- 4. March 22, 2022, 7:00 - 8:30 PM: World Water Day 2022 Community Conversation - A Call to Action**

Please join the Water Wise network for an evening of conversation in celebration and protection of freshwater. Our borders share more than just the water, we share personal connections that call on us to take action to preserve this important life source in our communities today and for future generations. Speakers include:

- **Elizabeth Edgar-Webkamigad**, Director Health and Human Services, Batchewana First Nation: Indigenous Worldview and Water
- **Rebecca D'Orazio**, Aquatic Invasive Species Specialist, Invasive Species Centre: Aquatic Invasive Species in the Algoma Region
- **Kevin Kapusinski, Ph.D.**, Assistant Director for Freshwater Research, Center for Freshwater Research & Education, Lake Superior State University: Invasive European Frog-bit in St. Mary's River
- **Jon Doubek, Ph.D.**, Assistant Professor, School of Natural Resources & Environment and Center for Freshwater Research and Education, Lake Superior State University: Climate Change Impacts on Lake Function
