Guidelines

We welcome the submission of high-quality pictures (camera capture/digitised hand drawing) of invasive alien species in India. We will display the selected pictures on the IFIB website along with your name and affiliation. Please note the following details while sending these pictures:

- The picture should be original, preferably captured in an Indian landscape.
- Submit low-resolution photographs first. We will ask for high-resolution ones later.
- Each photograph should accompany the following information: a) the name of the species, b) location, and c) date of capture.
- Please do not supply photographs as PowerPoint files. Do not save PowerPoint files in TIFF or JPG format, as these are generally of poor resolution.
- The photograph should be free from any form of copyright. Before publishing on the website, you may need to sign a form declaring that the submitted photograph is free from any kind of copyright agreement.
- You need to submit a high-resolution copy of the selected photograph, preferably in TIFF, PSD or a low-compression JPEG or TIFF format at 600 dpi or 300 dpi, respectively.
- Submit your photograph here: https://forms.gle/zYxK8ekpWFJzaCkj6
