A short abstract in italicized font (Arial 10 point) showing the main highlights and important findings of the research work to be presented. Please limit the abstract to about 50 words (maximum 4 lines). Leave one line gap after the abstract.

The main summary of the research work could be divided into different paragraphs with figures and equations. The text should begin with a paragraph of introduction giving clearly the context of the work. Text of the summary should be in Arial 10 point. No sections headings should be used. The page size of A4 should be used with 'Normal' margins (1 inch on all four sides). The maximum page limits is 2 pages. Use 8 point spacing after paragraphs. No indent in the first line of the paragraph.

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Fig. 1: Figure caption

The figure along with its caption be inserted in a text box which is interspersed with the paragraph using the 'tight' wrapping option in Layout options. The figure caption should be in size 8 and italicized.

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old. Richard McClintock, a Latin professor at Hampden-Sydney College in Virginia, looked up one of the more obscure Latin words, consectetur, from a Lorem Ipsum passage, and going through the cites of the word in classical literature, discovered the undoubtable source. Lorem Ipsum comes from sections 1.10.32 and 1.10.33 of "de Finibus Bonorum et Malorum" (The Extremes of Good and Evil) by Cicero, written in 45 BC. This book is a treatise on the theory of ethics, very popular during the Renaissance. The first line of Lorem Ipsum, "Lorem ipsum dolor sit amet..", comes from a line in section 1.10.32.

Equations should be centered and could be numbered if they are referred to later in the text.

$$ax^2 + bx + c = 0 \quad (1)$$

The standard chunk of Lorem Ipsum used since the 1500s is reproduced below for those interested. Sections 1.10.32 and 1.10.33 from "de Finibus Bonorum et Malorum" by Cicero are also reproduced in their exact original form, accompanied by English versions from the 1914 translation by H. Rackham.

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout. The point of using Lorem Ipsum is that it has a more-or-less normal distribution of letters, as opposed to using 'Content here, content here', making it look like readable English. Many desktop publishing packages and web page editors now use Lorem Ipsum as their default model text, and a search for 'lorem ipsum' will uncover many web sites still in their infancy. Various versions have evolved over the years, sometimes by accident, sometimes on purpose (injected humour and the like).

There are many variations of passages of Lorem Ipsum available, but the majority have suffered alteration in some form, by injected humour, or randomised words which don't look even slightly believable. If you are going to use a passage of Lorem Ipsum, you need to be sure there isn't anything embarrassing hidden in the middle of text. All the Lorem Ipsum generators on the Internet tend to repeat predefined chunks as necessary, making this the first true generator on the Internet. It uses a dictionary of over 200 Latin words, combined with a handful of model sentence structures, to generate Lorem Ipsum which looks reasonable. The generated Lorem Ipsum is therefore always free from repetition, injected humour, or non-characteristic words etc

The sample reference template is provided in the references section. Please observe that we follow a concise presentation for citing references where the paper title is omitted. A similar approach should be followed for citing conference presentations. The font for citing references should be 8 points Arial. The name of the journal should be in italics. A citation must contain the list of authors, title of the Journal/Conference/Book, issue, volume, page number and year. A sample book citation is [1], a journal could be cited as [2], while a conference paper as [3]. This style is a slightly modified version of the style referred to as 'Elsevier (numeric, without titles)'. Sed utquam sed odiosollicitudin tristique et eget orci. Etiam mollis auctor lacinia. IMPORTANT: The file, in the pdf format, must be named as follows: XXXYYYYN.pdf. Here XXX is the 3-letter code of the subtopic in which your paper falls; these are defined in the Call For Papers and on the website. YYYY is the 4-letter identifier for first author surname and N is a number to identify papers in case you have more than one paper. For example, a paper in Theory, Modelling & Simulation (THM) subtopic by Anurag Sharma would be named as: THMSHRM1.pdf. Another paper by the same authors in the same topic would be THMSHRM2.pdf.
