Minutes

1. Updates

- a. Jonas Lee is on extended medical leave. See attached email on ways to support him and his family during this time.
- b. We will hold an OB Retreat on June 2, in-person at the Whitney Way office. Let Bethany know if you have topics you'd like to present or have covered at the retreat.

2. Call/Rounding Overview

- a. At the last meeting we reviewed two options for call group structures:
 - i. Option 1: Community Faculty remain in a Community Call group with decreased call responsibilities.
 - ii. Option 2: Community Faculty join the Residency Call group and continue OB Rounding weeks with the Community group. There will not be an option of attending on FMONS at this time.
- b. Questions that remain for the groups to discuss include:
 - i. Who would be responsible for rounding on dyads and
 - ii. Scenarios where they can sign out labor management to FMONS/Residency for a period of time and be able to resume labor management care after that.

3. Summary of Breakout Groups

- a. Both groups are in favor of the community group continuing to round on their patients, even if delivered by FMONS (the Wildwood model).

- b. The residency group is generally happy to cover for community partners when already in house. Questions remain about what it would look/feel like to be asked to cover if not already in house.
- c. The Community group provided examples, such as being able to attend their child's Saturday afternoon soccer game, asking the residency call person to cover for a few hours if a patient comes in, but if the patient gets active and FMONS ends up covering all of labor, the community provider would not swoop in for delivery.
- d. The community group is not expecting the residency group to cover their overnight calls.
- e. The community group is concerned how rounding weeks will affect the new hours requirement.
- f. Most of the community group present were in favor of option 1, remaining in the community call group, or undecided.

4. Next Steps

- a. Bethany will lead discussions and/or votes about whether some smaller support actions can be taken while we continue to explore bigger changes.

Please share your feedback on this meeting and suggest agenda items for future meetings:
