SPORADIC. Don't be alarmed if my activity is wonky - my focus is a bit shoddy, so sometimes I'll be super active for weeks, and sometimes I vanish for literal ages. If it's been over a month since you've seen a proper reply out of me, then feel free to poke at me. Even if I'm not active, I do lurk, so always feel free to contact me via Discord or through IMs.

BLOG CONTENT. Touhou Project is overall a pretty light hearted series, so there shouldn't be anything to really worry about. Common themes of the franchise mostly include being forgotten, youkai and other folklore elements, the potential for general horror and huge supernatural elements of all varieties. Ic threads with these themes will not be tagged.

- ★ I **WILL**, however, tag triggers in ooc posts/image reblogs to the best of my ability. If I ever forget to tag something please let me know and I will do it right away.

YOUKAI NATURE. Please understand my character *isn't human*, and can act plenty antagonistic to others at times. In her series she is a very old, very powerful being who possesses abilities on par with those of gods. I will not harm your character without permission, but if your muse is an average human and pushes my muse even knowing how dangerous she is and you are not willing to work something out with me/face potential consequences, we'll have to drop the thread. I'm not changing Yukari's character to make her play nice with other muses. Being a very powerful youkai, Yukari is basically impossible to kill by any conventional means.

YOUKAI? Youkai (妖怪, "mystic apparition" or "mysterious calamity") is a term used to refer to Japanese folk creatures and ghosts, or to supernatural beings in general. Because there are thousands of stories of magical beings around the world, the different types of youkai are endless.

The term youkai is sometimes used interchangeably with obake (お化け, roughly "one that takes on a form"), meaning things which have undergone some kind of supernatural change, beings with shapeshifting powers, or phantoms and ghosts. It is a common Japanese belief that after a certain amount of time, ordinary objects and animals gain life and personality, becoming a kind of youkai. In some cases even a normal human can become a youkai under the right conditions.

Basically, **Youkai is a catchall term.** It means *any* sort of supernatural being, especially those found in folklore, even if the creature isn't natively from Japan. Demons, Devils, Vampires, Werewolves, and so on are all Youkai. **In other words, not all Youkai are Vampires, but all Vampires are Youkai.**

THE BASICS. *general rules that apply to all of my blogs can be found* [HERE!](#)
