

Privacy Policy — Lebanese Proverbs for LaMetric

Last updated: 05-12-2025

The *Lebanese Proverbs* app for LaMetric is designed to bring cultural sayings and wisdom to users around the world, especially the Lebanese diaspora. We care deeply about your privacy and want to be transparent about how this app works and what data it uses.

1. Information We Collect

The app **does not collect, store, or process any personal data** from users.

- No names
- No device identifiers
- No IP addresses
- No location information
- No analytics
- No tracking of any kind

The app simply displays cultural proverbs on your LaMetric Time device.

2. How the App Works

The app retrieves a proverb from a publicly accessible Google Apps Script endpoint.

This endpoint delivers a proverb in JSON format for display on your LaMetric device.

- No user information is sent from the device
- The request does **not** include any personally identifiable information
- The service does **not** log or store user requests

All content is generated automatically using a static data source.

3. Third-Party Services

The app interacts only with:

- **Google Apps Script**, which hosts the public proverb feed
- **LaMetric Cloud**, which manages your device's app ecosystem (as part of normal device operation)

No third party receives or processes personal user data from this app.

4. Data Security

Because we do **not collect or store any data**, there is no personal data to secure.

The app operates in a strictly one-directional flow:

Google Sheet → Apps Script → Your LaMetric device.

No data flows back from the device to our servers.

5. Children's Privacy

This app does not collect personal information from anyone, including children under 13.

The content (proverbs) is non-commercial and suitable for all ages.

6. Changes to This Privacy Policy

If we update this Privacy Policy in the future (for example, if we add optional features), changes will be posted here.

Continued use of the app after updates will indicate acceptance of the revised terms.

7. Contact

If you have any questions about this Privacy Policy or the app:
