Powers Fasteners Presentation

presented by Donn Raduenz

Cost: free to SEA-WI members and non-members

When: Thursday, April 14th, 12:00pm to 1:30pm

Continuing Education: 1.25 professional development hours

Where:

hosted by **Larson Engineering Inc**

2801 E Enterprise Ave # 200

Appleton, WI 54913-8558

office: (920) 734-9867

Summary:

The attachment outlines the seminar content which takes 1 hour 15 minutes and includes a small amount of hands on demonstration. I am highlighting the **new Powers PDA 2.0 anchor design software**, which performs **ACI 318 Appendix D** calculations in seconds instead of hours. The software performs design work using any of the following anchor types.

- Powers post installed anchors(e.g. AC-100+Gold, PE-1000+ adhesives, Power-stud+SD1 & SD2, Atomic+ Undercut anchor, Wedge-bolt+...)
- Code Cast-In-Place (CIP) Anchors (e.g.. Headed Bolts & "L" or "J" Bolts)
- Custom Anchors (e.g. other manufacturers)

Please register before April 12, 2011
