

PODEMOS broadens its partnerships

If we still adding alliances with other political formations, to take greater electoral revenue, you will come a day when you will not know what ideas or defends. The totum revolutum having organized within, with so many different coalitions, each with a different-interest is poised to be more revolutum if possible. Pablo Iglesias is now pulling the cane nationalists MES, animal lovers of PACMA and, of course, IU to see if the fish and get them to join your party. With all this hodgepodge will try to Sorpasso the PSOE in the upcoming elections on 26-J. Objective: to be the second political force and try to form from this position the progressive government that could not be created in the last legislature. Trying to compose music leader can sound good, but it will be impossible to write a letter to convince. Because each party with which it is allied will want to sing his. Pablo Iglesias is wrong to think that is able to act as a catalyst that can unite the different left: socialist, communist or radical independence. If you have been separated for decades, there will be some compelling reason that escapes.
