

7 Appliances To Make Your Home Summer Ready

summer appliances philippines, online appliance store philippines

What are the appliances you need for summer in the Philippines?

1. Air Conditioner: To Keep You Cool
2. Air Circulator: To Help You Save Electricity
3. Exhaust Fan: For Hassle-Free Cooking
4. Air Fryer: For No-Sweat Cooking
5. Indoor Grill: For Indoor Summer Grilling
6. Double Door Refrigerator: For Storing Food
7. Ice Maker: For Every Day Ice

Back then, whenever summer kicked in, we couldn't help but feel excited for the upcoming vacations and swimming trips. However, things are much different now. Due to the pandemic, you will probably spend most of your time indoors. Since the heat can get unbearable, you're going to need summer appliances in the Philippines from an online appliance store to keep you and your family cool and comfortable. Read on!

Air Conditioner: To Keep You Cool

Before everything else, you need to ensure that your home is a comfortable place for you and your family. Otherwise, even if you stay indoors, your house will feel like an oven that is slowly cooking you with the heat in the country.

If you're concerned about the high electricity bills after turning on your air conditioner, we've got a solution for you! Get the Hanabishi Inverter Split Type Air Conditioner! It's one of the best summer appliances in the Philippines. Because of its efficient inverter, you can save up to 60% on energy consumption. You get to beat the heat without the guilt!

Air Circulator: To Help You Save Electricity

Another summer appliance you can get is an air circulator! Apart from making your space feel more comfortable, it can also help you reap more savings.

The Hanabishi Air Circulator Fan HACF88 can take some burden off your air conditioner. If you usually switch off your air conditioner within the day, the air calculator

can achieve the same cooling effect. Because of its swing function, all family members will feel comfortable wherever they are in the room!

Exhaust Fan: For Hassle-Free Cooking

If you're always cooking, heat may be easily trapped inside your home. Combined with the high humidity, you might feel sweaty and sticky after preparing your family's meals. That's why you need the Hanabishi Wall Exhaust Fan!

Apart from getting rid of the hot air inside your home, it can also remove smoke and the smell of food from lingering indoors. As a result, you will end up with a cooler and fresher-smelling house!

Air Fryer: For No-Sweat Cooking

Speaking of cooking, you might feel unmotivated to cook in the kitchen because of the heat. Even something as simple as frying can make you sweaty and uncomfortable. That's why as much as possible, you may want to limit your time staying in front of your stove.

Fortunately, you can prepare your meals without the hassle and sweat when you use the Hanabishi Air Fryer Hafeo 30SS! Instead of exerting extra effort and time with cooking, you can just set the timer and relax while waiting. This air fryer oven in the Philippines can even prepare group meals for your home family gatherings.

Indoor Grill: For Indoor Summer Grilling

Summer won't be complete without grilled dishes. If you're looking to grill indoors this summer, get yourself the Hanabishi Smokeless Indoor Grill HSMOKELESS50! You don't need any charcoal with this appliance. All you need to do is plug it in, cook your meat, and you're good to go. With a built-in exhaust fan and glass cover, you won't have to worry about hot oil and smoke. Grill conveniently any time!

Double Door Refrigerator: For Storing Food

Always have leftovers? Don't throw them away! You can always store it and eat them the next day. For example, the untouched extra rice left from dinner is perfect for the next day's breakfast *sinangag*.

Because of the summer heat, most foods will spoil faster! Because of this, appliances such as the Hanabishi Double Door Refrigerator HADDREF80DCINV are essential during summer.

Plus with this appliance, you won't ever have to worry about storing your groceries. You'll always have space!

Ice Maker: For Every Day Ice

Tired of rushing to the convenience store to buy ice? With the Hanabishi Ice Maker HICEMAKER240, you won't need to anymore! From iced coffee to luscious smoothies, you can make ice-cold drinks and keep yourself cool for the whole day.

Key Takeaway

We all know how hot in can get in the country — especially during summer. For a pleasant and enjoyable stay in your home during the hot season, you need to get these summer appliances in the Philippines**!** Otherwise, your house can feel uncomfortable for

you and your family. But because of the high demand for these products, you might have a little difficulty getting them from authorized sellers near you.

Fortunately, Hanabishi has an official store at the Lazada Mall. This way, you won't have to go outdoors where it's hot and sunny. Instead, you can have these appliances delivered to your home to make your house summer-ready. Shop now!
