with these external tools.

Session Agenda

Overview

- What are Google Assignments 1.3
- Google Workspace for Education (formerly G Suite for Education) account

Building Static Content

(Non-Assignments)

Rich Content Editor

- Inline Documents
- Embedded Documents

Modules

- Adding Content as an External Tool

Building Assignment Content

Assignments

- Google Assignments 1.3

Student View of Assignments

- Google Assignments 1.3

Collaborations

- Google LTI 1.3 Collaborations
